HUMAN INTEREST

This is the mysterious document received by Prof. A. J. Gevaerd from Brazil, by EXPRESS MAIL at the Oasis Resort Hotel in the small town of Mesquite, Nevada, where he was a guest speaker at the famous INTERNATIONAL UFO CONGRESS in 1995. When he opened the 11" x 14" one inch thick package, there was a 180 page report on the UFO activities of the U. S. Government over the previous ten years, including the then little known facilities at area %1 in Nevada, those activities at Los Alamos and also at Dulce, New Mexico.

We watched those described events revealed one by one over the next ten years, slowly confirming the contents of this document, including some of the discoveries of Dr. Richard Boylan such as the Star Wars City, The secret Space Academy in Colorado, Companies participating in our own disc development program, the comprehensive activities at Dulce Base in New Mexico.

The originator of this document was a U. S. Government insider who became disenchanted at the pervasiveness of the activities and the brutality of its directors and left his highly paid and important inside job, and immediately became the "hunted", on the run for his life. He has left this country and is in hiding with a new identity in a foreign country, unknown to us at this time.

The gradual confirmation of many things he said ten years ago is what has now prompted me to release this document for all to read. I have no way to verify the truth of any of it. You may now judge for yourself.

The **BLUE PLANET** Project

INTRODUCTION

This strange UFO Document was delivered via EXPRESS mail, addressed to Prof. A. J. Gevaerd, A well known UFO researcher who publishes the only slik UFO Journal in Brazil, monthly, and who was scheduled to speak at our now famous INTERNATIONAL UFO CONGRESS in 1995. Now this was addressed to A. J. Gevaerd, c/o Si Reo's Oasis Hotel, Mesquite, NV 89024, where we were all staying at that time.

The address was correct and the two pound package was delivered to A. J. on 30 November 1995, the same day it had arrived. The return address showed that it came from one Martin Gable, P.O. Box 698, Chicago, IL 60624, now defunct. My letters to that address were returned marked "Party unknown this address".

No author and no publisher were shown anywhere, but the introductory page seemed to express a desire to disseminate this information widely in order to make the public aware of what was supposedly going on that our government was not telling us about.

Gevaerd looked the manuscript over, trying to scan it in his limited English comprehension, and not quite understanding anything about it, handed it to me to check out and do what I pleased with it. He said he was not interested.

I tried to follow up on it with no response. Either the mailing agent chose not to get involved, or in fact did not know

what the document said. Thus we have no clue to the actual origin or authorship, and ordinarily I would write it off myself as just so much gibberish – except that it mentions a number of things that were complete mysteries at the time, that now have answers, such as the black helicopters that morph into spheroids or vice versa, The underground facility at Dulce, NM; various different “grays”, a much extended periodic Table of Elements, etc.

Dr. Richard Boylan would find corroboration for much that he has learned in the last ten years also, such as “Star Wars City”, the *secret* Air Academy at Colorado Springs, etc., here.

While documentation to support statements is sparse indeed, and we have no way to separate fantasy from facts, an informed researcher will find much of interest here.

I have decided not to alter the text one iota, here, in order not to contaminate the originality of the presentation. Each reader will have to decide for himself, based on his own knowledge and experience, what to accept and what to reject in this account. I find much that I accept now, but I also find much that I am not ready to accept yet, however, I would say that the balance weighs on the side of acceptance.

Here then is an exact reproduction of those pages received in 1995.

If this comes to the attention of the actual author, I urge him to get in touch with me as soon as he can, at my E-Mail address: s18195a@aol.com

PREFACE

The following document is believed to be the personal notes and scientific diary of a scientist who was contracted by the government over several years to visit all crash sites, interrogate captured Alien Life Forms and analyze all data gathered from that endeavor. He also wrote notes on or about any documents which he came in contact with, which in any way related directly or indirectly to the organization, structure or operation for the collection of such data.

This individual was discovered to have kept and maintained such personal notes and therefore was scheduled for termination. He narrowly escaped termination by the government and is currently in hiding out of this country.

We believe his involvement in these investigations span over a thirty-three (33) year period. He was soon discovered and immediately went into hiding in 1990.

We modified his personal notes only so slightly, and only when necessary to make them flow together and read correctly.

When you read this document, it may disturb you. The real facts have a tendency to do exactly that, but this information needs to get to the general public. I caution you to use your best judgement when allowing a minor child to read this document.

At this time, to the best of the data we have available, there are at least one hundred and sixty (160) species or races of Aliens from different galaxies, stars and planets we have encountered. You will find as much data (as we have available thru 1990) on each race in the following pages, as each race is discussed. There are still more Aliens we haven't encountered yet, but we feel it won't be long before we do...

There will be more to come later.....:

THE INVISIBLE GOVERNMENT

The National Security Council, Old Executive Office Building, Washington, DC. 20506, Phone Number (202) 395-4974, was established by the National Security ACT of 1947 (61 Stat. 496;50 U.S.C. 402).

- ✓ President Truman signed the National Security ACT on July 26, 1947 and immediately named Secretary of the Navy Forrestal as the first Secretary of Defense. Forrestal and others were sworn in September 17, 1947.

The ACT established "under the National Security Council" a Central Intelligence Agency headed at that time by "Director", Rear Admiral Roscoe Hillenkoeter. It provided a comprehensive program for future Security of the United States, and the ACT created the NSC to advise the President with respect to the integration of domestic, foreign, and military policies relating to the National Security, with the special duty to "Access and Appraise the objectives, commitments, and Risks.... The funds for the CIA were hidden in the annual appropriations for other agencies. Today, collectively, U.S. Intelligence Operations (almost totally clothed in secrecy) cost more than \$1 Billion Dollars annually.

The researchers Moore, Shandera, and Friedman have referred to briefing document:

Operation Majestic 12
NSC, MJ-12
Special Studies Project

MJ-12 is said to be a TOP SECRET Research and Development, Intelligence Operation established by President Truman on September 24, 1947. MJ-12 was a "Committee" set up inside the NSC. In 1954, President Eisenhower signed the Secret Executive Order, "Order Number 54-12".

Newsweek of June 22, 1964, carried a review of "The Invisible Government"....."One of their major revelations is the existence of the Special Group "54-12", a hitherto classified adjunct of the National Security Council, specially changed by the President with ruling on special operations."

The NSC called this group the "54-12" committee "which gave the President responsibility of approving all "Black" covert projects. This committee has undergone several changes over the years, and since then, has been called the "SPECIAL COMMITTEE", the "303 COMMITTEE" and currently the "40 COMMITTEE" and is represented as XXXX = the double - double cross. It is described as the "Directorate" of the NSC. The "40 COMMITTEE" has access to advanced technology and teams to cover-up, "the cover-ups"! In the past, this committee was headed by Dr. Henry Kissinger (code name: "The Overseer") when he gave William Colby permission to commission Howard Hughes, Summa Corporation to build a submarine, and a special craft or salvage vessel. The salvage vessel called "Glomar Explorer", was equipped with refrigeration capacity for up to a hundred bodies.
(Why???)

In early May 1988, the former President Ronald Reagan said he often wonders what would happen if the Earth was invaded by a 'Power from Outer Space'. It has also been reported that the President is briefed on UFO developments and 'Alien Visitors, by Planetary Intelligence group #40 (PI-40).

OPERATION MAJORITY - CR-20M7/6.2 - FILE: MTR/K-25 MWC/JL - AFMWC/1972 USN

Operation Majority is the name of the operation responsible for every aspect, project and all consequence of Alien presence on Earth.

Majesty was listed as the code word for the President of the United States for communications concerning this information.

Grudge contains 16 volumes of documented information collected from the beginning of the United States investigation of the Unidentified Flying Objects (UFOs) and Identified Alien Crafts (IACs). The project was funded by the CIA, (confidential funds, non-appropriated) and money from the illicit drug trade. Participation in the illegal drug trade was justified in that it would identify and eliminate the weak elements of our society.

The purpose of project Grudge was to collect all scientific, technological, medical and intelligence information from UFO & IAC sightings as well as contacts with Alien Life Forms. This orderly file of collected information has been used to advance the United States Air Force Space Program, (TOP SECRET).

Jason Society (Jason Scholars) President Eisenhower (former) commissioned a secret society known as the Jason Society (or Jason Scholars) under the leadership of the following; Director of Central Intelligence, Allen Welsh Dulles, Dr. Zbigniew Brzezinski, President of the Trilateral Commission from 1973 until 1976, and Dr. Henry Kissinger, leader of the scientific effort, to sift through all the facts, evidence, technology, lies and deceptions and find the truth of the Alien question. The society was made up of thirty two (32) of the most prominent men in the U.S.A.

MJ-12 is the name of the secret control group inside the Jason Society. The top twelve (12) members of the thirty two (32) members of the Jason Society were designated the MJ-12. MJ-12 has total control of everything. They are designated by the code J-1, J-2, J-3, etc. all the way through the members of the Jason Society. The director of Central Intelligence was appointed J-1 and is the Director of the MJ-12 group. MJ-12 is responsible only to the President of the United States. Believe it or not, MJ-12 runs most of the worlds illegal drug trade. This was done to hide funding and thus keep the secret from the Congress and the people of the United States. It was justified in that it would identify and eliminate the weak and undesired elements of our society.

* The actual cost of funding the Alien connected projects is higher than anything you can imagine !

it was the MJ-12 group who ordered the assassination of President Kennedy when he informed MJ-12 that he was going to tell the public all the facts of the Alien presence. He was killed (coup de grace) by the Secret Service Agent driving his car, (who fired the final and most critical shot) and it is plainly visible in the film, which has been held from public view, and the twenty two (22) material witnesses to the Kennedy's murder died within two (2) years thereafter.

MJ-12 has a special program for elimination of the considered weak members from U.S.A's society.

ON A BIG SCALE....Creation of an artificial disease known as **"AID's"**.

ACCIDENTS....of people who we know to have been secretly eliminated.

DISAPPEARANCES/MURDER....of some people who we know to have been secret eliminations also.

The above, are just a few of the tactics which MJ-12 uses when they consider people Dangerous by knowing too much !

A secret meeting place was constructed for the MJ-12 group in Maryland and was described as only accessible by air. It contains full living, recreational, and other facilities for the MJ-12 group and the Jason Society. It is code named **"The Country Club"**. The land for The Country Club was donated by the Rockefeller Family. Only those with TOP SECRET - MAJIC clearances are allowed to go there.

MAJI = Majority Agency for Joint Intelligence. All information, disinformation, and intelligence is gathered and evaluated by this Agency. This agency is responsible for all disinformation and operates in conjunction with the CIA, NSA, DIA, and The Office of Naval Intelligence. This is a very powerful organization and all Alien projects are under its control. MAJI is responsible only to MJ-12. MAJIC is the security classification and clearance of all Alien connected material, projects, and information.

MAJIC = means MAJI controlled, (MAJI plus Controlled = MAJIC).

NOTES: MJ-1 is the classification for the director of MAJI, who is the Director of the CIA and reports only to the President. Other members of MAJI are designated MJ-2, MJ-3, MJ-4, etc. This is why there is some confusion about references of MJ-12, the group or MJ-12 the person.

- Designation for MJ-12, the group are MAJI or MAJIC.
- Designation in official documents about MJ-12 means the person only.

THE U.S.'s ALIEN COVER-UP - It seemingly all began thousands of years ago, but for the purpose of this discussion, let's start with some events that we all are familiar with. In 1947, two years after we set off the first nuclear explosion that our current civilization detonated, came the Cap-Mantell episode, where we had the first incident of a military confrontation with extra-terrestrial that resulted in the death of the military pilot. It is quite evident now that our Government did not know quite how to handle the

situation. In 1952, the nation's capital was overflowed by a series of disks. It was this event which led to the involvement of the United States Security Forces (CIA, DIA, NSA, & FBI) to try to keep the situation under control until they could understand what was happening. During this period, the original members of the group were:

- ✓ *Secretary James Forrestal*
- Admiral Roscoe H. Hillenkoetter*
- General Nathan P. Twining*
- General Hoyt S. Vandenburg*
- General Robert M. Montague*
- Dr. Vannevar Bush*
- Dr. Detlev Bronk*
- Dr. Jerome Hunsaker*
- Dr. Donald Menzel*
- Dr. Lloyd V. Berkner*
- Mr. Sidney W. Souers*
- Mr. Gordon Gray*

This group was a working group, established by the Government, known as MJ-12.

The MJ-12 group has been an existing group since it was created with new members replacing others that died. For example, when Secretary Forrestal was upset at seeing the United States sold out in World War II, he wound up being sent to a Naval hospital for emotional strain. Before relatives could get to him, he "Jumped Out a 16th Story Window". People close to him consider his suicide contrived. When Forrestal died, he was replaced by General Walter B. Smith.

In December of 1947, PROJECT SIGN was created to acquire as much information as possible about UFOs, their performance characteristics and their purposes. In order to preserve security, liaison between Project Sign and MJ-12 was limited to two (2) individuals within the intelligence division of the Air Material Command whose role was to pass along certain types of information through channels. Project Sign evolved PROJECT GRUDGE in December 1948. Project Grudge had an overt civilian counterpart named PROJECT BLUE BOOK, with which we are all familiar. Only "Safe" reports were passed to Blue Book.

MJ-12 was originally organized by General George C. Marshall in July 1947 to study the Roswell-Magdalena UFO crash recovery and debris. Admiral Hillenkoetter, director of the CIA from May 1, 1947 until September 1950, decided to activate the "ROBERTSON PANEL", which was designed to monitor civilian UFO study groups that were appearing all over the country. He also joined NICAP in 1956 and was chosen as a member of its board of directors. It was from this position that he was able to act as the MJ-12 "Mole", along with his team of other covert experts. They were able to steer NICAP in any direction they wanted to go. With the "Flying Saucer Program" under complete control

of MJ-12 and with the physical evidence hidden away, General Marshall felt more at ease with this very bizarre situation. These men and their successors have most successfully kept most of the public fooled for at least 39 years or more, including much of the western world, by setting up false experts as real experts and throwing their influence behind them to make their plan work, with considerable success, until now.

Within six (6) months of the Roswell crash on July 2, 1947 and the finding of another crashed UFO at San Augustine Flats near Magdalena, New Mexico on July 3, 1947, a great deal of reorganization of agencies and shuffling of people took place. The main thrust behind the original "Security Lid", and the very reason for its construction, was the analysis and attempted duplication of the technologies of the discs. The activity is headed up by the following groups:

The Research and Development Board (R&DB)
Air Force Research and Development (AFRD)
The Office of Naval Research (ONR)
CIA Office of Scientific Intelligence (CIA-OSI)
NSA Office of Scientific Intelligence (NSA-OSI)

No single one of these groups were supposed to know the whole story. Each group was to know only the parts that MJ-12 allowed them to know. MJ-12 also operates through the various civilian intelligence and investigative groups. The CIA and the FBI are manipulated by MJ-12 to carry out their purposes. The NSA was created in the first place to protect the secret of the recovered flying discs, and eventually got complete control over all communication intelligence. This control allows the NSA to monitor any individual through mail, telephone, telexes, telegrams, and now through on-line computers, monitoring private and personal communications as they may desire.

TOP SECRET - MAJIC

SUBJECT: MAJI

PROJECT: GRUDGE/AQUARIUS : (TS/MAJIC)

Classified By : MJ1/MAJI

Declassified on : Exempt

PROJECT AQUARIUS

(TS/ORCON), (Proword): Grudge contains sixteen (16) volumes of documented information collected from the beginning of the United States Investigation on Unidentified Flying Objects, (UFOs) and Identified Alien Crafts, (IACs). The project was originally established in 1953, by order of President Eisenhower, under control of the CIA and MAJI. In 1960 the project's name was changed from project SIGN to project AQUARIUS. The project was funded by CIA confidential funds (non-appropriated). The project assumed full responsibility for investigation and intelligence of UFOs and/or IACs, after December 1969 when Project Grudge and Blue Book were closed. The purpose of project Aquarius was to collect all scientific, technological, medical and intelligence information from UFO and IAC sightings and contacts with Alien Life Forms. These orderly files of collected information have been used to advance the United States Air Force Space Program (not NASA).

Aquarius is a project which compiled the history of Alien presence and their interaction with HOMO SAPIENS upon this planet for the last 25,000 years and culminating with the BASQUE PEOPLE (PAIS BASCO) who live in the mountainous country on the border of France and Spain and the Assyrians (or Syrians, originally from the Sirius Star).

(TS/ORCOM) The preceding briefing is a historical account of the United States Government's Investigation of Aerial Phenomena, Recovered Alien Aircraft, and contacts with Extra-Terrestrial Life Forms.

THE PROJECTS UNDER 'PROJECT AQUARIUS'

1. (TS/ORCOM) **PROJECT PLATO:** (Proword: Aquarius) Originally established as part of Project SIGN in 1954, its mission was to establish Diplomatic Relations with Aliens. This project was successful when mutually acceptable terms were agreed upon. These terms involved the exchange of technology for secrecy of Alien presence and non interference in Alien affairs. Aliens agreed to provide MAJI with a list of Human contacts on periodic basis. This project is continuing at a site in New Mexico.
2. (TS/ORCOM) **PROJECT SIGMA:** (Proword: Aquarius) Originally established as part of Project SIGN in 1954. Became a separate project in 1976. Its mission was to establish communication with the Aliens. This project met with positive success (SIC). In 1959, the United States established primitive communications with Aliens. On April 25, 1964 a USAF Intelligence Officer met with Aliens at Mollomar Air Force Base, New Mexico. The contact lasted for approximately

three hours, after several attempted methods of communications the Intelligence Officer managed to exchange basic information with the Aliens. This project is continuing at a site in New Mexico.

3. **(TS/ORCOM) PROJECT REDLIGHT:** (Proword: Grudge) Originally established in 1954. Its mission was to test and fly a recovered Alien Aircraft. First attempts resulted in the destruction of the craft and the death of the pilot. This project was resumed in 1972. This project is continuing in Nevada.
4. **(TS/ORCOM) PROJECT SNOWBIRD:** (Proword: Redlight) Originally established in 1954. Its mission was to develop, using conventional technology, and fly a "Flying Saucer" type craft for the public. This project was successful when a craft was built and flown in front of the PRESS. This project was used to explain UFO sightings and to divert public's attention from project Redlight.

THE 'MAJIC PROJECTS'

1. **SIGMA** is the project which first established communications with the Aliens and is still responsible for communications.
2. **PLATO** is the project responsible for Diplomatic Relations with the Aliens. This project secured a formal treaty (illegal under the U.S. Constitution) with the Aliens.

The terms were that the Aliens would give us "our Government" technology and would not interfere in our History. In return we "our Government" agreed to keep their presence on Earth a secret, not to interfere in any way with their actions, and to allow them to abduct humans and animals.

The Aliens agreed to furnish MJ-12 with a list of abductees on a periodic basis for Governmental control of their experiments with the abductees.

3. **AQUARIUS** is the project which compiled the history of the Alien presence and interaction on Earth and the HOMO SAPIENS.
4. **GARNET** is the project responsible for control of all information and documents regarding the Alien subjects and accountability of their information and documents.
5. **PLUTO** is a project responsible for evaluating all UFO and IAC information pertaining to Space technology.
6. **POUNCE** project was formed to recover all downed and/or crashed craft and Aliens. This project provided cover stories and operations to mask the true endeavor, whenever necessary. Covers which have been used were crashed experimental Aircraft, Construction, Mining, etc. This project has been successful and is ongoing today.

7. **NRO** is the National Recon Organization based at Fort Carson, Colorado. It's responsible for security on all Alien or Alien Spacecraft connected to the projects.
8. **DELTA** is the designation for the specific arm of NRO which is especially trained and tasked with security of all MAJIC projects. It's a security team and task force from NRO especially trained to provide Alien tasked projects and LUNA security (also has the CODE NAME: 'MEN IN BLACK'). This project is still ongoing.
9. **BLUE TEAM** is the first project responsible for reaction and/or recovery of downed and/or crashed Alien craft and/or Aliens. This was a U.S. Air Force Material Command project.
10. **SIGN** is the second project responsible for collection of Intelligence and determining whether Alien presence constituted a threat to the U.S. National Security. SIGN absorbed the BLUE TEAM project. This was a U.S. Air Force and CIA project.
11. **REDLIGHT** was the project to test fly recovered Alien craft. This project was postponed after every attempt resulted in the destruction of the craft and death of the pilots. This project was carried out at AREA 51, Groom Lake, (Dreamland) in Nevada.

Project Redlight was resumed in 1972. This project has ben partially successful. UFO sightings of craft accompanied by Black Helicopters are project Redlight assets. This project in now ongoing at Area 51 in Nevada.

12. **SNOWBIRD** was established as a cover for project Redlight. A 'Flying Saucer' type craft was built using conventional technology. It was unveiled to the PRESS and flown in public on several occasions. The purpose was to explain accidental sightings or disclosures of Redlight as having been the Snowbird crafts. This was a very successful disinformation operation. This project is only activated when needed. This deception has not been used for many years. This project is currently in mothballs, until it is needed again.
13. **BLUE BOOK** was a U.S. Air Force, UFO, and Alien Intelligence collection and disinformation project. This project was terminated and its collected information and duties were absorbed by project Aquarius. A classified report named 'Grudge/Blue Book, Report Number 13' is the only significant information derived from the project and is unavailable to the public, (from what I read before from other sources, this Report Number 13, talked about everything inside the Grudge history).

MAJIC's CONTINGENCY PLANS - In 1949, MJ-12 evolved an initial plan of contingency called MJ-1949-04P/78 that was to make allowance for public disclosure of some data should the necessity present itself.

- General Doolittle made a prediction that one day we would have to reckon with the Aliens and the Grudge/Blue Book, Report Number 13 stated that it appeared that General Doolittle was correct.
- The Grudge/Blue Book Report Number 13 also mentioned that the document stated that many military government personnel and civilians have been Terminated, (murdered without Due Process of Law) when they had attempted to reveal the secret.

PLAN A CONTAIN OR DELAY RELEASE OF INFORMATION - CODE: MAJIC/STR/M 03CCPN24

This plan called for the use of MAJESTIC TWELVE as a disinformation ploy to delay and confuse the release of information should anyone get close to the truth. It was selected because the similarity of spelling and the similarity to MJ-12. It was designed to confuse memory and to result in a fruitless search for material which did not exist. (i.e. William Moore's Documents ?)

PLAN B SHOULD THE INFORMATION BECOME PUBLIC OR SHOULD THE ALIENS TAKE OVER.

This plan called for a public announcement that a terrorist group had entered the United States with an Atomic weapon. It would be announced that the terrorists planned to detonate the weapon in a major city. Martial Law would be declared and all persons with implants would be activated by the Aliens. That person, in this specific case, would be rounded up by MAJIC along with all dissidents and would be placed into concentration camps. The PRESS, the Radio and TV would be nationalized and controlled. Anyone attempting to resist would be arrested or killed.

MAJIC'S SECRET WEAPONS AGAINST THE ALIENS - Although better weapons are being developed every day, the following are a few of the originals created.

GABRIEL is a project to develop a High Frequency pulsed sound generating weapon. It was said that this weapon would be effective against the Alien crafts and their Beam weapons. Specifications about the GABRIEL project shows high frequency microwave projections included.

JOSHUA is a project to develop a Low Frequency pulsed sound generating weapon. The weapon was developed and assembled at Ling Tempco Vought in Anaheim, California. It was described as being able to totally level any man made structure from a distance of two (2) miles. It was tested at White Sands Proving Grounds. It was developed between 1975 and 1978. It is a long horn shaped device connected to a computer and amplifiers. Ling Tempco Vought (LTV) has since moved from its Anaheim Facility which was near the Grand Hotel across the street from Disneyland. Specifications about the JOSHUA project show low frequency generated with microwave projection included.

EXCALIBUR is a weapon to destroy the alien underground bases. It is to be a missile capable of penetrating 1,000 meters of Tufa/Hard packed soil, such as that found in New Mexico with no operational damage. Missile apogee not to exceed 30,000 feet Above Ground Level (AGL) and impact must not deviate in excess of 50 meters from designated target. The device will carry a one (1) to ten (10) Megaton Nuclear Warhead. The secret for a self contained missile "drill" a vertical shaft over 1,000 meters deep consists in a energosintetizer macrowave deflector in the "Missile Warhead".

OBS - MAJIC has five (5) other major weapons to use against Aliens but I don't have the data on or about these weapons yet.

INFORMATION FROM INSIDE GRUDGE/BLUE BOOK, REPORT NUMBER 13

EBE is the name or designation given to the live Alien captured at the 1947 Roswell, New Mexico crash. He died in captivity. EBE means Extra-Terrestrial Biological Entity.

KRLL was the first Alien Ambassador to the United States of America.

GUESTS were Aliens exchanged for Humans who gave us the balance of the **YELLOW BOOK**. At the onset in 1972 there were only three (3) left alive, now we have around 4,000. They were called Alien Life Forms (ALFs) or **OBS**. They have a big tendency to LIE.

YELLOW BOOK is all that we know about Alien technology, culture and their history.

RELIGION - The Aliens believe in a Universal Cosmic God. The Aliens claim that **MEN** are Hybrids who were created by them. They claim all religion was created by them to hasten the formation of a Civilized Culture and to control the Human Race. They claim that **JESUS** was a product of their efforts. The Aliens have furnished proof of their claims and have a 'device' that allows them to show audibly and visually any part of History that they or we wish to see.

ALIEN BASES exist in the four corner areas of Utah, Colorado, New Mexico and Arizona. Six bases were described in 1972, all on Indian Reservations, and all in the four corner area. The base near Dulce was one of them, (also bases at California, Nevada, Texas, Florida, Maine, Georgia and Alaska.

CRAFT RECOVERIES - The documents stated that many craft had been recovered. The early ones from Roswell, Aztec, Roswell again, Texas, Mexico and other places, which will be discussed later.

ABDUCTIONS were occurring long before 1972, early civilizations refer to these incidents. The document stated that humans and animals were being abducted and or mutilated. Many vanished without a trace. They were taking sperm and OVA samples, tissues, performed surgical operations, implanted a spherical device, (40 to 50 microns in size near the optic nerve in the brain) and all attempts to remove the device have resulted in the death of the patient. The document estimated that one (1) in every 40 people had been implanted. This implant was said to give the Aliens total control of the Human.

OTHER MAJIC - ALIENS TIPS FROM REPORT 13 - SRD/28 CODE: ABRAMA 33A/C

- We confirmed in 1989, the existence of Alien crafts at a hangar on Edwards Air Force Base. The hangar is at North end of the base. It has been guarded by non-Edward's personnel, who are NRO-DELTA personnel. The guards wear a badge that is red with a black triangle on the face of the badge. No one was allowed near the hangar without this badge.

The NRO-DELTA personnel are no longer guarding the hangar, Edwards security forces are guarding it now, and they are instructed to check the hangar each hour and report the status NRO. In addition, they have been instructed never to enter the hangar, even if it has been broken into. The hangar is still locked and no one is allowed inside without special authorization from NRO/DELTA.

We also have confirmed the existence of Alien Materials at another Special hangar at Edward's AFB.

- The badge insignias that are on some Alien crafts and Alien Flags, is called a TRILATERAL INSIGNIA (TRIADE).

Found on some Spacecrafts

Marks bases and Landing sites.
This symbol is visible,
Only when viewed from Directly Overhead

This symbol is found on some Regelians
Spacecraft and their Uniforms

- **LUNA-2** - Code name for the location of the second most important underground Rigelian base in New Mexico. The base is Alien controlled and NRO, DELTA, and Alien protected. Luna is ongoing.
- **FAR SIDE OF THE MOON** - Is the term used in reference to inside LUNA-2. The LUNA-2 underground base, UFOlogists and some other various people who have stumbled upon this term have a misunderstanding and believed that it was a reference to LUNA-1, the moon base.

NSA Security System - The National Security Agency, (NSA) was created to protect the secretly recovered flying disks, and eventually got complete control over all Communication Intelligence. This control allows the NSA to monitor any individual through the mail, telephone, telex, faxes, telegrams, and now through on-line computer, monitoring private and personal communications as they choose. In fact, the present day NSA is the current main expression of MJ-12 and PI-40 pertaining to the Flying Saucer Programs. Vast amounts of disinformation are spread throughout the UFO research field. Any witnesses to any aspect of the programs have their lives monitored in every detail, for each has signed a security catch. For people who have worked in the program, including military members, breaking that oath could have anyone of the following direct consequences:

- A verbal warning accompanied by a review of the security oath.
- A stronger warning, sometimes accompanied by a brow-beating and intimidation.
- Psychologically working on an individual to bring on depression that will lead to suicide.
- Murder of the person, which is made to appear as suicide or an accident.
- Strange and sudden accidents, always fatal.
- Confinement in a special Detention Center.
- Confinement in an Insane Asylum, where they are treated by mind-control and deprogramming techniques. The individuals are later released with changed personalities, identities, and altered memories.
- Bringing the individual into the inside, where he or she is employed and works for them and where he or she can be watched. This is usually in closed facilities with little contact with the outside world. Underground facilities are the usual place for this.

Any individual who they perceive to be too close to the truth, will be treated in the same manner. MJ-12/NSA will go to any length to preserve and protect the ultimate secret, as we will see later, the characteristics of what this ultimate secret would turn out to be would change drastically for it was something even MJ-12/NSA could not predict, actual contact with Alien groups. How the actual contact between the government and Aliens was initially made is not known at this time, but the Government was made aware that it could be done by an Alien using the right equipment.

VISITORS	Aliens who have come to earth for unknown missions.
PRISONERS	Captured Aliens by the U.S. Government and/or other Governments.
RESEARCHERS	Aliens who have come to Earth for Scientific Motives.
INTRUDERS OR MALEVOLENTS	Aliens who are dangerous for our civilization because they don't respect our society.

INTERACTORS	Small groups of Aliens who have decided to interfere with our History, making changes when its possible.

ALIEN PRESENCE ON EARTH - There are some one hundred sixty (160) or more known types of Aliens visiting our world (Earth) at the present time, these are the most commonly seen types:

Greys, type one (1) - The Rigelians from the Rigel Star system and are approximately four (4) feet tall, with a large head containing large slanted eyes, who worship technology and DON'T CARE ABOUT US. The type popularized in the 'Communion' book by Strieber. They need vital secretions for their survival, which they are getting from us (earthlings).

Greys, type two (2) - Come from the Zeta Reticulae 1 & 2 solar systems. Same general appearance as a type one (1), although they have a different finger arrangement and a slightly different face. These Greys are more sophisticated than the type ones (1). They possess a degree of common sense and are somewhat passive. They don't require the secretions that the type ones (1) do.

Greys, type three (3) - Simple cloning form of types one and two above. Their lips are thinner (or no lips). They are subservient to the type one and two Greys above.

Nordics, Blondes, Swedes - Known by any of these names. They are similar to us. Blonde hair, blue eyes (some have dark hair and brown eyes and they're shorter in height). They will not break the law of non-interference to help us. They will only intervene if the Greys activity were to affect us directly.

Nordic Clones - They appear similar to us but with a grey tinge to their skin. These Nordics are controlled drones, created by the Greys, type ones (1).

Intra-Dimensional (Not Para-Terrestrial) - Entities that can assume a variety of shapes. Basically of a peaceful nature.

Short Humanoids - One and a half to two and a half feet tall, with skin bluish in color. They are seen quite frequently in Mexico near Chihuahua.

Hairy Dwarfs (Orange) - They are four (4) feet tall and weigh about thirty five (35) pounds. Their hair is the color of red. They seem to be neutral and respect intelligent life forms.

Very Tall Race - They look like us but are seven to eight feet tall. They are united with the Swedes.

Men in Black (MIBs) - They are not from the Delta or NRO division of the government. They are oriental or olive-skinned, their eyes are sensitive to light and have vertical pupils. They have very pale skin on some types. They do not conform easily to our social patterns. Usually they wear black clothes (sometimes all white or grey clothes), wear sunglasses and drive black cars. In groups they all dress alike. Sometimes time-disoriented. They cannot handle a psychological 'curve ball' or interruption to their plans. They very often intimidate UFO witnesses and impersonate government officials. Equivalent of our CIA from another Galaxy.

CATTLE MUTILATIONS

General Chronology - In the middle of 1963, a series of livestock attacks occurred in Haskell County, Texas. In a typical case, an Angus Bull was found with its throat slashed and a saucer-sized wound in its stomach. The local population attributed the attacks to a wild beast of some sort, a so called vanishing varmint. As it continued throughout the Haskell County, the bloodluster assumed somewhat more mythic proportions and a new name destined to endure, "The Haskell Rascal".

Throughout the following decade, there would be sporadic reports of similar attacks on livestock. In 1967 the most prominent of these infrequent reports was the mutilation death of Snippy the horse in Southern Colorado, which at the same time were accompanied by accounts of UFOs and Unidentified Helicopters. In 1978, the attacks increased, and by 1979, numerous livestock mutilations were occurring in Canada, primarily in Alberta and Saskatchewan.

Attacks in the United States leveled off for a while, but in 1980, there was an increase in activity again. Since that year, mutilations have been reported less frequently, though this may be due in part to an increased reluctance to report mutilations on the part of ranchers and farmers. The mutilations still continue today, and over ten thousand animals have died in the United States alone, although the mutilations have been occurring worldwide, the circumstances surrounding the mutilations are always the same.

A drug connection to these mutilations may be found inside the "YELLOW BOOK". We found that, as the Terran Scientist learned about Longevity, (Secret of long life) the main basis for longevity was the capacity of human cells to recuperate. Anyone will grow old when their cells can't be restored and they start a process of deterioration and die. The secret of longevity is the restoration of the cells. This can be done using Altered Adrenalin, Altered Coradrenalin, Cordrazyn or Cortropinex, (sometimes use only Formazinye and Hyronalinx, read "The Pulsar Project" for additional information on these and more durgs). All of these drugs have a base in Adrenalin, which is produced in the human brain. During the 60's the scientists discovered that they can be synthesized from the medullary portion of the adrenal gland of the cattle. They need big quantities in order to synthesize a small portion of the mentioned drugs above.

Of course, human scientist try to discover new applications and new synthesized drugs for recuperation of the cells, especially brain cells, and restoration to the human tissues and increasing the psychic and physical human skills.

My General Personal Observations - Any investigation which intends to probe the systematic occurrences of the mutilation attacks upon livestock and other animals must include within its preview certain factors which may or may not be directly related to the acts of mutilation themselves. These mutilations, the killing and furtive removal of external or internal parts, have been directed at literally

thousands of animals, primarily livestock, since the 1960's. The surgery on these animals is primarily conducted with uncanny precision, suggesting the use of a highly sophisticated implements and techniques. The numbing and persistent regularity of the mutilations and the seemingly casual disposal of the useless carcasses all hints at extreme confidence, even arrogant's, of the mutilators. It is an arrogance which appears to be justified by the freedom and impunity with these acts have been carried out.

My General Personal Observations - Human Reasons for the Mutilations - These events, or the discussion of them, is just the precursor to the actual revelations of what is behind the mutilations: Alien acquisition of biological material for their own use. To discuss this in a logical and sequential manner, we must review what has been really happening right under our noses, "The direct interaction with Extra-Terrestrial Biological Entities (EBEs)". To discuss that, however, we must attempt to start at the beginning with what we know to be true.

My General Personal Observations - Alien Reasons for the Mutilations - The main interest to Aliens, (we talk specifically about Regelians) is breeding, with humans of course. They need the cattle's tissues because they have the same carron cells as the human being at Genetic levels. All incisions would be made by Replicas, Clones, or Androids. They can send teams and take the material they need, and it doesn't matter where or how much. If they need it, they just take it. This means that Regelians are not Vampires, or that they need it for survival, but just immoral scientists that need material for experiments, (we really don't know what is worse).

Black Helicopter Involvement In Mutilations - The pertinence of a specific element of the problem is shortly revealed in the course of any thorough investigation into the mutilations. We refer to a appearance of unmarked and otherwise unidentified helicopters within a spatial and temporal proximity of animal mutilation sites. The occurrence of the two has been persistent enough to supersede coincidence. These mystery helicopters are almost always without identifying markings, or markings may appear to have been painted over or covered with something. The helicopters are frequently reported flying at abnormal, unsafe or illegal altitudes. They may shy away if witnesses or law officers try to approach.

There are several accounts of aggressive behavior on the part of the helicopter occupants, with witnesses chased, buzzed, hovered-over or even fired upon. At times these choppers appear very near mutilation sites, even hovering over a pasture where a mutilated carcass is later found. They may be observed shortly before or after mutilations occur, or within days of a mutilation. The intention here is merely to stress that the mystery helicopters did not develop concurrently with the animal mutilations themselves. Such helicopters, unmarked, flying at low levels, soundless, or sounding like helicopters, have been reported for years, and have been linked to an even more widespread phenomenon, the "Phantom" fixed wing aircraft.

As far as Tom Adams is concerned, the answer, could be a combination of the above explanations.

There also has been speculation that they are involved in biological experiments with chemical or biological warfare or the geobotanical pursuit of petroleum and mineral deposits. On one occasion, an Army Standard Type Scalpel was found at a mutilation site. Since the disks have been mostly involved with the mutilations, it is thought that this was a diversionary event.

In fact both, Alien and the U.S. Government are responsible for mutilations, but for different reasons.

THE ANTAREAN CONNECTION OMNICORD

Time and UFOs - Time is one of the most important aspects of the UFO thing. It plays a strange, but significant role. Part of the answer may not lie in the Stars but in the clock ticking in front of you.

The planet Earth exists in three dimensions, we can move in many directions within these dimensions. Space does not exist except when we make it exist. To us, the distance between atoms in our matter is so minute that it can only be calculated with hypothetical measurements, yet, if we lived on a atom, and our size was relative to its size, the distance to the next atom would seem awesome.

There is another Earth's man-made measurement called time. Unlike the other three dimensions, time has us seemingly trapped. Time becomes very real to us, and it appears that we couldn't live without it. Yet time doesn't really exist at all. This moment exists to us, does this mean the same moment is being shared by other planets, in other galaxies ?, *not really*.

The UFO phenomenon does seem to be controlled, this means it does follow intelligent patterns. If the objects themselves are manifestations of higher energies, then something has to manipulate those energies somehow and reduce them to the visible frequencies, for human patterns, but they take forms which seem physical and real to us, and they carry out actions which seem to be intelligent.

Thus, we arrive at the source, the source has to be a form of intelligent energy operating at the highest possible point of the Frequency Spectrum. If such an energy exists at all, it might permeate the Universe and maintain equal control of each component part. Because of its very high frequency, so high that the energy particles are virtually standing still, the source has no need to replenish itself in any way that would be acceptable to our environmental sciences. It could actually create and destroy matter by manipulating the lower energies. It would be timeless, because it exists beyond all time fields. It would be infinite because it is not confined by Three-Dimensional Space.

Perhaps if we were in a pure energy state, each particle of energy would itself serve as a synapse, and information could be stored by a slight alteration in frequency. All the memory fragments of a rose, for example, would be recorded at one frequency, and the whole energy form could tune into that memory by adjusting frequencies, as we might adjust a radio receiver, (well...well...well...where have we heard of this before!). In other words, no complex circuitry would be required, and no physical body would be necessary either. The energy patterns would not need material form, it instead would permeate the entire Universe, (Universe,... interesting small point of view of a gigantic concept of the reality of the MULTIVERSE). It could surround you completely at this very moment and be aware of all the feeble impulses of low energy passing through your brain. If it were so desired, it would control those pulses and thus control your thoughts. Man has always been aware of this intelligent energy or force, he has always worshipped it, i.e. God, Jesus, or the Universal Being, etc.

1. Our first conclusion is that some UFOs originate from beyond our own time frame or time cycle.
2. Our second conclusion is that the source has total foreknowledge of human events and even individual lives, since time and space are not absolutes.

These two conclusions are compatible.

It is that all human events occur simultaneously when viewed by a greater intelligence. If a greater intelligence wants to communicate with a lower form, all kinds of problems are presented. The communication must be conducted in a manner which will be meaningful and understandable to the lower life form, an acceptable frame of reference must be found and utilized.

The UFO phenomenon is frequently reflective; that is, the observed manifestations seem to be deliberately tailored and adjusted to the individual beliefs and attitudes of the witnesses. Contactees are given information which, in most cases, conforms to their beliefs. UFO researchers who concentrate on one particular aspect or theory find themselves inundated with seemingly reliable reports which tend to substantiate that theory, (?!).

Soviet researchers extensive experiences with this reflective factor led them to carry out weird experiments which confirmed that a large part of the reported data is engineered and deliberately false. The witnesses are not the perpetrators, but merely the victims.

The apparent purpose of all this false data is multifold, much of this is meant to create confusion and diversion. Some of it has served to support certain beliefs which were erroneous but which would serve as a stepping stone to the higher, more complex truth. Whole generations have come and gone, happily believing in the false data, unaware that they were mere links in the chain.

If it were all understood too soon, we might crumble under the weight of the truth. The planet Earth is covered with windows, (corridors, tunnels, and/or gates) into those other unseen worlds. We have the instruments to detect them, and if we decide to use them, we would find that these windows are the focal point for Super High-Frequency Waves, the rays of ancient lore. These rays might come from Orion or the Pleiades Star System as the Terran's ancients claimed, or they might be part of the great force that emanates throughout this Universe, perhaps from the Antares Star System. The UFOs have given to the Terrans the evidence that such rays exist. Now, slowly, we are being told why.

Observers from the Antares Star System are watching the Terrans and they know the guidelines for "Warp Zones" come from the center of the Antares Star System and draw tunnels for several main points of this and other Universes. They are "Gates" for several travelers from all Universes. Of course there are many more focus points, when other rays come from around the Universe.

CROP CIRCLES PHENOMENA

CODE: SEC

Crop Phenomena: Circles Affair

The better way to understand the so called crop phenomena, (circles that appear in fields) is by the following example:

We, the people of Earth, exist at the 3rd dimension because our atoms have a specific frequency which makes us able to exist at the 3rd dimension. This specific frequency is stable enough for all our lifetime. One quick idea of dimensions tells us:

1st Dimension is just a plain point.

2nd Dimension is two points together connected by a line.

3rd Dimension is Density, Volume (us and our universe)

4th Dimension

TIME

Our main interest in this report is the:

5th Dimension ————— Parallel Universes or Multiverse

That's the whole idea behind the multiverse concept, not just one universe but an infinite number of parallel universes. Using math to make a simplification of this concept tells us that there are no limits of the higher or lower number that exist. It's impossible to figure these numbers like it's impossible to figure the extension of possibilities of the Multiverse.

If we are capable of accelerating or decelerating the frequencies to make us able to exist in the 3rd Dimension, we can jump to the 5th Dimension, or the Multiverse.

To understand this idea better, try to think that all this is just like listening to a radio set. When you listen to a radio set, you are listening to a single radio station, on a single frequency, by changing to a different radio station, you have to change to a different frequency. This is accomplished by the frequency tuning dial on the front of the radio set, but because you are listening to a single radio station, on a single frequency, does not mean that other stations on other frequencies do not exist, right.

Same thing with the other universes from the Multiverse, they're at other different frequencies than we are and we just don't know it yet. Why are we in the 3rd Dimension and they are in the 5th Dimension?, why not the reverse?, simple, 'its based on perspective, they see us as their 5th Dimension and we see them as our 5th Dimension'. Again, it is just a question of perspective.

The other dimensional travellers come to our dimension by using some process of acceleration of particles and give them the capability of jumping between dimensions, but why did they select England first, and then why the fields ?

The answer is England, had all of the right conditions for one of several civilizations that exist in the Multiverse to be able to contact us through crop circles. All answers of how they were able to accomplish this task lie in a vast prehistoric energy circuit.

England has a complex web of energy running in inter-links with tumull, ancient graves and stone circles or henges, and all of the sites, henges, mounds and stone circles were constructed in relation to underground water linked with energy lines. This creates some sort of natural electro-magnetic force field created by the water, combined with the presence of underground quartz deposits. Also, the lunar gravitational effects on the water, land mass and the build up of a electrical magnetic charge from the quartz produces a periodic energy discharge.

The energy bolts give the necessary conditions for these other dimensional civilizations to be able to start experimenting with our universe and/or planet.

They have started to send probes here, in order to know more about the natural conditions of our universe and planet. The probes are limited to one specific semidome of energy, a circle, in a field where they have scanned the energy bolt.

In the above sketch, our eyes wouldn't be able to see the probe at that moment, because of our visual limitation, of not being able to see the frequencies between the frequencies of infrared and ultraviolet. Of course if you were able to detect the device using infrared or ultraviolet equipment, then you would be able to see it.

The crop circle phenomena didn't start now, or even a few decades ago, it started centuries ago and just got more and more complex. Normally you detect the proximity of a circle by ionization of the air near you, i.e. changes of the temperature and/or a characteristic sound produced by the acceleration of particles, when they are semi-stable at our reality.

They are now experimenting all over the planet. Always looking for similar conditions to England to send messages, "very particular messages", using domes, which are fluxes of particles from their particle accelerator device.

Very soon they will be able to make a total materialization and real existence at our reality.

THE DULCE BASE

CODE: J.B. III

The following material comes from people who know the Dulce underground base exists. They are people who worked in the labs; abductees taken to the base; people who assisted in the construction; intelligence personnel, (NSA, CIA; etc.) and some specific UFO inner Earth researchers. This information is meant for those who are seriously interested in the Dulce base. For your own protection, be advised to 'Use Caution' while investigating this complex. An ongoing investigation made by J.B. III, (Code: SR24.3B7).

The Dulce Base

This facility is a genetics lab and is connected to Los Alamos, via Tube-Shuttle. Part of their research is related to the genetic effects of radiation, (Mutation and Human Genetics). Its research also includes other Intelligent Species as well, (Alien Biological Life Form 'Entities'). In the revised September 1950 edition of *The Effects of Atomic Weapons*, prepared for and in cooperation with the U.S. Department of Defence and The U.S. Atomic Energy Commission, under the direction of the Los Alamos Scientific Laboratory, we read about how complete underground placement of bases is desirable. On page #381: 'There are apparently no fundamental difficulties in construction and operating underground various types of important facilities. Such facilities may be placed in a suitable existing mine or a site may be excavated for the purpose'.

Caught in the Game - Centuries ago, surface people, some say the Illuminati, entered into a pact with an 'Alien Nation', hidden within the Earth. The U.S. Government, in 1933, agreed to trade animals and humans in exchange for high-tech knowledge, and to allow them to use undisturbed underground bases, in the western U.S.A. A special group was formed to deal with the Alien beings. In the 1940's, 'Alien Life Forms, (ALFs)' began shifting their focus of operations, from Central and South America to the United States.

The continental divide is vital to these specific entities. Part of this has to do with magnetic substrata rock and high energy plasma states, (see: *Beyond the Four Dimensions*, reconciling physics, parapsychology and UFOs, by Karl Brunstein, and also: *Nuclear Evolution*, discovery of the rainbow body/aura by Christopher Hills).

- This area has a very high concentration of lightning activity; underground waterways and cavern systems, fields of atmospheric IONS, etc.

Who's Planet is this ? - These specific Aliens consider themselves Native Terrans. They are an Ancient race, decedents of a reptilian Humanoid species which cross-bred with some of the more primitive Uni-Terrestrial survivors. They are untrustworthy manipulator mercenary agents from another Extra-Terrestrial culture, "The Draco's" who are returning to Earth, which was their ancient outpost before the coming of the original Uni-Terrestrials, to try to use it as a staging area, which is not easy at all, because it causes all the other one hundred seventy (170) different Alien species to want their share of the Metagene secrets. But, these Alien cultures are in conflict over who's agenda will be followed for this planet. All the while mind control is being used to keep humans in place, artificially of course, especially since the forties. The Dulce complex is a joint U.S. Government and Alien base. It was not the first one built with the Aliens and others are located in Colorado, Nevada, Arizona, Alaska, etc.

The Secret Actlvity - About Dulce area: Troops went in and out of there every summer, starting in 1947. The natives do recall that they also built a road, right in front of the people of Dulce and trucks went in and out for a long period. That road was later blocked and destroyed. The signs on the trucks were "Smith Corp." out of Paragosa Springs, Colorado. No such corporation exists now, no records exist, and I believe the base, at least the first one was being built then undercover of a lumbering project, who never hauled any logs at all, only big equipment.

R & D and the Millitary Industrial Complex - The Rand Corp. became involved by doing a study, for the base on geology around the near by lakes. Most of the lakes near Dulce were made, VIA Government Grants, "for" the Indians, as such a completed Grant, the NAVAJO Dam is a main source for conventional electrical power, with the second source in ELVADO (which is also, an underground entrance to the Dulce base).

NOTE: If Rand is the mother of "Think Tanks", then the "Ford Foundation" must be considered the Father.

Rands secrecy is not confined to reports, but on occasion extends to conferences and meetings. On page #645 of the Project Rand, proceedings of the Deep Underground Construction Symposium of March 1959, we read:

"Just as airplanes, ships and automobiles have given man mastery of the surface of the Earth, tunnel, boring machines, will give him access to the subterranean world."

NOTE: The September 1983 Issue of OMNI, page 80, has a color drawing of "The Subterrene", the Los Alamos Nuclear powered tunnel machine, that burrow through the rock, deep underground, by heating whatever stone it encounters into molten rock, (Magma), which cools after the subterrene machine has moved on. The result is a tunnel with a smooth, glazed lining. These underground tubes are used by electro-magnetically powered sub-shuttle vehicles, which can travel at great speeds. They connect the so-called "Hidden

Empire* sub-city complexes. Also, the top secret project code-named *NOAH'S ARK*, uses the tube shuttles in connection with a system of over one hundred (100) bunkers and bolt holes, which have been established at various places on Earth. They built the same type of subterranean tunnels at the ultra top secret Moon and Mars bases as well. Many of these underground cities are complete with streets, sidewalks, lakes, small electrical cars, buildings, offices and shopping malls.

There were over six hundred fifty (650) attendees to the 1959 Rand Symposium, most were representatives of the Corporate Industrial State, like:

- The General Electric Company
- Hughes Aircraft Company
- Sandia Corporation
- Walsh Construction Company
- Colorado School of Mines
- AT&T
- Northrop Corporation
- Stanford Research Institute
- The Bechtel Corporation
- Etc.

Bechtel (pronounced Beck-tul) is a super secret international corporation octopus, founded in 1898. Some say the firm now is really a *Shadow Government*, a working arm of the CIA. It is the largest construction and engineering outfit, in the U.S.A., the world, and some say, beyond. The most important posts in U.S.A. Government are held by former Bechtel officers. They are part of *The Web*, an inter-connected control system, which links the Tri-Lateralist Plans, the C.F.R., the Orders of Illuminism, (cult of the All-Seeing Eye) and other interlocking groups.

Surviving The Future - The Dulce facility consists of a central hub, the security section, and also some photo labs. The deeper you go, the stronger the security. This is a Multi-Leveled complex, with over 3,000 cameras at various high security locations, i.e. exits and labs.

There are over one hundred (100) secret exits near and around Dulce. Many around Archuleta Mesa, others to the south around Dulce lake and even as far East as Lindrith.

NOTE: Deep sections of the complex connect into natural cavern system. A person who worked at the Base (CR-24/ZM 35-File IV), who had an *Ultra 7-B* clearance reports the following:

There may be more than seven levels, but I only know of seven. Most of the Aliens are on levels 5, 6, and 7. Alien housing is on level five (5).

Transamerican Underground Subshuttle System, (T.A.U.S.S.)

Overt and Covert Research within Dulce - As U.S. Energy Secretary, John Herrington named the Lawrence Berkely Laboratory and New Mexico's Los Alamos National Laboratory to house new advanced genetic research centers as part of a project to decipher the Human Genome. The Genome holds the genetically coded instructions that guide the transformation of a single cell, a fertilized egg, into a biological being. "The Human Genome Project may well have the greatest direct impact on humanity of any scientific initiative before us today", said David Shirley, Director of the Berkeley Laboratory.

Covertly, this research has been going on for years, at Dulce labs. Level #6, at Dulce, is privately called 'Night Mare Hall', it holds the Genetic Labs. Reports from workers, (CR-24/ZM 52-Files VII), who have seen bizarre experimentation, are as follows:

"I have seen multi-legged humans that look like half-human, half-octopus. Also reptilian-humans, and furry creatures that have hands like humans and cries like a baby, it mimics human words, and also huge mixture of lizard humans in cages."

There are fish, seals, birds and mice that can barely be considered those species. There are several cages, and vats of winged humanoids, grotesque Bat like creatures about three and a half to seven feet tall. Gargoyle-like beings and Draco-Reptoids.

Level #7 is worse, row after row of several humans and humanoids, (hundreds, perhaps thousands) in cold storage. Here too are embryo storage vats of humanoids, in various stages of development.

"I frequently encountered humans in cages, usually dazed or drugged, but sometimes they cried and begged for help. We were told they were hopelessly insane and involved in high risk drug tests to cure insanity. At the beginning, we were told never try to speak to them at all at the and we believed that story."

Finally in 1978, a small group of workers discovered the truth. It began the Dulce Wars, and a secret resistance Unit was formed.

NOTE: There are over 18,000 Aliens at the Dulce complex at this time.

In late 1979, there was a confrontation, over weapons, a lot of scientists and military personnel were killed. The base was closed for a while, but now, it is currently active again.

NOTES: 1. Human and animal abductions, for their blood and other parts, slowed in the mid-1980's, when the Livermore Berkeley Labs began production of artificial blood for Dulce and its sister complexes.

2. About the confrontation, Human and Alien at Dulce, eighty (82) people were killed between

scientists and the National Recon Group, the DELTA GROUP, which is responsible for security of all Alien connected projects. Also, there were hundreds of other wounded people and one hundred thirty two (132) dead Aliens.

This type of entity is one that abductees and contactees have seen in underground breeding facilities since 1963. They are bred by the thousands in underground facilities, the Dulce facility is the most well known place that this activity occurs, although there are at least another twenty six (26) bases within the United States that have similar facilities.

The Delta Group, within the Intelligence Support Activity, have been seen with badges which have a black triangle on a red background. A Delta is the fourth letter of the Greek alphabet, it has the form of a triangle, and figures prominently in certain Masonic Signs.

Each Base Has Its Own Symbol - The Dulce Base symbol is a triangle with the Greek letter "TAU", (T) within it and then the symbol is inverted, so the triangle points down.

The Insignia of "a triangle and three (3) lateral lines" has been seen on Alien Transport Craft, The Tri-Lateral Symbol.

Other symbols mark landing sites and Alien Craft.

Inside the Dulce Base - Security officers wear jumpsuits, with the Dulce Symbol on the front upper left side. The standard hand weapon at Dulce, is a "Flash Gun", which is good against human and Aliens. They use a Retina-Reader for Identification in substitution of the old ID Cards, but the ID Card readers are still used in card slots, for the doors and elevators, which had the Dulce Symbol above the ID Photo. After the second level, everyone is weighed in the nude, then given a uniform, visitors are given one off-white uniform. In front of all sensitive areas are the Retina-Readers and scales built

under the doorway, by the door control. The clearance is checked, identity is checked and also the weight. Any possible change over two pounds and a security yellow is alerted.

No one, without a specific clearance or authorization, is allowed to carry anything into or out of sensitive areas. All supplies are put through a security conveyor system. The Alien symbol language, Grey and Nordic appear a lot at the facility.

During the construction of the facility, which was done in stages, over many years, the Aliens assisted in the design and construction materials. Many of the things assembled by the workers were of a technology they could not understand, yet, now a days it is a different story, it would function when fully put together. Example:

The elevators have no cable, they are controlled magnetically. The magnet system is inside the walls. There are no conventional electrical controls. All is controlled by advanced magnetics. That includes a magnetically induced, (phosphorescent), illumination system. There are no regular light bulbs, and all exits are magnetically controlled.

Note: If you were to place a large electromagnet on an entrance, it will affect an immediate interruption. They will have to come and reset the system, and "blow away your head, if they catch you !"

The Town of Dulce - The area around Dulce has had a high number of reported animal mutilations. The Government and the Aliens used the animals for environmental tests, psychological warfare on people, etc. The Aliens also wanted large amounts of organic material for Genetic Research, Nutritional and other reasons.

In the book, "ETs and UFOs, They need us, we don't need them", was an original idea for one title, but not my personal choice, by Virgil "Posty" Armstrong, he reports how his friends Bob and Sharon stopped for the night in Dulce and went out to dinner, they overheard some local residents openly and voicefully discussing Extra-Terrestrial abductions of the townspeople for purposes of experimentation. The ETs were taking unwilling human guinea pigs from the general populace of Dulce and implanting devices in their heads and bodies. The townspeople were frightened and angry but didn't feel they had any recourse since the ETs had our Government's knowledge and approval, (CODE: SR-24/AK.5).

Recently, participants in a field investigation, (CODE: SR-24/R25/AK.2), of the area near Archuleta Mesa, were confronted by two small hovering spheres. They all became suddenly ill and had to leave the area. Several Dulce residents are not naturally from this area, single people and even couples with children, have just come to the town of Dulce since 1948.

Generations of frozen agents occupied in suspect positions like at work in a gas station, drugstore,

bar, restaurant, etc. They're there to listen and report anything which violates their limit of security. Always in the town of Dulce, you never know who is who !

Mind Manipulation Experiments - The Dulce Base has studied mind control implants; Bio-PSI units; ELF Devices capable of mood, Sleep and Heartbeat control; etc.

Defense Advanced Research Projects Agency, (DARPA) is using these technologies to manipulate people. They establish 'The Projects', set priorities, coordinate efforts and guide the many participants in these undertakings. Related Projects are studied at Sandia Base by the 'Jason Group' of fifty five scientists from thirty eight specific scientific areas. They have secretly harnessed the Dark Side of technology and hidden the beneficial technology from the public. Other projects take place at 'Area #51' at Groom Lake in Nevada, codename 'Dreamland', which is a data and ongoing projects repository and establishment for just some of the following:

- Electro-Magnetic Intelligence, (ELMINT)
- Code: Empire
- Code: EVA
- Prometheus Project
- Hybrid Intelligence System Program, (HIS)
- BW/CW
- Infrared Intruder Systems Project, (IRIS)
- BI-PASS
- REP-TILES

The studies on Level #4, at Dulce, include human/Alien, Aura Research, as well as, all aspects of Dream, Hypnosis, Telepathy, etc. They know how to manipulate the Bioplasmic body of humans. They can lower your heartbeat with deep sloop 'Delta Waves', induce a static shock, then re-program via a brain-computer link. They can introduce data and programmed reactions into your mind, (Information impregnation, 'The Dream Library'). We are entering an ERA of the technologicalization of psychic powers, this means, the development of techniques to enhance man and machine communications;

- Nano-Technology
- Bio-Technology
- Micro-Machines
- PSI-War
- Electronic Dissolution of Memory, (EDOM)
- Radio-Hypnotic Intra-Cerebral Control, (RHIC)

as well as, various forms of behavior control via;

- Chemical Agents
- Ultra-Sonics
- Optical Frequencies
- Electro-Magnetic, (EM) Frequencies

which are directed to the physics of 'Consciousness'.

Better Living Through Bio-Tech ? - The development of 'Bio-Technologies' will mean a revolutionary change in life of every human being now on Earth ! **WARNING ! *FASCISM IS CORPORATISM***. We have passed the point of no return, in our interaction with the Alien beings. We are guaranteed 'A CRISIS' which will persist until the final revelation or conflict.

The crisis is Here, Global and Real. We must mitigate or transform the nature of the disasters to come, and 'come they will'. Knowing is half the battle.

ADVICE: Read the Book, 'The Cosmic Conspiracy' by Stan Deyo.

The Phantom Empire: 'Above the Law' - The Dulce Base is run by a Board:

- The Chairman of the Board is John Herrington.
- Jim Baker of Tennessee is the NSA/CIA link to Dulce.
- House speaker Jim Wright of Dallas Texas, the Nation's third highest office, is the Treasurer at Dulce.

There is currently a power struggle going on, as Rep. William Thomas, R-California, put it, 'Part of Jim Wright's problem is he fails to understand what's equitable and fair. It's the arrogance of power'. Even among his fellow Democrats, many find Wright to be uncomfortable, Wright's operating style leaves him vulnerable.

Most meetings of the Dulce Board are held in Denver, Colorado and Taos, New Mexico. Former New Mexico Senator Harrison, publicly known only as 'Last Man on the Moon' Schmitt has full knowledge of Dulce. He was one of seven astronauts to tour the base. In 1979, he held a 'Animal Mutilation' conference in Albuquerque, New Mexico. This was used to locate researchers and determine what they had learned about the links between the 'Mute' operations and the Alien/Government deals.

Senator Brian of Nevada, knows about the 'Ultra Secrets at Dreamland' and Dulce. So do many others in the Government, 'this is what the UFO researchers are up against', **SO BE CAREFUL ! They have killed to keep this information secret, and by reading this document, you now know more than they want you to know !**

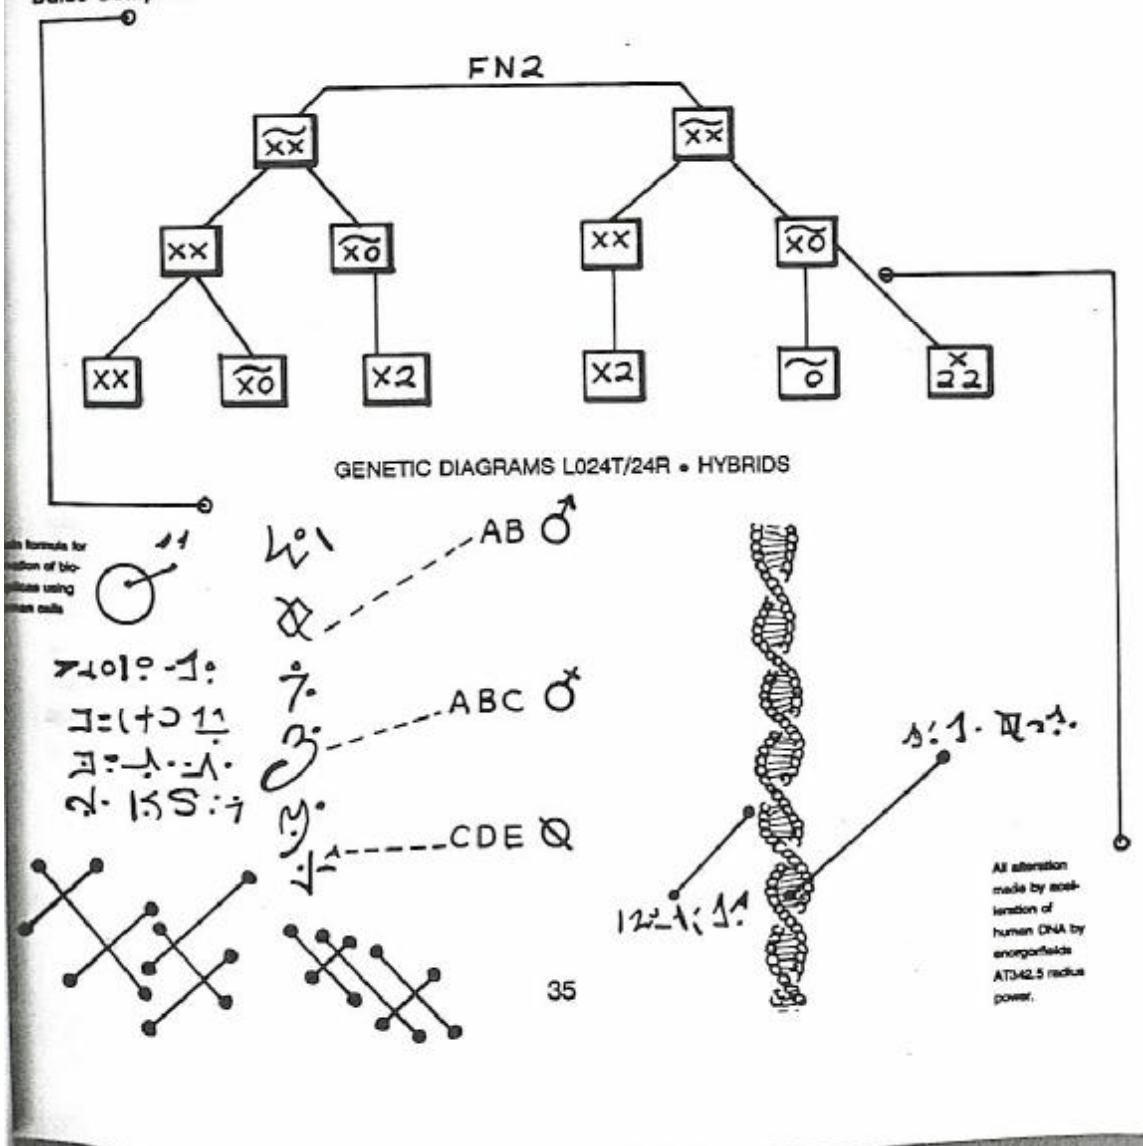

They also have underwater bases off the coast of Florida and Peru. More detailed information will be released by the Government following the plan of preparation for a Global Alien revelation, in the very

near future; Photo's, Video Tapes, Documents, etc. will be released. Watch for Agents among you now.

After all, a fascist group, within this country, had John Kennedy assassinated and got away with it. Look to the links, within the larger umbrella, the "Web" of a fascist totalitarian Secret Police State, within the Pentagon; JCS; DIA; Division Five of the FBI; DISC/DIS and CIA.

NOTE: The Defensive Investigative Services, (DIS) - Their insignia is a composite of the Sun's Rays, a Rose, and a Dagger, Symbolizing "The search for information, trustworthiness and danger".

The following are basic diagrams of process of creation of artificial hybrids at level #7, at the Dulce Complex:

SOME KINDS OF ALIEN LIFEFORMS WE KNOW ABOUT

THE U.S. GOVERNMENT HAS CONDUCTED AUTOPSIES ON ALIEN CADAVERS (Grey Physiology and Anatomy) - The most significant Alien specimens, which have been available to autopsy have been the "Grey Types".

The approximate height of most specimens are between 3.5 and 4.5 feet. The head, by human standards, is larger in comparison with the body. Facial features show a pair of eyes described as large, sunken or deeply set, far apart or distended more than a humans, and slightly slanted as oriental or mongoloid. No ear lobes or apertures on the side of the head were visible. The nose is vague, one or two small holes have been identified as nostrils. The mouth area is described as a small slit or fissure. In some cases, there is no mouth at all. It appears not to function as a means for communication or for alimentation. The neck area is described as being thin, and in some cases, not being visible at all because of the tightly knit garment. Most observers describe these humanoids as being hairless. Some of the bodies recovered have a slight hair patch on top of the head. Others appear with what appears to be like a silver skullcap.

There were no breathing attachments or communication devices. This suggests telepathy with higher intelligence. In one case, *there was an opening in the right frontal lobe area, revealing a crystalline network.* This network implies the development of some sort of third brain. *We also found a spherical object which was more or less 1 cm in size and was linked with the crystalline network.* We theorize that this is a device for amplification of their brain waves, which means they are not capable of psychic activity without the spherical device. This information is also included in the "YELLOW BOOK".

The arms are described as long and thin, reaching down to the knees. The palms each contained four fingers, with no thumbs. Three fingers are longer than the others. Some are very long, and others are very short. No description is available for the legs and feet. Some pathologists indicate that the section of the body was not developed as we would anticipate, showing that some of these beings were adapted to life in the water.

According to most observers, the skin is grey. Some claim it is beige, tan, or pinkish grey. No reproductive organs or capabilities were discovered, no phallus or womb. This suggests cloning is the current reproductive method, which has been mentioned in other sources. The humanoids appear to be a mold, sharing identical racial and biological characteristics. There is no blood as we know it, but there is a fluid which is grayish in color.

ULTRA-TERRESTRIAL - CODE: ULTRON (Energetic/Intelligent life forms without material body).
This information was recovered from NCR/27B-01 MWC-2.B7 - AC 'GODAR' PROJECT, as well as other crash sites.

This Alien is created in the centers of quasars. A type of sensitive energy living in the center of pure energy, and is a component more stable than the material Solloa that is found in our quasar.

They evolved from a series of mono-electronics, to a series of more complex energy and created a collective civilization that does not know the individual thought or mind.

The Ultrons are an entity composed of primary mental energy, and radiates strong in the visible, ultraviolet and Kappa Radiation bands. As are "Nodes or Foir" serve as the origin of the Ultrons' radiant emissions. As the spectrograph proceeds through the Ultraviolet range from 103.2 to 112 angstrom units, we observe that these Foir are not constant for different wavelengths; by varying their relative positions, the Ultrons can control the intensity of their emissions. Ultrons perceive dimension and objects in terms of electromagnetic energy - knowing the speed of light through various mediums, it is able to judge its surroundings much as the Terran Bat is able to use the reflection of its own sounds to avoid flying into an object.

The radioactive nature of the Ultrons a non-corporeal being, best suited by the Hutchinson Radiation Analysis (HRA). (a graphic representation of any anergy source, in this case the life aura of the Ultrons are strongest in the ultraviolet range, the HRA is a standard readout on most sensor-equipped instruments appearing as a fluctuating moire' pattern.)

INTRA-TERRESTRIAL - CODE: INTERAV (People from outside Earth/Dimension/Time-Space of life at Planet Earth from ancestral time). This information was recovered from **INAC/26.7B - AC 43.2, INAC-02**, as well as other crash sites. They came to Earth several EON's ago and now Terra (or Earth) is their planet too.

We talk here about the seventh largest race, we found two large races living below the four earth capades....

Cold-blooded like all reptiles, the Reptiloid is found to flourish in a warm, tropical climate (normally artificial at the big caves). With imperfect respiration providing just enough oxygen to supply tissues and maintain the processing of food and combustion, their temperature can be raised only a few degrees above the ambient. The reproductive system is ovouniparous, with eggs hatching in the oviduct prior to birth. The underdeveloped Reptiloid (for faster activities, physical activities) cerebellus results in a slowness and simpler city of movement. The Reptiloid eye is composed of thousands of microscopic facets, each facet with its own independent protective lid. The eye is almost never closed entirely during waking hours; rather, section of the organ is shut down in conjunction with the dominant light source.

News Clippings

Los Angeles Times, Thursday, July 21, 1988..... Newsmakers..... It's a Hulk - Christopher Davis 17, swears the creature that attacked him while he was changing a tire in the middle of the night in Scape Ore Swamp near Browntown, S.C., was 7 feet tall and had red eyes and three fingers on each hand. Then Tom and Mary Waye reported that their car had been "chewed up" at the same location. Was it the Lizard Man, as the locals are calling him, or just a red fox or a "muddy drunk" -- the theory of state biologist Matt Knox, who has been called in to help investigate the sightings. Sheriff Liston Truesdale said he has been swamped with phone calls from people claiming to have seen the slimy critter, "and these are reputable people". The run with television crews and observers "hoping to catch a glimpse of Lizard Man, and a Columbia News station is offering a \$1-million reward for his capture.

Los Angeles Herald Examiner, Thursday, July 21, 1988..... It's Lizard Man I..... Story of 7-foot 'Lizard Man' puts the creeps into town..... BROWNTOWN, S.C. -- The sheriff has been hearing a lot about the 'Lizard Man', 7 feet tall with red eyes and three fingers on each hand, but a state biologist says everybody would be better off looking for a red fox or a muddy drunk.

Christopher Davis, 17, told Sheriff Liston Truesdale he had been attacked several weeks ago by the creature in Scape Ore Swamp as the teen-ager was changing a flat tire about 2 a.m.

Truesdale said he is getting other calls from people who said they saw the creature, "and they are reputable people" -- Gary C. Fong, from news service reports.

The Insectoid retina is composed entirely of tone-sensitive rods, and is incapable of discrimination between different wavelengths of light. Therefore, the addition of color to the Insectoids vision is accomplished by the dual antennae which, in addition to being auditory receptors, are made up of a complex network of wavelength-sensitive cones. Owing to the highly directional nature of the antenna, the corona of vision is perceived by the subject in tones of grey. Because of this correlation of four independent light-receptive organs, Insectoid vision can be correctly termed "Quadrosopic", resulting in relatively (Humanoid) superior depth perception. Insectoid auditory capacities are highly developed, and Insectoids are capable of distinguishing from among a wider range of audio frequencies than is normal for humanoids. Because of the mono-directional antennae, Insectoids usually listen with their head tilted slightly downward.

NOTE: They have a limited exoskeleton.

Several races, including some already discussed, make their home in the Inner-Earth. These are as follows:

- **Green People** - Part of the survivors, survived as part of the ancient K'ushul K'hotans or green people.
- **Caspan Jassan Paegans or Golden Race** - Part of the survivors, survived inside big group of mountains at Orient part of Earth. They created the **Essens**.
- **The Eternals** - Some surviving people from Altair genetic mutated, which caused getting older to be incredibly slowed down, enabling them to live for EON's.
- **The Kasimar or Blue Race** - Some surviving people created the people of MU, LEMURIA and ATLANTIS. The survivors now live in inner-Earth and some Atlanteans live underwater.
- **The Deviants** - Are surviving people that mutated from Kasimar/Insectoids (**very dangerous and primitive creatures**). The legend of DEMONS was born from the underground Deviant race. See the next page for sketch of the Deviant.

META-TERRESTRIAL - CODE: MEREDITH - (Aliens from another Time/Space or Earth people from another Time/Space). META-TERRESTRIAL visitors are from another time and space. This information was recovered from CRM/26.06 - ABR-26, as well as other crash sites. **Time Travelers** - Our files take only the Essessani Race. A cross-breeding between Humans from Earth and Extra Terrestrial from Zeta-Reticulae from one of our possible futures.

Of course it is possible there could be other races of Meta-Terrestrial, we just don't have enough data yet about it. **NOTE:** You found a example of Essessani Race watching the Steven Spielberg's movie 'Close Encounters of the Third Kind' (Look for the special version, it's better).

PARA-TERRESTRIAL - CODE: PARAMUS (Aliens from multi-universe). The Para-Terrestrial come from several different parallel universes from the Multiuniverse. When they accelerate or decelerate the frequency of vibration of their atomic structure they are able to exist at our 3rd dimension. This information was recovered from IACT/26, OBR-32 - AC 204 (BANTY), as well as other crash sites.

We can't tell much about these beings, because we don't have enough Data about it yet.

1. The name of this creature is almost impossible to repeat or even to write. We call this intelligent creature XZ. They look like one single Ameba or Jelly.

The XZ Creature

2. The MOOK - A very small (1.3 Meter) and hungry creature with long arms and three fingers, wearing funny cloths.

The MOOK

3. The WADIG - Looks like a primitive kind of primate but he is an intelligent being. Normally he never wears clothes (this fact, makes strong the idea some people believe that the WADIG is some kind of primitive missing link)

We can continue talking about Para-Terrestrial but is not logical because we don't have necessary quantity of Data for making good research. This is because we talked only about the X2, The MOOK and the WADIG just for literal illustration of matter.

Wrongly designated ALFs, (Alien Life Forms). I said that because all other five types are ALFs also. All six types of aliens are ALFs.

We have around 160 different species at our biosphere from several points in the universe. They are Humanoids, Human and Not Humans.

We talk now about the other five Alien races that stayed much longer than any other race and have much more influence during our history.

1. Type A: Rigellian, Rigel, or Gray
2. Type B: 2-Reticulae, Z-Reticulae 1, or Grey
3. Type C: 2-Reticulae, Z-Reticulae 2, or Grey
4. Type D: Orion, Pleiades, or Nordic
5. Type E: Barnard Star, Orange

EBE is the name or designation given to the live extraterrestrial Alien captured at the 1947 Roswell, New Mexico crash. He died in captivity.

NOTE: O. H. Cril was a "Joke" created by John Lear and other friend for personal purposes. No body knows why Lear denies the KRLL existence.

KRLL

KRLL or KRLLL or CRLL or CRLLL pronounced Crill or Krill was the hostage left with us at the first Holloman landing as pledge that the Aliens would carry out their part of the basic agreement reached during that meeting. KRLL gave us the foundation of the **YELLOW BOOK** which was completed by the Alien guests at a later day. KRLL became sick and was nursed by Dr. G. Mendoza who became the expert on Alien biology (Exobiology). His information was disseminated under the pseudonym O. H. Cril or Crill. KRLL became the Regelian Ambassador to the United States. There have been rumors of KRLLs death. We don't know if they are true or not.

RIGELIANS - Also called Malevolent Alien Life Form (ALF).

REGELIAN

60

The Typical Malevolent ALF as represented thus far can be described as follows:

- Between three (3) to five (5) feet in height.
 - Erect standing biped. Long thin legs.
 - Small build (thin).
 - Head larger than normal, (to human proportions).
 - Absence of auditory lobes, (external ear lobes).
 - Absence of body hair.
 - Large, tear shaped eyes, opaque black with verticle slit pupils, (cats eyes).
 - Eyes slanted approximately 35 degrees.
 - Small straight mouth, with thin lips.
 - Arms resemble praying mantis, (normal attitude), arms reach to knee when extended.
 - Long hands, with small palms.
 - Claw like fingers, (two short, two long webbed fingers).
 - Tough, grey skin, reptile like in texture.
 - Small feet with four (4) small claw like toes.
 - Some organs are similar to humans but developed in a different evolutionary process.
 - The most significant finding is that they have a nonfunctioning digestive system and two separate brains. The digestive system in those examined were atrophied, conforming to absence of provisions in recovered crash. This however, is still just preliminary findings.
 - Movement is deliberate, slow, precise.
-
- Secondary findings, after crash site study - Alien subsistence requires that they must have human blood and other human biological substances to survive. In extreme cases (circumstances) they can subsist on other animal fluids. Food is converted to energy by Chlorophyll through photosynthesis and waste products are excreted through the skin, (some kind of botanical life form ?). These creatures possess two separate brains separated by the mid cranial lateral bone partition, (anterior brain, posterior brain) with no apparent connection between the two.
-
- * **ALFs** furnished extensive information on the Aliens and their history which is known as the **"YELLOW BOOK"**.
 - * Because the Aliens have a tendency to LIE, we can't be 100% sure about all the information inside the **"YELLOW BOOK"**.
 - * **LUNA-1** is the Rigelian base at the other side of the Moon, or the far side of the Moon like some scientists prefer to say. It was seen and filmed by the Apollo Astronauts. A base, a mining operation using very large machines, and the very large Alien Crafts described in sighting reports as **"Mother Ships"** exist there.
 - * **WAVENEST** is the Rigelian base in the Atlantic Ocean. A under water Alien base, mining and big

Cigar shaped crafts.

The Rigellan Saga - The original contact between the government and the Extra-Terrestrial Biological Entities (EBEs), who normally are Grey in color and about three and a half to four and a half feet high and coming from the Rigel Star System (hereafter referred to as the Greys) was achieved between 1947 and 1971. We knew that the Greys were instrumental in performing the mutilation of animals, as well as some humans and that they were using the glandular substances derived from these materials for food (absorbed through their skin) and to clone more Greys in their underground laboratories. The government insisted that the Greys provide them with a list that would be presented to the National Security Council (this list has never been completed). Through all this, the government thought that the Greys were basically tolerable creatures, although a bit distasteful. They presumed at the time that it was not unreasonable to assume that the public would and could get used to their presence. Between 1968 and 1969 a plan was formulated to make the public aware of their existence over the succeeding twenty (20) years. This time period would culminate with a series of documentaries that would explain the history and intentions of the Greys.

The Greys assured the government that the real purpose of the abductions was for monitoring of our civilization, and when they learned that the abductions were a lot more frequent and insidious than they were led to believe, the government became concerned. Their concern was also based on additional information regarding the purposes for abductions. By the time the government had found out the truth about the intentions of the Greys, they, the Greys, intended to stay here, where they always will stay in control of Earth, 'it was too late'. The government by mistake had already 'Sold Out' humanity. Not that it would have made any difference, because they were here doing what they were doing anyway.

In 1983, a story was outlined by the government sources that said that the Greys are responsible for our biological evolution through manipulation of the DNA of already evolving primates on this planet, they don't like to tell anybody that the real Rigellians are Nordics and they found survivors from one big catastrophe, the ancestral seven races, the Uni-Terrestrials. Various time intervals of the DNA manipulation were specified for 25,000, 15,000, 5,000 and 2,500 years ago originally, the government thought that the Greys meant us no harm, but in 1982 to 1988 the picture that emerged was exactly the opposite. The story now is one great deception at several different levels. The Greys 'Trojan Horse' style manipulation and lying, which involved MJ-12/Majic forces, from over four decades ago, now it's 1990, the government still uses disinformation on the subject of UFOs, in order to perpetrate the agreement with the Greys, free of public scrutiny; the lies to the abductees, the Greys ongoing abduction of people and mutilation of animals in order to harvest enzymes, blood, and other tissue for their own survival needs, and a genetic blend of the Grey race and a tall Nordic act to enable Grey interface with humans to be done with greater ease. The apparent reasoning for the Grey preoccupation with this is due to their lack of a formal digestive tract and the fact that they absorb nutrients and excrete waste directly through the skin. The substances that they acquire are mixed

with hydrogen peroxide and painted on their skin, allowing absorption of the required nutrients. It is construed from this that some weaponry against them might be geared in this direction.

The innercore of the CIA is deeply controlled by the Greys. The CIA view's interaction with the Greys as a path to greater scientific achievement. One reason for so many UFOs is that other cultures are watching with extreme interest. Scientists from other cultures arrive to watch. The Greys also are working with some groups of UFO fanatics, lying to them, and using them. The ultimate evil is masked and is of psychological complacency that leads one to adhere to a group philosophy rather than eke out one's own horizons. As soon as you acquire an awareness of being a so called 'chosen special group' you are on the road to a fall. That is the seed of destruction in any society and any culture and it leaves it vulnerable. It will be the eventual undoing of the Greys as well. They see not their error, it is the very weakness they seize upon that is their own inherent weakness. To try and change a Grey, or a mistaken cult type of 'Star Person' (following the Grey plan) is futile. It will happen but all in its own good time, it is the spirit that makes anyone stand up and disagree with something that is untrue and incorrect that will be the thorn in the side of the Greys, and other forces that have allied with them.

Allen Bases at SOL III Perimeter - During the occupation of the Greys, they have established quite a number of underground bases all over the world, especially in the United States. One such base, among other in the same state, is under Archuleta Mesa, which is about two and a half miles Northwest of Dulce, New Mexico. Details about that base come across by way of several different sources. This is a Kilometer underground base beneath *Archuleta Mesa* and the *Jicarilla Apache Indian Reservation* since 1976, one of the areas of the U.S. hardest-hit by mutilations. This installation is operated jointly as part of an ongoing program of cooperation between the U.S. government and EBEs. There are also underground bases at *Kirtland and Holloman Air Force Bases*, as well as, at scores of other bases around the world, including *Bentwaters, England*.

Back to the base under discussion, 'Archuleta Mesa' we have the following data on that base. The base is two and a half miles Northwest of Dulce, and almost overlooks the town. There is a level highway thirty six (36) feet wide going into the area. It is a government road, and one can see telemetry trailers and five (5) sided buildings with a dome. Next to the dome, to the North there is a launch site. There are two wrecked ships there. One can see thirty six (36) feet long oxygen and hydrogen tanks near them. The ships that we got to, near the tanks, were atomic powered with plutonium pellets. Refueling of the plutonium is accomplished at Los Alamos.

The base has been there since 1948. The base is 4,000 feet long and helicopters are going in and out of there all the time. In 1979, something happened and the base was temporarily closed. There was an argument over weapons and our people were chased out. The Aliens killed sixty six (66) of our people and forty four (44) people got away. One of the people who got away was in fact a CIA agent who, before leaving, made some notes, got some photos and video tapes, and went into hiding. He has been in hiding ever since, and every six months he contacts each of five people he left copies

of the material with. His instructions were that if he missed four successive contacts, the people would do whatever they want with the materials.

Somehow, a description of the *Dulce Papers* were issued, and was received in December 1987 by many researchers. The Dulce Papers were comprised of some twenty five (25) black and white photos, a video tape with no dialogue and a set of papers that included technical information regarding the jointly occupied U.S. and Alien facility one (1) Kilometer beneath the Archuleta Mesa near Dulce, New Mexico. The facility still exists and is currently operational. It is believed that there are four (4) additional facilities of the same type, one being located a few miles to the Southeast of Groom Lake, Nevada.

A general description of what these papers contain is that they contain documents that discuss Cooper and Molybdenum, Magnesium and Potassium but mostly papers about Bill Copper. Sheets of paper with charts and strange diagrams. Papers that discuss Ultra Violet light and Gamma Rays. These papers tell what the Aliens seek, "The Secret of The Metagene" and how the blood, taken from cattle and some humans is used. They tell why some Aliens seem to absorb molecules to eat by putting their hands in blood, sort of like a sponge, for nourishment. It's not just food they want, the DNA in cattle and humans is being altered.

Why a "Type-One" creature is used as a Lab Animal, and how to change the atoms to create a temporary, almost human being. It is made with animal tissue and depends on a micro computer to simulate memory, a memory the computer has withdrawn from another human being, creating some kind of Clone. The almost human being or Clone is a little slow and clumsy. Real humans are used for training, to experiment with and to breed with these "almost humans". Some are kept in large tubes, and are kept alive in an *amber type liquid*.

Some humans are brain washed and used to distort the truth, certain male humans have a high sperm count and are kept alive for that reason. Their sperm is used to alter the DNA and create a non-gender being called "Type-Two". That sperm is grown in some way and altered again, put in wombs. They resemble ugly humans when growing but look normal when fully grown, which only takes a few months from Fetus size, but they have a short life span, less than a year. Some female humans are used for breeding, and subsequently, countless women have had a sudden miscarriage after about three (3) months into the pregnancy, and some never know they were pregnant, others remember contact some way. The fetus is used to mix the DNA in types one and two. The make-up in that fetus is taken at three (3) months and grown elsewhere.

That's what the "Dulce Papers" talk about, (some of this information is covered in volume two "The Pulsar Project"). There are some pen and ink reproductions of what one of the wombs look like i.e. two (2) by four (4) feet, an illustration showing one of the tubes in which the "almost humans" are grown, a page showing a simple diagram of crystalline metal, pure gold crystal, and what looks like either a genetic or metallurgical diagram or chart. Also attached is what looks like an X-Ray diffraction

pattern and a diagram of hexagonal crystals, with a comment that they are best for electrical conduction. It would appear that the last half of the material in the papers applies to the super crystalline metal used for hull structure, or something along that line.

Obviously, this is all rather bizarre from a certain point of view, any point of view, in fact, material that is supported by years of descriptions and multitudes of corroborations must mean something, especially when compared against what seems to be going on. It is apparent from this, and other data that has been accumulated over the years, that there are underground bases and tunnel complexes are all over the world, and that more are being constructed all the time. Many of you may recall the "Shaver Mysteries" and inner-city stories, well, all that is true. There are cities down there, amongst other things, and some of them have nothing to do with the main subject of this document. They've been under there a long time.

Let's change direction for a moment, one individual by the name of Lew Teri has been working on some ideas regarding Geomagnetic Anomalies, which UFOs may use. We will go into what he has discovered, although the concept of the relationship is not new, and let you judge that for yourself.

After purchasing Aeromagnetic and Gravitational Anomaly Maps for the United States Geological Survey, it became evident that there was indeed a valid connection between these areas and UFOs. Mr. Teri gave a lecture in Arizona about that relationship, and was harassed by the FBI, and told that the information was and is sensitive. Mr. Teri took the hint and declined to talk publicly about it to the degree that he had been doing. Both the aeromagnetic and gravitational (Bouguer Gravity) maps indicate basic field strength, as well as areas of high and low field strength. Interestingly enough, the areas of maximum and minimum field strength have the following:

- All of these areas have frequent UFO sightings.
- All are either in Indian Reservations, Government land, or Government is trying to buy up the land.
- Many of them, especially where several are clustered together, are suspected base areas and/or areas where mutilations and abductions have historically taken place.

In these observations, Mr. Teri has gone far, but he has gone a little further in noting that there are times when UFOs are seen in these areas. Through painstaking research Mr. Teri found that the sightings, as well as, many abductions and mutilations occur:

- When there is a New Moon or within two (2) days before a New Moon.
- When there is a Full Moon or within two (2) days before a Full Moon.
- At the Perihelion (when the Moon is closest to Earth) or within two (2) days before the Perihelion.

A glance at the nearest Farmers Almanac will give you the information you require as far as the days for this year or any other time. There seems to be no concrete explanation for the coincidence of the times and the events, but appear to be true.

Back to our main subject of this chapter of this document, talking about Grey, Rigellian bases, we have the principal bases:

United States of America (Earth)

- Fairbanks, Alaska
- Groom Lake, Nevada
- Dulce, New Mexico
- Utah
- Colorado
- California
- Texas
- Florida
- Georgia
- Maine
- New York
- New Jersey
- Wyoming

The Atlantic Ocean (Earth)

- Wavenest

The Moon

- Luna-1
- Luna-2

Obs-1 - No report for bases at Europe, Asia, Oceanic, Africa, Central and South America.

Obs-2 - No information about Nordic bases or any other Aliens.

Project BETA, The Study of Grey Psychology - The Rigellians, either through evolvement or because the humanoid types are constructed, will exhibit tendencies for bad logic. They appear to have more frailties and psycho weaknesses than the normal humans. The Rigellians are not to be trusted, because of the Rigellians apparent logic system, a key decision cannot be made without higher clearance. All are under control of what they call 'THE KEEPER', yet it would appear that even this is not the final authority. Delays as long as twelve to fifteen hours can occur for a decision.

Because of this apparent control, individual instantaneous decision making by the Rigellians is limited. If their plan goes even slightly out of balance or context, they become confused. Psychologically their morale is near disintegration. There is a pronounced dissension in the ranks, even with the humanoids, because of their own internal vulnerability, (mind-wise) to each other, and additionally there is a basic lack of trust between them.

They appear to be totally death oriented, and because of this, absolutely death fear oriented, (this is a psychological advantage to us). The prime and weak areas discovered, probed, and tested are exactly what we had thought, their mind, 'being their key strength', and that which they use to manipulate and control our minds. Manipulated in reverse, by using reverse psychology we could make them face a situation where they would have a vulnerable integrated weakness, we could use against them.

Taxonomy of some Extra-Terrestrial Humanoids - Working under the instructions of the humanoids for Rigel (Greys, type ones (1)), CIA and former Nazi scientists have developed and deployed malignant strains of bacteria and viruses, including AIDS, in order to exterminate undesirable elements of the human population.

The Greys, especially the type ones (1) are almost entirely devoid of emotions, but can obtain a 'high' by 'telepathically' tuning in the different kinds of intense human emotions, such as ecstasy or agony. Does that explain why UFOs have always been seen in regions of war or devastation, where humans are in conflict ?

We have in the United States several offspring of Alien and humans living together, this is part of a sociological experiment by our government.

Throughout recorded history, as well as during pre-historic times, there has been constant genetic manipulation of inter-breeding with Uni-Terrestrial survivors trying to save his or her cosmic heredity, in order to breed out the less evolved affected survivors. The Nordic races have participated in this form of new beginning, which makes us much more a part of them than we might suppose.

Greys have the ability to camouflage themselves as tall blondes Nordics through mental energy projection. Blondes Nordics never project themselves as Greys. Some Blondes seen with the Greys are physically real, but are prisoners of the Greys, who have either paralyzed them or have destroyed (neutralized) their ability to teleport through time and other dimensions.

Both blondes Nordics and Greys have the ability to disintegrate matter into energy and then reintegrate the energy back into matter. This ability allows them to pass through walls and to transport abductees out of their cars with the doors still locked.

The original Rigellians were the Nordics until they were invaded by the Greys, a parasitic race, who took over and interbred with them against their will. Several blonde Nordics escaped from the Grey takeover of their system and came to Earth because the original Rigelian and Uni-Terrestrials were the Nordics and claim to be the ones who seeded the Earth. It is because of this common ancestry that terrestrial humanity is of such interest to both the Nordics and the Greys. Greys were and are easily able to impregnate terrestrial human females either on board their ship or while they sleep in their

homes. Males need not be manifested in visible form for this to occur.

The conflict between the Nordics and the Greys is in a state of temporary truce, although the conflict between Rigellians and the Sirius Star System is being fought actively. The Nordics with speech abilities will respond violently if attacked or threatened, but the telepathic ones will respond peacefully. Nordics were sometimes mistaken for Angels in earlier centuries. They do not seem to age, and consistently appear to be from twenty five (25) to thirty five (35) years of age. The Nordics now inhabit the Procyon Star System.

GREYS

TYPE A

Type A's are the large nosed Greys from the Rigel Star. These Greys are ones with whom our Government has a treaty.

DATA

- The approximate height is 3.5 to 4.5 feet tall. Some approximately 5 feet. Their weight is approximately 40 pounds.
- Two semi-rounded black eyes, without pupils. They are large, almond-shaped, elongated, sunken of deep set, far apart, slightly slanted, appearing "Oriental" or "Mongoloid".
- The head, by human standards, is large when compared with the size of torso and limbs.
- No ear lobes or protrusive flesh extending beyond apertures on each side of the head.
- Nose is long and vague. Two nasal openings are indicated with only slight protuberance.
- Mouth is indicated as a small "slit" without lips, opening into a small cavity-mouth, which appears not to function as means of communication or an orifice for food ingestion.
- Neck described as being thin; and in some instances, not being visible because of garment on that section of the body.
- The head is hairless.
- The torso is small and thin.
- Normally they wear a metallic but flexible garment.
- Arms are long and thin and reaching down to the knee section of the body.
- The hands have four fingers each, but no thumb. Two fingers appear longer than the others on each hand. They have some kind of long fingernails. A slight webbing effect between each finger exists.
- Legs are short and thin. Their feet are like an orangutans feet.
- They have no teeth.
- Their skin description is some kind of beige, tan brown, or tannish or pinkish grey color. The texture as scaly or reptilian, and as stretchable, elastic or mobile over smooth muscle or skeletal tissue. No striated muscle. Light perspiration and very particular body odor. Under magnification the tissue of skin structure appears to be a mesh, or like a grid network of horizontal perpendicular lines. They suggest that the texture may be similar to that of the granular-skinned lizards, such as the Iguana and/or Chameleon, and may be similar to at least on other type of alien humanoid.

REGELIAN
Type A

- No apparent reproductive organs. Perhaps atrophied by evolutionary degeneration. No Genitalia. The absence of sexual organs suggests a system of cloning reproduction may be prevalent.
- The Aliens appear to be 'formed out of some sort of mold', or sharing identical facial characteristics.
- Colorless liquid prevalent in body, without red cells. No Lymphocytes. Not a carrier of oxygen. No food or water intake is evident or known at this time. It is believed at present that no food may ever be required. No digestive system or GI tract. No intestinal or elementary canal or Rectal area described.
- Many variations of anatomy exist.
- Their life span is unknown at this time.

TYPE B

Type B's are the Greys from Z-Reticulae 1. These Greys are also ones with whom our Government has a treaty.

DATA

- Physiology more or less is very similar to that of the Rigelian Greys. They are Male and Female. The differences are they need food for survival. They prefer proteins of dairy meals. They have asexual form of reproduction. The 'Orulo' grow outside the female Z-Reticulae 1.

The next page shows a sketch of a Z-RETICULAE 1 Alien.

- Physiology is like Z-Reticulae 1's. The differences are at the eyes, they have big black pupils.
- They have ear lobes.
- The Type C number one Greys, have the same type of reproduction as the Z-Reticulae 1's.
- The mouth has small lips and a throat which they can speak from with verbal words.

Z-RETICULAE 2

Type C

ALIEN TECHNOLOGY

ALIEN CRAFTS WITH DIMENSIONAL FACTORS AND/OR DIMENSIONAL ORIGIN. To understand this concept you have to realize we live in a Universe made of ten (10) Dimensions; nine (9) Spatial and one (1) Temporal. On Earth though, we just use four (4) Dimensions; three (3) Spatial and one (1) Temporal, because on Earth six (6) dimensions are compacted at one Abstract Dimension. Following the theories of two physicists Dr. John Schwartz, (USA) and Dr. Michael Green, (England) the Particles of our Atomic Structure have the consistency of ten (10) dimensions. For the system to be established, after the BIG BANG, the dimensions collapsed and created the compacted effect of the six (6) other dimensions into one dimension.

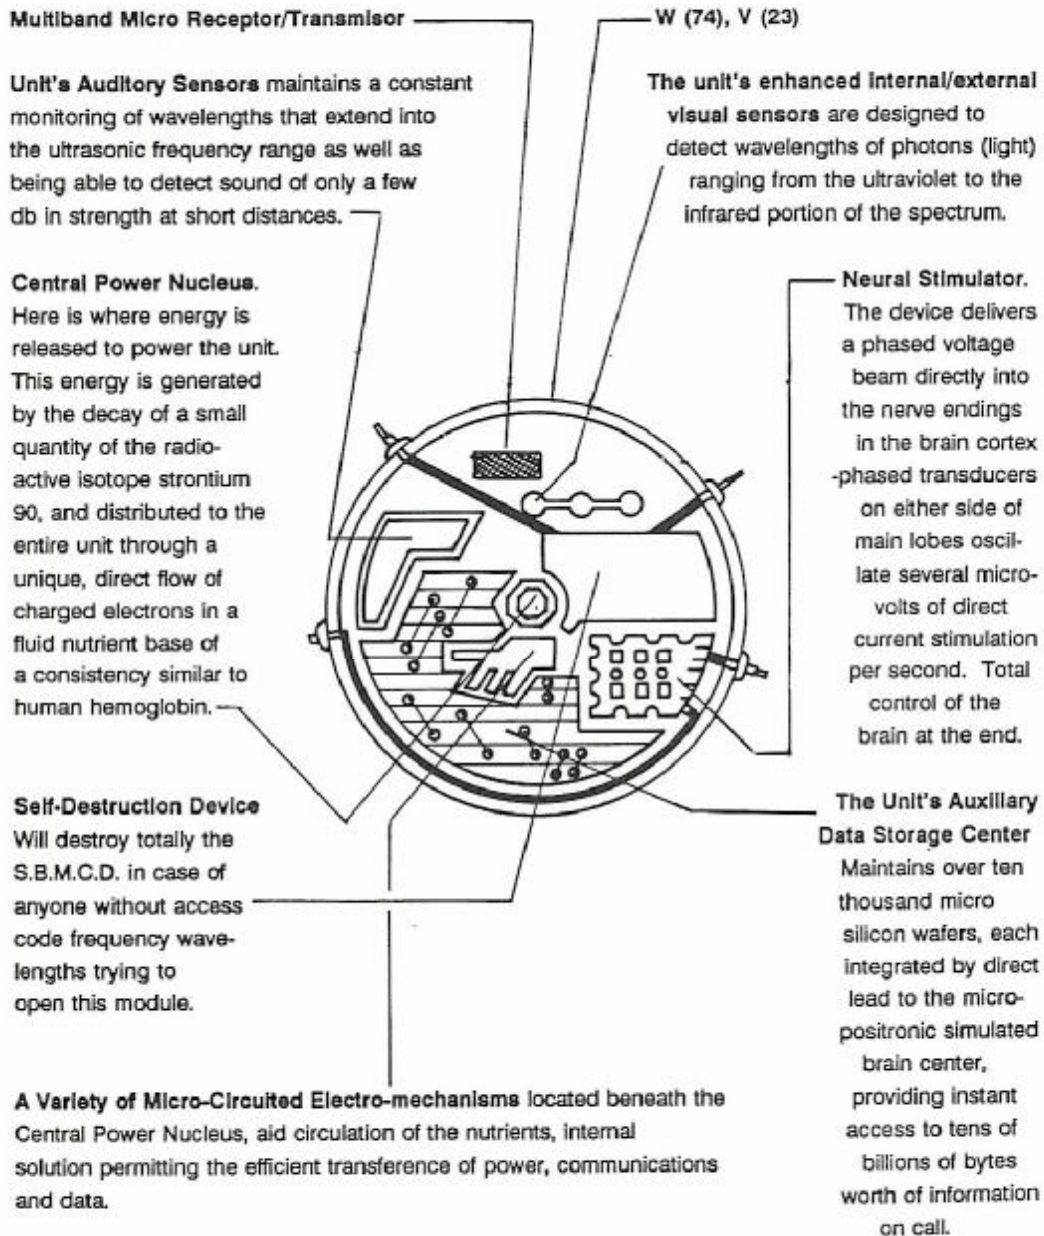

The Aliens used this knowledge, which they call the **NORDWAG FACTOR**, which increases one large field of acceleration or particles and recreates a new dimensional spaces. This means that the inside of the Alien craft is much bigger than the outside size to the Alien craft is in size and dimension.

Some similar aspect affect over 3rd Dimension (Space) and 4th Dimension (Time) to the six (6) other dimensions: **MULTIVERSE (MULTI-UNIVERSE Theory)** and not a single **UNIVERSE Theory**. Universe is a single part of the total of the **MULTIVERSE**.

THE U.S. GOVERNMENT AND ALIEN TECHNOLOGY. Of course they (Aliens) have given high technology to the Government but how do scientists, (like myself) know the difference between a toy or a real sophisticated device if they never have seen one before ? They give us primitive concepts in computer systems (micro-chips and integrated circuits) and we improve much more faster than they expect we can. After this, Aliens have been much more careful about what "Toy" they give us because we have demonstrated that we can turn a "Toy" into High Technology in short order.

The Main interests of the U.S. Government is to collect all possible Alien information in science (especially new sources of energy), technology (specially beam weaponry and tactical Aircraft), medical (extend the life expectancy of Humans and total elimination of deadly infirmities, i.e for elimination of "the weak" people from our society), and Intelligence (especially in mind control). All of these objectives are still ongoing.

The Implant or S.B.M.C.D.

The S.B.M.C.D. or Implant - The Spherical Biological Monitoring and Control Device (SBMCD) is a techno-organic enhanced synapitid processor powered by a micro-positron flow that controls or mimics the functions of the human nervous system with micro-relay's duplicating the operations of brain engram patterns.

Normally the Greys during an abduction make an insertion of a 3mm device (SBMCD) through the nasal cavity into more close proximity to the brain of the abductee and after implementing subliminal post hypnotic suggestions that could compel the abductee to perform some specific act within the next two (2) to five (5) years.

Normally the SBMCD only can be removed when the abductee dies, trying to remove it while the abductee is alive means certain death.

Allens and the Electromagnetic Spectrum - After reading this document, there should be no question at all in your mind, that there are intelligences that can manipulate or materialize any kind of object into our dimension. Let's take a look for a second, at the electro-magnetic spectrum. As you know, our visual spectrum only makes up a small portion of the whole. Look at what spectrums are involved with UFOs:

- UltraViolet Spectrum
- Blue Spectrum (UFO entry Field)
- Cyan Spectrum
- Green Spectrum (UFO is Visible)
- Yellow Spectrum (UFO is in a Vulnerable Status)
- Red Spectrum
- Magenta Spectrum
- Infra-Red Spectrum (UFO is Departing)
- Heat Spectrum (UFO Field)
- Radio Spectrum

If you will relate this to cases that you are familiar with, as far as appearance, Spectrum Shift when in flight, etc. you will see the applicability of the above diagram.

Allen Artifacts Used at Mutilations

This biological scanner is used for field determination of general medical condition of life forms by sensing body emanations in emission groups of Alpha, Beta, Gamma, Kirlian, Tetha and XI Rays.

OBS - refer to files of Majic medicine, advanced diagnoses practices, report for scale calibration and current interpretations of readings.

Specification: Overall Length 6.05cm
 Maximum Diameter 3,5 cm
 Weight 230 gr
 Sensitivity (Em^γ/AU²) to 0.0001
 Reading Groups All
 (Alpha, Beta, Gamma
 Kirlian, Tetha, and
 XI Rays)

A = Computer (circuits) housing
 B = Activating Control Switch
 C = Scanner Housing (#48 Mesh Screen)

- D = Rotating Scanner
- E = Reading Dial (increase from bottom to top)
- F = Life Form Type, Select Scale
- G = Ground Plane Screen (#48 Mesh Screen)
- H = Select Range Scale for Different Kinds of Life Forms

The Biological scanner Type 1 consists of two (2) parts:

- Part number one is the scanner head, which you use to active the device by rotating the scanner head, which is enclosed in a microchip mesh sensor network. This will activate the unit.
- Part number two is the main body, that interprets signals received and converts them into an audio readout, which is programmable by twisting the scanner head to the desired position.

The scanner functions much as does a mini-diagnostic center, by sensing the physical emanations of an individual or an organic being, which is in close proximity. The audio signals indicate either through its period or tone one of ten vital readings:

- Body Temperature
- Blood Pressure
- Pulse Rate
- Respiration Rate
- Basal Meta-Bolic Rate
- Cell Rate
- Lung Capacity
- Heart Activity
- Brain Activity
- Homeostatic Deviation

The scanner is intended for use with a single species, although it has limited diagnostic use on physiologically similar life forms. For visual readout, the scanner can transmit signals to a bio-computer, the lights on the computer serve the same functions as the oscillating tones, and can be enhanced for a more detailed appraisal of the being if desired.

NOTE: A regular physician must undergo extensive training before being able to "Read" precise information out of the sounds emitted by the scanner, and there is no simple method allowing the layman to do the same.

The Spray Applicator - The spray applicator is a small cylindrical dispenser of epidermal drugs employed by depressing the major axis of the unit between thumb and forefinger. Although it is capable of dispensing a variety of liquids, foams and gels, it is normally pressurized for field use with

an organically based flesh-colored compound that acts as a coagulant to stop the flow of blood, as well as, an antibiotic to protect against infections. A mild local anesthetic deadens pain in the affected area. The applicator contains about five (5) to ten (10) doses, depending on the amount needed in field operations.

The Field Reader Tube - The reader tube is used when the low powered scan is not effective to diagnose a patient's condition, like a species that may possess a thick epidermis. It transmits life readings from a sensor head to four (4) independently, activated lights, which indicate through their intensity or period the following:

Green	Heart Rate
Red	Pulse Rate
Blue	Body Temperature
Yellow	Blood Pressure

The pointed sensor end of the tube must be placed into direct contact with the patient's exposed skin. Due to the narrow reading range provided by the reader tube, it is suitable for any Life Form.

Surgical Scalpels - Six (6) scalpels are contained within the Surgical Kit, Class: ABR-5, with cutting widths varying from one (1) to five (5) angstrom units. Activated by gripping the cylindrical base, they employ converging Laser beams for a very precise subcutaneous incision.

Skin-Grafting Lasers

The type one (1) low power Laser is used to quickly and painlessly heal external wounds by closing severed blood vessels and nerve endings, while stimulating the victim's anabolism, (constructive metabolism, i.e. regeneration of tissue).

The type two (2) laser can also be used to graft skin, (removed by scalpel from less sensitive parts of the body) onto areas where tissue has been damaged or completely destroyed. This procedure should be followed, as it is really necessary. The Laser is activated by depressing the dorsal bar increasing the pressure, causes and increase in intensity.

The Blood Attracting Device - This device is an emitter of a force-field, like some kind of Tractor-Beam emitter that can focus a wave or particle beam. The device is set for locate hemoglobin cells and attract them through the skin, using the principle of Gravitational Electromagnetic Focus Contention. This device can also be used for repelling, or mutual repelling and attracting mode to seize and hold stationary, repel, or attract even large objects.

The device can operate at a full 180/360 degrees, allowing it to function at almost any angle. Because the beam has its limits the wave particles are short-lived and will disintegrate into by-products at longer range, i.e. in excess of 100 meters.

U. S. GOVERNMENT SECRET TECHNOLOGY

The helicopters themselves have been seen in areas where UFOs were reported, in many countries. In some of the more interesting accounts, the mystery helicopters were seen with UFOs or shortly after UFOs were sighted.

In a documented Mystery Helicopter wave in England, accounts place oriental appearing occupants in a unidentified chopper. Slant-eyed, olive skinned, oriental seeming occupants have been a staple at the heart and at the periphery of UFO accounts for years, significant numbers of the infamous 'Men in Black, (MIBs)' have a similar appearance, but very often they are seen as very pale and gaunt men who are sensitive to light.

In 'Stigmata' ne5, (fall-winter 1978) Tom Adams outlines the most prominent speculative explanations, accounting for the mutilation helicopter link, including the following possibilities:

- The helicopters are themselves UFOs, disguised to appear as terrestrial craft.
- The choppers originate from within the U.S. Government Military and are directly involved in conducting the actual mutilations.
- The helicopters are Government Military and are not involved in the mutilations but are investigating them.
- The helicopters are Government Military, and they know about the identity and the motives of the mutilators and by their presence, they are trying to divert attention to the possibility of involvement by the Military.

Mystery Helicopters and Mutilations - Normally the mystery helicopters belongs to the DELTA/NRO division. For a normal mutilation research mission they send one helicopter with a team of seven agents and two Remote Piloted Vehicle, (RPVs). The RPVs are small devices of look-a-like small saucers of three (3) feet in diameter and radio controlled.

Surveillance Devices

Airborne Remotely Operated Device, AROD
THE RPV

NOTE: This vehicle was created by Aerojet Electro-Systems in California.

The RPVs also carry a surveillance robot Airborne Remotely Operated Device, (AROD). A flying pizza with a tail, three (3) feet across, carrying a high-tech video camera aboard. Also surveilling the surveillance device from above, is a device known as a High-Altitude, Long-Endurance Drone, (HALE). HALE is designed to reach altitudes up to 100,000 feet. The device is powered by microwaves from the main helicopter.

The HALE, ADR/238F

The Teledyne Ryan Aeronautical corporation is responsible for the mysterious Helicopters or 'XH SHARKS', as they refer to them.

**The TRA, SN-75

I believe a cover-up of the capacity of this helicopter, is operating which overrides the real and total capacities and capabilities of this helicopter, but the following is only what I've been able to learn, and may not be the total capacity and/or capabilities.

- **Type Rotor:** Advanced Blade System, Experimental Research Demonstrator.
- **Engines:** One (1), 1,825 horsepower Pratt & Whitney engine, Canada J60-3A Turbojet, Turboshaft and two (2) 3,000 lb. (1361Kg) Pratt & Whitney Turbo's.
- **Dimensions:** Diameter of three (3) blade, double main rotors are thirty six (36) feet oin (10-97m) length of the fuselage forty (40) feet.
- **Performance:**

Maximum Speed (level flight)	276 MPH (445 Km/h)
Rate of Climb	5,000 Ft./Sec.

Some helicopters (XH-75D Type) also have a Gravitational Electromagnetic Projector to create a "Cocoon" around the helicopter as a disguise. A 360 degree global arc with a radius of fifty (50) feet, more or less, provides a photonic force-field.

A black Helicopter (XH-75D Type)

When activated, turns into a UFO, as shown below, with no inertia and no acceleration effects.

This provides 82% Higher protection against attacks. When used during a normal Mutilation Research Mission, the XH-75D Type black helicopter carries a crew of seven agents, two (2) RPVs, and one (1) HALE drone.

ALIEN ABDUCTIONS

"The Monitors": Abductions - In the fifties, the EBEs, (Greys) began taking large numbers of humans for experiments. By the sixties, the rate was speeded up and they began getting careless. By the seventies, their true colors were very obvious, but the special group of the U.S. Government still kept covering up for them. By the eighties, the Government realized that it was too late and there was no defense against the Greys. So programs, (media, sine, TV, comics, commercials, books, magazines, cartoons, etc.), were enacted to prepare the public for open contact with non-human Alien beings. Now at the beginning of the 90's, (1991) these programs are continuing, and working well too.

The Greys and the reptoids are in league with each other, but their relationship is in a state of tension. The Greys only know the Nordics and the Reptilian Race as their Enemy, (don't confuse the difference between the Reptilian Race and the Reptoids or Reptiloids, because they are completely different races). We will talk more about the Reptilian Race later.

Some forces in the Government, want the public to be aware of what is happening, while other forces, (collaborators) want to continue making what ever deals necessary for an elite few to survive the coming conflicts.

The future could bring a fascist 'New World Order' or a transformation of human consciousness, (awareness). The struggle is 'NOW', when any active assistance is needed. PREPARE ! WE MUST PRESERVE HUMANITY ON EARTH !

The Case For Alien Abductions - GREY types and some NORDICs are on the top of an Alien Force who are bent on abducting millions of people (along our History) against their will, subjecting them to intense medical probing and committing other invasive acts. These determined Alien species are here, using Earth as a gigantic Breeding Ground. Their accumulated data show's that we're well past the phase where mythic or academic explanations alone will suffice.

Up from the strange, chaotic depths of abduction lore packed into a growing research files and journals, a central theme is emerging. The bottom line evidence of certain Aliens methodical, ultra-intimate program with Earthlings refutes the cosmic altruism found in traditional contactee literature, and counters the New Age trend of unrealistic idealism that concentrates exclusively on benevolent, spiritual motivations of presumed ET visitations. Scientists are beginning work on the Alien front, even the term 'Extra-Terrestrial' stretches the data far beyond its reasonable limits. This unknown agency exhibiting strictly cold and clinical attitudes toward human beings is unquestionably 'Alien'; it's certainly been witnessed often enough in conjunction with UFOs or UFO occupants. But even lengthy witness accounts that go into great detail about this or that Alien home planet or star cluster fail to factor out the elements of wishful thinking, deception and disinformation to the field of study. The

potential for misleading data attaches itself to abduction research as readily as memories of blindingly bright lights and *missing time* recur as acknowledgements of the experiment itself.

The bottom line cannot be discerned beyond the facts at hand. Researchers admit to being stuck in the very earliest stages of divisiveness and confusion, more than anyone else. The abductees themselves have to feel the pain-terrifying literal pain that comes from being at the mercy of an Alien Force whose bottom line agenda largely ignores the fundamentals of human dignity and well being. But the Aliens do fully comprehend and seem to manipulate the requirements of organic reproductive creation. In this, they are much like us. We are dealing in a realm that overrides long standing cultural habits of thought and behavior. All we have to work with are the reports that have been allowed to break through the rigid veil that hides UFO information. The bottom line is babies !!! Time after time, abductees recall the same sequence of events and observations, their mechanisms of conscious control softened under hypnosis. Many come in *Clean*, that is, with little or no previous interest in UFOs and having never heard of or much less read the several books that are introducing the topic to the masses: INTRUDER AND COMMUNION.

The proscribed order of abduction events reveals an industrial sized operation with across the board demographics. People of all races, most ages and both sexes have had the experience. It's fairly obvious, the researchers maintain, the manufacture of hybrid babies dominates the Alien Agenda. It's very extremely structured; they may do a *Million* different things, but they're really interested in one thing alone.

The generic sequence of events as recorded and documented, is as follows:

- Examination
- Egg Harvesting or Sperm Sampling
- Baby Presentations (Only for Females, rare for Males)
- Machine Examinations
- Media Presentations of Idyllic Environments. The abduction sequence is not exact in every instance, but enough leading indicators must be present to qualify the case as one deserving further investigation.
- Capture
- Examination
- Conference
- Tour
- Other Worldly Journeys
- Theophany - The delivery of some sort of quasi-religious message or experience.
- Return
- Aftermath

This hasn't happened in that many cases, but still deserves particular mention at the moment. A significant number of abductees tend to retain special, almost spiritual feelings about their experiences, even if they were treated roughly or hurt. Also, recent investigative efforts are hinting that various sources in the intelligence community exhibit an odd preoccupation with the religious angle. These sources claim they can furnish an "inside track" to greater levels of truth about the UFO Phenomenon, and some investigators consider them trustworthy. They're inexplicable, "Fascinated" with religious side of the things. For some "nasty Alien Races" religion means the better way of mass manipulation and psychologic/sociologic control that they can get, and it works very well!

Researchers feel they are getting closer to having more definitive answers about abductions. A body of evidence that once emphasized matching details, lie-detection and the relative psychology of witnesses is giving way to one yardstick that never fails to command scientific respect. Similarities in form and content are important to know, but ultimate answers demand exterior evidence to bridge the gap between report and reality. After a close encounter of the 2nd Kind. We have documented the physical and chemical evidence such as soil samples and performed full analysis on these samples. The affected soil was packed in hard, desiccated chunks. To duplicate the effects, analysts had to heat normal soil at 800 degrees Fahrenheit for six (6) hours. This is one kind of physical evidence. Body scars and other medical trauma left in the wake of Alien examinations are perhaps the most incontrovertible evidence we found available. But other developments add more fully to the case for Alien reality. One example is an examination of stained clothing retrieved from an abductee just after her experience. The clothing awaits spectrographic analysis. The results of this analysis can tell us what kind of residual stains can appear, this again is additional physical evidence.

If large numbers of doctors in conventional gynecological practice were to be exposed to abduction data, a whole new sub-specialty would be inevitable. Many women abductees indicate that the Aliens tampered with their reproductive organs, if not actually committing a form of technological RAPE. Some women abductees are plagued with stark memories of strange wispy haired offspring whose presence sometimes evokes revulsion and the paradoxical feeling, "That's MY CHILD".

Additionally, we have to talk about the disappearing pregnancies. Abductees as far removed from one another as Brazil to New Hampshire tell nearly identical stories of pregnancies that suddenly appear and disappear and, later, reveal memories of repeated meetings with small, not-quite human infants they are asked to hold or touch.

One theory holds that the Aliens are attempting to learn by proxy the skills of nurturing to aid in the replenishment of their race. I think it's purely physiological. In some way we don't understand the baby is aided and/or helped by the physical touch. One of the abductees said she felt like a "Human Battery Charger". Elaborate rituals that present babies to parents and attempt to institute some sort of ongoing parent-to-child relationships have been documented, along with descriptions of high-tech nurseries and what looks like unusual incubation apparatuses.

The realm of UFOs is a place where paradox is the norm. It's assumed the Aliens use technology that far outpaces what we have on Earth, yet some of their methods seem low-tech by comparison. According to some data collected about abductions, the Aliens, like humans, have to confront the "World of E.r.r.o.r." in their experiments. For many years, the "World of E.r.r.o.r." appeared primarily as a crashed saucer, recovered pieces, and occupants....., what we're finding in the abduction phenomenon is that the factor of error is quite different. What it boils down to now is someone "sneezing out" something, or an odd metallic object in one's body that no one can make heads nor tails of. Several people have in fact sneezed out objects which may be Alien implants, though so far most of the objects have been lost or thrown away, but a few implants were recovered (which will be discussed later in this document).

The unfolding drama of abduction wouldn't be complete without a token note of "Big Brother" Government paranoia. Even earthly high tech includes sophisticated mind control techniques and the capabilities to project sights and sounds at a distance. Perhaps not probable, but it's possible that what most researchers consider an Alien orchestrated abduction sequence is actually a carefully scripted, electronically induced perception. That means big news to Earth:

If certain areas of the human brain can be remotely stimulated, then it is possible to develop a technology that broadcast over large territories, literally saturating the area with a flood of symbols.

Such a device would be a major tool of social change. The buzz that human witnesses often hear could be produced by microwave radiation, known to be in the arsenals of governments darker programs.

A mind control hypothesis could also explain the relative lack of physical evidence, through only an irrational stretch of the imagination might link mind control techniques with what evidence has been documented, i.e. physical traces, unusual metal garments and scarring. Worth noting, however, is the fact that some researchers pursuing this trail of investigation, have been summarily and sometimes harshly thrown off. Sporadic accounts of humans assisting with abductions add a chilling note. What we inevitably face, even with the growing evidence, is a mountain of unanswered questions. If and when the mainstream quits denying the presence of UFOs, a well supported program of tactical research may ensue. Until then, abduction remains a mystery and the abductees the outsiders whose physical and emotional well being hinges on its solution.

The data we have about abductions, as derived by conversations with the abductees, that during the abduction process all abductees were scanned with a very sensitive and powerful mental probe which retrieved all personal and private data (name, address, age, profession, psychological pattern, etc...) from the abductees and was readily available to the Aliens for their data bank. Just a few of these names and addresses go to our government per the Alien/Government agreement. During the

process of abduction a directional subliminal mental command, kept away any other non-interesting witnesses around the area of the Alien craft.

After an abduction occurs, and if we can maintain synchronicity of finding the abductees within 12-24 hours after the abduction, (really not an easy job), we recommend (in the case of a female abduction) a complete Gynecological procedure common to abductions.

In succeeding generations of family exposure to recurrent abductions, we are observing areas of the human body that are consistently and quite visibly affected. This evidence is related to the skin (dermatology) and muscles (musculo-skeletal system). During their experiences, many abductees and/or witnesses will feel a tingling, prickling, or static electric shock type of paresthesia sensation over the skin, followed by paralysis (involving the musculo-skeletal system) of the entire body, with the exception of an abductees heart and lungs where minor or no effects may be found.

Scar's - The body marks may remain permanently or become transitory in nature over a short duration, healing or disappearing all together. In dealing with the skin we find the following evidence:

- A thin, straight, hairline cut, linear, and about 1 to 3 inches in length.
- A circular or scoop like depression, about one eighth to three quarters of an inch in diameter and maybe as much as a quarter of an inch deep.

Rashes - Rashes are seen on the body, most appearing on the upper thorax (chest) area and lower extremities (thighs and legs). Many are geometrical in shape, triangular or circular. Other rashes, similar to chronic inflammations such as localized psoriasis, may be found on other body areas. First and second degree burns have been sustained in a number of cases and in some cases questionable tumors (Lipomas) have been noticed just beneath the skin.

The Most Common Areas Examined by the Aliens - Other medically determined patterns of consistency are as follows:

- The nasal cavity
- Ears
- Eyes
- Genitalia
- The umbilical (naval) Region on Females only.

These areas appear to be the physical areas of greatest interest to the abducting Aliens. Many abductees have described a thin probe with a tiny ball on its end being inserted into each nostril, usually on the right side. The abductees are able to hear a crushing type sound as the bone in this area is apparently being penetrated. We believe this is when they insert a device for tracking and

communicating with the abductee in the future is inserted. Many abductees will have nosebleeds following these examinations.

AS A PRECAUTIONARY NOTE: We recommend that known or suspected abductees, who are parents, watch their children for any evidence of recurrent nose bleeds that can't be explained. I recommend immediately taking the child to a pediatrician to discover the nature of the nosebleeds.

Diagram of Female Areas Examined

Note: These are just a few of the locations, shapes, and types of Marks left by an abduction.

Many researchers believe that the Alien technology is being used to insert an implant (we talk about implants in other parts of this document) into this area for future tracking of the individual. It is interesting to note that many of the individuals subjected to nasal probing now have a future history of chronic sinusitis.

Documented evidence has also shown that some abductees have been probed in their eyes and ears with a similar instrument. With eyes being involved, abductees may experience temporary blindness, blurred vision, swollen, watery and painful eyes (photophthalmia), acute conjunctivitis (red and irritated, inflamed eyes that is called 'Pink Eye' in lay terms). There's also some questionable history of these individuals developing cataracts.

Scars have been observed on the calf (including just over the tibia, or shin bone), thigh, hip, shoulder, knee, spinal column and on the right sides of the back and forehead.

Biological Specimens, Samples Usually Taken from Abductees and/or Witnesses: Evidence indicates that Aliens have taken blood, oocytes (ova) from females and spermatozoa from males, and tissue scrapings from their subjects ears, eyes, noses, calf's, thighs and hips, when abductees and/or witnesses are asleep or possibly under some form of Alien anesthetic.

There is also some circumstantial evidence to suggest that specimens might have been taken from the following; saliva, aqueousvitreous humor (eye fluids), cerebrospinal fluid, urine, stool, hair and nails.

We feel that all abductees are given some type of preparation prior to their examinations. Some witnesses have reported receiving 'Oral Liquid' medication, others an application of a liquid solution similar to a pre-operative 'prep' over various parts of their bodies; some report a tranquilizing effect 'telepathically' transmitted from the acting Alien examiner, and/or application of an instrument to the head which renders deep relaxation or unconsciousness.

Next we will outline that what we think are the three (3) stages of examinations which abductees are subjected to (through some type of pre-operative anesthesia):

First Stage - Pre-operative Abductees are subjected to some type of twilight sleep state, where they're in a definite trance or daze

This twilight sleep state could be induced by several different things, from the liquid application over the body, a specific conscious suggestions by the Aliens, the Aliens using some form of our hormones or enzymes to stimulate a neuro-chemical response, or some type of yet unknown technology.

One odd note, in connection with this stage, that prompts a lot of questions, is why is it that so few abductees remember removing their clothes? Because during the process of 'light sleep state' they receive a subliminal command to erase the more traumatic moments of the abduction. Some commands are so strong that just a few of the abductees are able to remember clearly their experiences, even when placed under hypnosis to remember.

Second Stage - Procedures Physical examinations take place; such as probing, insertion, exploration of the body, taking of biopsies, blood or skin samples.

During this phase, the abductees may be semi-conscious as the procedures are carried out. Some actually experience pain. Despite objections, the Aliens appear to be indifferent to their victim's pain and suffering; on the other hand, some abductees at this stage are given heavier sedation to quiet their fears and apprehension and do not recall any pain with these procedures.

Third Stage - Post Operative Afterwards, the abductees and/or witnesses say their bodies feel sore or exhausted as if having been involved in strenuous activity; some explain that it feels they've been tossed around or 'hit by a Mack Truck'.

This is similar to the known effects of 'Curare' a drug originating in South America that induces therapeutic muscular paralysis. There are specific blood enzyme studies, that if performed within 12-24 hours of exposure, can be used to detect any abnormalities of muscular activity.

Several documented physical traces of the abductee experience correlate fairly well with some of our recognized medical procedures. Most outstanding is one called 'Laparoscopy', which is a cylindrical, tube like instrument with special optic attachments are placed through a females umbilical (naval) region for exploration of female organs. With this particular instrument, a physician is able to observe all female organs to determine if any abnormalities are present, as well as obtain OVA-EGGS from the ovaries. Most women abductees have felt they were being 'blown up' inside, feeling tremendous pressures in the lower abdomen and discomfort in the vaginal area. During the Laparoscopy procedure, approximately two liters of carbon dioxide is instilled into the abdominal cavity. This causes distension of the abdomen, thus allowing better visibility of female organs. A few women may have residual scarring from the long, needle like instruments placed through the umbilical area.

Pregnancy - In correlation with the Laparoscopy procedure is a new treatment for infertility called Gamete Intra-Fallopian Transfer (GIFT), which treats infertility by placing sperm and pocytes directly into the infertile womans fallopian tubes for in vivo fertilization. In contrast with In Vitro Fertilization (IVF), GIFT facilitates natural physiological processes to achieve pregnancy.

Male abductees report having a tube like device attached to the penis which causes ejaculation for sperm sampling; this is highly uncomfortable to the individual. Most have said they sustain transitory

small lesions that disappear shortly afterwards. Others claim to have experienced direct sexual intercourse with an Alien Hybrid Female, ostensibly for the purpose of sperm retrieval as well.

A substantial amount of evidence has been accumulated that female abductees undergo gynecological insemination. These events have resulted in pregnancies, most documented by a positive pregnancy test by gynecologists. In cases of spotting or bleeding with these pregnancies, the physician normally performs a pelvic Ultra Sound scan (Ultrasound test to check pregnancy within the uterus) to rule out a threatened miscarriage or missed abortion (failure of the pregnancy to grow). The test can detect a pregnancy as early as five (5) weeks. Thus, pregnancy can be confirmed with two different gynecological tests. It should be noted that the government uses the abductees normal doctors to collect most of above and following data, without the patient knowing anything, and in most cases the doctors knowing very little, and threatened that if they ever talk, they will have the licenses revoked "permanently".

In cases we have seen, this is followed up by a subsequent Alien abduction, usually when the pregnancy is approximately 8 to 10 weeks along. During this time, there is a retrieval and/or removal of the pregnancy by the Aliens. The female may or may not experience spotting or bleeding during this time. What's baffling is how such a pregnancy can be removed intact, without causing death or injury to the extracted embryo by the Aliens.

In order for a particular to continue, several methods would have to be available immediately to sustain life in the extracted embryo. We suspect that some type of simulated intrauterine growth incubator is used to maintain the pregnancy; or perhaps an Alien Hybrid Female is used, whose role is to act as a surrogate type mother. Techniques for re-implanting the embryo are very difficult for our medical technologies of today.

Several alternative combinations can be speculated with the artificial insemination of female abductees:

- A. Alien sperm plus female eggs
- B. Male sperm plus female eggs, (in this case the Aliens choose a special type of Male).
- C. Male Hybrid sperm, (combination of both A and B) plus female eggs.

NOTE: Female human eggs are apparently needed in all cases.

- **Hybridization** - They claim that RH O- blood is the proof of hybridization and our own science tends to bear out their claim.
- We know that this group of Aliens has a tendency to lie. Since this is a "device" (referred to above) is of their invention, they are probably able to manipulate it just like Hollywood technicians manipulate equipment to produce the "Special Effects" or trick hologram photography.

Our Genetic Code is Under Siege - In focusing on the gynecological and reproductive procedures that have been performed on abductees, we have to come to firmly believe there is some type of ongoing genetic manipulation that is occurring within various family generations. For purposes of clarification, it is essential for us to use some medical terminology to explain specific facts. The way to genetic manipulation lies within the Deoxyribonucleic Acid (DNA) molecules of the human gene cells. These genes control the reproduction and day to day functions of all cells. It has been estimated that there are probably 30,000 to 400,000 essential genes in the human cells, assembled in lengthy linear arrays that together with certain proteins form rod-shaped structures known as chromosomes. Chromosomes from certain individuals, through certain altering techniques, form a customary arrangement or "Standardized Format" known as Karyotype.

We believe it is the manipulations of the genetic codes on the Karyotype of individual chromosomes that the Aliens are researching, specifically looking for Mutation Patterns. Mutation patterns would allow them to re-arrange the genetic coding on certain LOCI. In Genetic terminology, the specific site of a gene in a chromosome.

In this manner, they would be able to experiment with a multitude of LOCI in the various chromosomes, thus bringing about new genotype individuals in proceeding generations. Perhaps each succeeding generation of families is subjected to a different comparable type of experimentation by the Aliens.

It is interesting to note, just where the residual scars are located on abductee bodies. Now I would like to pose a new interpretation of the evidence found in our ongoing research of abductees. Many scars are found over the shin bone (tibia) and the hip bone (iliae crest), which are common areas for obtaining bone marrow samples and/or aspirations. Simply speaking, bone marrow produces the red blood cells in our bodies, and it is significant, in our opinion, that it is through a human's bone marrow and blood that it is possible to study their individual chromosomal pattern.

The timing of abductees' first experiences also correlates to the hypothesis. The marrow of essentially all the bones in the human skeletal structure produces red blood cells until a person is 5 to 6 years old. The marrow of the long bones, except for the proximal portions of the humerus (upper arm bones) and tibiae, becomes quite fatty and produces no more red blood cells after the age of twenty. Beyond that age, most red blood cells are produced in the marrow of such areas as the vertebrae (Spinal Column) and sternum (Chest Bone), ribs and hip bone (ilia), and as we get older, these bones become less productive.

Most initial abduction experiences occur when the abductee is between the ages of five (5) and twenty (20) years old. Based on these observations, we are probably dealing with two very important phases of an abductee's life as it relates to this apparent Alien exploitation:

Pre-Adolescent/Teen-age Phase

Initial blood samples, bone marrow aspirations and tissue samples are taken between ages five (5) and twenty (20) years of age. This would be the time frame for specific and early genetic studies on the chromosomes of abductees as a follow-up from another generation with studies performed to see if a certain pattern is consistent within the particular family. During this time, some type of implants are inserted so that the individual can be followed and found at some future date, after further analysis of samples have been obtained by the Alien researcher. Some of these individuals

may be abducted again, possibly due to a failed implant or for re-confirmation on certain genetic information.

Adult Phase

The pattern we are seeing at the present seems to reveal abductees are undergoing some form of ongoing genetic exploitation, implementation or manipulation, such as genetic coding. This is where we see the most consistent, most documented procedures of the abduction phenomenon, such as artificial insemination techniques, which are continued on some abductees throughout their reproductive years.

- Perhaps in their own way, if you believe in the "Space Brother" theory the Alien scientists are meticulously, methodically and clinically re-structuring the human race through procedures of genetic manipulation, so that we will be "designed better" for resolving our own problems, rather than requiring their more direct intervention into our petty world affairs.
- Maybe there is a double-blind study on the human race ongoing, for reasons known only to the Aliens, who are running the program.
- Or consider the possibility of this being an Alien scientific research mission, where studies are being performed on technologically less advanced planets.

All of this is pure speculation and wide open to other theories or hypotheses.

A new eugenics movement has recently sprung up in Southern California. Eugenics is the science dealing with improvement, by control of human mating, of the hereditary qualities of a race or breed.

These issues that bear on the eugenics movement can be argued both pro and con. However, we feel that overall it is a very emotional issue with implications that could correlate with the Alien agenda, and either certain problems that could very well rival our nation's controversial abortion decisions.

The techniques of selective breeding which seem to be utilized by the Aliens are beginning to appear in our own culture. For example, Dr. Robert Graham, who founded an organization called Repository for Germinal Choice, has come under heavy attack by his adversaries. Essentially, Dr. Graham's program allows women to 'shop' in his repository (Sperm Bank) for a specific type of donor sperm that they can retain for later use in artificial insemination procedures. In other words, a woman could select the sperm of a Nobel Prize Winner, an Astrophysicist, or an extra-ordinary professional such as an Astronaut, Physician, or a Mathematician, etc. It appears that this organization is out to create a new generation of super-intelligent children who will be eventually adults, through the techniques of selective artificial insemination. The socio-economic, political, psychological and theological implications of this controversial new technique, whether put to use by Aliens or humans, go beyond the scope of this document. Exactly what are these implications, you might ask? Only time will tell!

The Metagene Factor - The Metagene is a biological variant lying dormant in select members of the human race, until an instant of extraordinary physical and emotional over-stress activates it. That's an ergochemical, in response to adverse stimuli. A chromosomal combustion takes place, as the metagene takes the source of biostress, be it chemical, radioactivity, or what ever and turns the potential ergoresponse into a catalyst for genetic change. The main focus of the catalyst power is a gland in the middle of the human brain called the PINEAL gland, and the nutrient for increasing the Pineal's action is the adrenalin. The metagene factor gives the ability of Psionic Power.

The main interest of the Aliens especially the Greys is to understand and control the Metagene for their own race. They try to do this using Biological Experiments to make Hybrids from both humans and Aliens.

They believe perhaps the men from the planet Earth are the deadliest creatures in the Universe. Because only on Earth people are apparently capable of generating the Metagene Factor, which means Natural Psionics ability, 'Real Power'. The principle races in the Universe are psychologically the same. The pure cold logic is a normal order to most important races. Basic sameness makes for predictability and security, the enemy one knows, are the ones you can guard against. This is not the case with mankind.

While most are uniformly human, some, many more, apparently, than anyone had dreamed possess a latent tendency towards super humanity, Natural Psionic Abilities. That in itself could prove dangerous for any idea of Alien domination on Earth. But couple of mankind's inherent belligerence with the fact of the Metagene affects, each human is unique and Earth becomes a spawning ground for a unpredictable super-race, 'if we have the chance'.

Others have already demonstrated an awareness of Man's Potential along the human history, (Nordics treat). This is because the Aliens are here to try to control Earthlings before we dominate them, and they want our most important secret: THE METAGENE FACTOR, which is the Aliens only hope.

ABDUCTION BY GREYS

There is a large number of Grey abductees living all over the world. Most are either unaware or just partially aware of their involvement with the Aliens.

Grey abductees seem to be taken for a large variety of reasons, some apparently having nothing to do with the person, him or herself.

They might have been manipulated, to various degrees, for no other reason other than that they were with a person scheduled to be abducted. Others have been abducted apparently only once or very rarely, compared to throughout life. As with Nordic contactees, it would seem that genetics and artificial racial background plays a part in their selection processes.

People have been abducted by Greys for a long time. This contact can exist during generations in the same family, and even cases of the abductee having contacts with same entity during the process of past lives.

All this means, that there may be a clear indication that a large percentage of the human race could very well be a "Sleeping Army", and were picked up only once or twice and implanted, but not generally bothered or contacted throughout their lives. This suggests that these people are on hold for something, or that they are simply walking transmitters of some kind of information, basically bio-energocosmic psychowaves, back to the Aliens.

Most Grey abductees are first taken as children, and many adult abductees know or feel their children are being abducted. It would seem that most children who appear to be involved don't want to consider the possibility of actual abduction or think about it at all. It would also seem that the best policy with most children is to leave it at that, not push them to remember. Hypnotic regression, especially, is considered too much to ask of a child, even adults, actually should not take lightly the decision to have themselves hypnotically regressed to recall abduction experiences.

Children and adults alike, if they are involved, will tell you of their weird dreams and experiences even when they don't believe there is anything going on.

Women are frequently abducted largely for reproduction purposes, through some never experience that kind of interaction. Some of those who are involved in that part of it report that their earthbound, human children that "live with the Aliens" have several different reactions to the situation. Some are perfectly happy with the program as it is, many don't express any opinion about it at all because they don't see it as being anything they can do something about. Some are repulsed by the children and by their own involvement with them. Some have felt that the children we produce will be used against us.

Some of the weapons and aircraft training that abductees are involved in is actually done by the abductee for the sake of the unborn child. Training the mother as received is thought to be transferred psychically to the unborn child. Things along this line are part of what might inspire some abductees to fear their halfbreed children. Others love their halfbreed children as they would any others. Many who feel this way would like to recover their children and bring them back to Earth where they would have a better life than with the Aliens. Many also feel that the children are better off where they are but would certainly like more open contact with them, more interaction with their children.

Aspects of Bio-Field Differential

The bio-physical field of the Grey entities is in opposition to the field of the human body. The reaction produced by the interface of the two fields can produce a sensation referred to as "body Terror" by abductee Whitley Strieber. A human may or may not experience this reaction, depending on their ability to develop a "Mental Block" to the reaction created by the field differential, on occasions, the same possible reaction with some Nordics is experienced. The fields emitted by the Greys parallel the type of field emitted by much of their technology. The Greys use technology to amplify the effect of their bio-fields on the humans. It allows them greater control over the ordinary humans, who may react to the field differential with the human emotion of fear.

Using Internally Generated Tones to Interfere with some kinds of Manipulations

Anyone can produce high pitched tones in his or her own head. It would render the manipulative technology inert. Just maintain the tone during the presence of the Greys and anyone is capable of arguing with them. Generation of the tone is an important part of the human defense programming against intruders.

Awareness Parameters for Tone Maintenance

Since the technology used to manipulate humans encourages relative paralysis of conscious functions, maintenance of tone-interference or other mental techniques must be handled by a form of bridging, or cooperation between conscious and sub-conscious awareness. Effective use of counter acting techniques depends on an increasing awareness of both states. The sub-conscious areas are where all memories are preserved, and all experience there relative to abduction is subject to blocks placed there by both the abductee, (as a programmed response to a function which the Aliens have connected with the survival impulse) or the Aliens. Lucid dreaming indicates a closing of the gap between awareness of both mental areas. Being able to interact with the Greys, on their own turf, so to speak, is a threat to Alien manipulation and control.

Effects of Multiple Level Alien Manipulation

The most interesting aspect of Alien control and manipulation is that the technology they use allows the separate and distinct manipulation of both the gross and the finer densities that compromise the physicality of the human body. They have the ability to place a human on a table, put him or her into Delta Sleep, shock him or her with a static charge, separate his or her finer bodies, and manipulate

them at will. Manipulation of finer areas that involve the formative forces of the physical body have tremendous effects at the physical level.

They also have the ability to withdraw experience and memory from a human and place that experience and memory into another body, or container, whether the container is a natural or synthetic one.

Manipulations of these type have effects on the ability to have one's consciousness leave the body, emotional response patterns and programming, ability to deal with psychic blocks, and a host of other parameters.

To begin to counteract this, work must be done by the individual to work on expansion of awareness. Connections must be developed between the conscious self and the "second self", which may be the self that is projected astrally. After a while, the conscious maintenance of the connection begins to combine both conscious memories and memories which lie deeper. Work on self hypnosis and regression techniques with a qualified individual. These techniques will aid in the process of developing more awareness and control. Constant experimentation while in Alien presence must be done by the abductee, who must make an effort to note results of various mental manipulations on the Alien control efforts.

Some Major Indicators of Alien Interaction and Possible Hidden Involvement

- Missing Time
- Waking up during the night or in the morning with unusual bodily sensations, such as tingling, numbness, dizziness, heaviness, or paralysis. Any of these are often accompanied by disorientation.
- Nightmares or vivid dreams of Aliens and/or their technology.
- Sleep disorders, also waking up at a specific time.
- Physical marks or evidence of bodily manipulation.
- Repeated sightings of Alien craft.
- Clear remembrance of Alien contact and interaction.
- Healing or inexplicable improvement in your physical condition.
- Reactions of fear, anxiety or unusual bodily sensations upon viewing visual images of Aliens or their technology.
- Feelings of having had a communication.
- Un-explained behavior totally inconsistent with previous patterns.

Any or all of the above indicators may appear in combination with other ones. Many of the indicators could also signal a physical problem requiring medical attention.

Clinical psychologists have reported that a significant number of people have been helped by their

interaction with alien species, mostly through Alien physical manipulation that resolves a physical condition.

Bio-Conditioning of the Hybrid-Fetus in a Human Host

The nature of the Alien physiology is quite different from that of the human host. Through the autopsies that we have done on the Greys, it has been found that the tissue is very often a composite that reflects a blending of animal and plant genetics. Some species have black tissues with green blood and appear to function on a light based nutrient system.

Many human hosts have reported mysterious infections, often yeast-like in nature. Through analysis of many cases, it has been pretty well established that the Aliens often purposefully introduce systemic organisms into the human female in order to acclimate the hybrid fetus to the physiological environment of the Alien life to come. These substances are thought to be micro-fungi and/or micro-viruses. The implantation of these substances is thought to be critical for some species in their hybrid breeding program.

It is quite apparent that here is no concern for long-term affects of hybrid breeding on the human. They apparently make adjustments during the breeding cycle. These adjustments can include substances which physically wear down the human host, as well as, manipulation of the various fields inherent with the human body.

The question always seems to arise, if these Aliens can produce synthetic tissue, why couldn't they just grow a torso or create a synthetic clone to bear the fetus for them. Why do they have to use humans for this process ?

There are two main parts to the answer.

1. The first one is that they need the genetic input. The whole reason for hybridization is to enrich the genetic capability of the organism, for this they need human genes.
2. The second part of the answer is that they need the effect on the fetus or human emotional and psychic experiences. The hybrid being will develop growing sentience, (unlike a synthetic, where the sentience does not extend past the physiologically determined by the matrix, the programming is set) and must be exposed to these factors.

One would then ask why they could not sit around and project psychic energy at a clone, (using artificial ways, of course). The answer is that the emotional component would be missing and the psychic energy not so pure.

The hybrid fetus is extracted from the human most about ninety (90) earth days and development then continues in a totally Alien environment.

The whole process causes premature deterioration of the human female host, which simply increases the vulnerability to Alien manipulation due to a weakened condition. During the hybrid breeding process, the body of the human female host will be manipulated.

There have been cases where fillings in teeth, which may contain mercury and other metals, have been taken out of the humans mouth in order to seemingly promote the health of the developing fetus.

INCULCATION DEVICES AND THE PRACTICE OF MANIPULATION OF THE MIND

(The following material is copyrighted by Nevada Aerial Research)

Learning, teaching and assimilation techniques of electronic space societies

Through the experience of those who have had and are continuing to have various contacts with non-human entities, we have learned some data regarding these advanced societies. Overall, life appears to be rather regimented, social codes are sufficiently advanced beyond those of the human being, that they become a part of existence rather than the subject of existence.

In electronic space societies of positive orientation, knowledge and data are generally assimilated under duress, in that training and education are accomplished by forceful means, such as implant technology.

Techniques of electronic space societies inculcation, (to teach or impress by force or frequent repetition) is the usual term used.

One of the prime patterns of activity is what is called direct observation. During this process face to face contact occurs between the Alien species and a volunteer humanoid for the purpose of exchanging cultural information. Direct observation also appears to include various types of medical analysis. Abductees in this situation are actually volunteers, but inculcation methods block their knowing or awareness of their own participation. Of course this is not the procedure of some Alien races, who take abductees against their will, i.e. the Greys.

Direct observance operational procedures are as follows:

- A human target is sensed.
- The humans ridge response system is examined and checked.
- The craft is allowed to appear to the human, releasing old implant blocks.
- The subject is monitored and picked up when appropriate.

Sometimes a targeted human being will be picked up in childhood and taken to an underground facility for crystal implantation. They will be monitored through the growth period. In young adulthood, the human is picked up, and the crystals are removed and the human is kind of "Placed in Reserve" for future triggering and employment. The Andreasson Affair is an excellent case which features these elements.

INCULCATION DEVICES

Several kinds of devices have been noted by those who have had contact with various Alien species.

Inculcation Bar - A rectangular box of metal with multi-colored lights displaying a sequence of blue-green-red-green-blue and the numerical sequence of 1-2-3-4-5-4-3-2-1. The subject lies on his/her back, on a metal table directly beneath the bar. At the foot of the table, level with the surface in a metal console box with cables connecting to the table. The attendants are dressed in red jump suits and the room itself is bathed in red light, except when inculcation therapy is in progress.

The Inculcation Monitor - This monitor, when coupled with the data banks in the ships computers, can be used to implement the enhancement of a being by infusing abilities through implantation of data. During this process, it appears as if negative mental states are removed and mental barriers are set aside. The monitor is a modulated catecholamine encoded laser beam, which pierces the eyeball of the subject in a earths nano-second (one billionth of a second). It resonates down compatible optic frequencies, which sets up harmonic vibrations which disseminate the encoding to the proper receptor sites.

Catecholamine Beta-Lipotropin 4753 - is a technical name for a substance often given to the abductees. It has the effect of removing certain body neuronal blocks and at the same time gives a boost to the awareness/intelligence level of the abductee. It is a mixture and distillation of slightly enkephalinic melanocyte-stimulating adrenocorticotrophic hormone in a neural metastasizing, neurotransmitting medium; i.e., a cerebral cortex "Roto Rooter".

Rapid Inculcation Processes

In one method, one dons a helmet bearing wires, (old Zeta Reticulae-2 technology, almost obsolete) and needles. A crystal cube is put into a niche on top and a type of strobe light flashes in resonance with the brain waves of the abductee. The abductees head becomes filled with pictures which gradually form a pattern of responses. The abductee is given a learned motion, pattern, response system, and may be trained in a brief amount of time to do a complicated task.

Sometimes the abductee is hypnotized or made to sleep and a high frequency microwave emission is used as a rapid inculcation method. Rapid Inculcation processes an ocular wave with which to send encoded data into his or her nerve/ridge response system. This data may be triggered later by a pre-arranged stimulus response signal that will be present in the environment of the abductee.

Sometimes the bio-energetic field itself is used as a carrier wave and the data is encoded in sound-code-symbols. The Grey hybrids, (Rigelians and Betelgeusians) have an interesting variation on which the abductee sits in front of a screen and computer console type and interacts with images on the holographic display.

NOTES:

1. **The Ridge Response System** = A series of energy focal points formed by the energy streams around the physical body. Ridges can impinge on each other and cause an enduring state. Ridges exist in suspension around the human and are the foundation upon which facsimiles are built.

2. **Facsimile** = A facsimile is a recording of all perceptions, effort, thought, and emotion experienced by the organism, during any one point in time. It is recorded by the reactive mind. A facsimile can also be considered the physical universe's impression on thought, specifically that section of thought which has a physical universe impression with a time tag on it.

3. **Reactive Mind** = A reactive mind, are portions of the mind which works on a stimulus-response, which is not under conscious control and which exerts force and the power of command over the being's awareness, purposes, thoughts, body and altiosis.

The reactive mind never stops operating. What is thought to be unconsciousness is always conscious.

21st Century Power: Bio-Tech. - We are leaving the Era of expendable resources, like oil based products. The power of the future is renewable resources like Biologically Engineered products. The Dulce Genetic research was originally funded under the cloak of "Black Budget" secrecy, (Billions of dollars).

They were interested in intelligent disposable biology, (Humanoids), to do the dangerous Atomic, (Plutonium) propulsors and saucer experiments. They cloned their own little humanoids, via a process perfected in the Bio-Genetic Research center of the world, Los Alamos ! Now they have their disposable slave-race. Like the Greys (EBEs), the U.S. Government clandestinely impregnate human females, then removed the hybrid fetus's, also after about ninety (90) days, like the Aliens, (for more details about how the Government does their abductions, see volume two of this document, called the PULSAR PROJECT, ATR-25A, CODE: ARAMIS V - ADR 3 -24AT) then accelerate their growth in the lab Bio-Genetic, (DNA Manipulation) programming is instilled, they are implanted and controlled at a distance through regular RF (Radio Frequency) transmissions. Many humans are also being implanted with brain transceivers, these act as a telepathic channels and telemetric brain manipulation devices. The network, net was set-up by DARPA, (Defense Advanced Research Project Agency). Two of the procedures were R.H.I.C. (Radio Hypnotic Intracerebral Control) and E.D.O.M., (Electronic Dissolution of Memory). The brain transceiver is inserted into the head through the nose, they learned this from the Greys. These devices are used in the Soviet Union and the United States, as well as, Sweden. The Swedish Prime-Minister Palme gave the National Swedish Police Board the right in 1973, to insert brain transmitters into the heads of human beings covertly !

They also developed ELF and E.M. wave propagation equipment, rays which affect the nerves and can cause nausea, fatigue, irritability, even death. This is essentially the same as Richard Shaver's cavern *Telaug* mechanism. This research into biodynamic relationships within organisms, (Biological Plasma) has already produced a ray that can change the genetic structure, heal, or even kill. Shaver's cavern *Ben-Mech* could heal !

Warning: Manipulation and Control - Fear, Fraud, and Favor >>>> The Pentagon, the CIA, NSA, DEA, FBI, NSC, etc. seek to capitalize on the beliefs of the American Public. The secret Government is getting ready to stage a contact landing with Aliens in the very near future. This way they can control the release of Alien related propoganda. We will be told of an inter-stellar conflict, but what looks real, may be fake. What is disinformation ?, is your attention being diverted by the strategy of a Shadow Plan ? I believe you already know the answer !

PREFACE

The following document is a continuation of the Blue Planet Project, and again, is believed to be the personal notes and scientific diary of a scientist who was contracted by the government over several years to visit all crash sites, interrogate captured Alien Life Forms and analyze all data gathered from that endeavor. He also wrote notes on or about any documents which he came in contact with, which in any way related directly or indirectly to the organization, structure or operation for the collection of such data.

This individual was discovered to have kept and maintained such personal notes and therefore was scheduled for termination. He narrowly escaped termination by the government and is currently in hiding out of this country.

We believe his involvement in these investigations span over a thirty-three (33) year period. He was soon discovered and immediately went into hiding in 1990.

We modified his personal notes only so slightly, and only when necessary to make them flow together and read correctly.

When you read this document, it may disturb you. The real facts have a tendency to do exactly that, but this information needs to get to the general public. I caution you to use your best judgement when allowing a minor child to read this document.

At this time, to the best of the data we have available, there are at least one hundred and sixty (160) species or races of Aliens from different galaxies, stars and planet we have encountered. You will find as much data (as we have available thru 1990) on each race in the following pages, as each race is discussed. There are still more Aliens we haven't encountered yet, but we feel it won't be long before we do...

There will be more to come later.....

ALIEN PHARMACOLOGY FOR HUMANS

ALIEN PHARMACOLOGY FOR HUMANS

Medications, (drugs) are an essential part of human and/or humanoid patient care. Safe and proper administration of drugs requires sound and current knowledge of their action, side effects, toxicity, onset, and range of dosage. It must be remembered that drugs have the power to help or harm, and the required knowledge of pharmacology involves integrating a careful understanding of many different disciplines, including anatomy, physiology, pathology, microbiology, organic and inorganic chemistry, sociology and psychology.

Every drug should have a specific use as well as a general classification. Some of the more common classifications or categories of medications are as follows:

Autonomic Nervous System Drugs - work on the autonomic nervous system, which regulates many physiologic tasks necessary for the preservation of homeostasis, a constant internal environment, such as digestion.

Cardiovascular System Drugs - are usually used to treat disturbances in cell metabolism and in the circulatory system, i.e. veins, arteries, capillaries, and the heart muscle.

Central Nervous System Drugs - can act either to increase or to decrease activity of nerve centers and conducting pathways.

Psychotropic Drugs - are usually used in psychiatric treatment and therapy.

Anesthetic Agents - are central nervous system depressants that possess these characteristics:

- They have an affinity for nervous tissue
- Their action is reversible, with cells returning to normal upon elimination of the drug.

Antimicrobial Agents - are drugs which destroy or inhibit bacteria or other harmful microorganisms.

ALTERATED ADRENALIN - Adrenalin is produced in the human brain; synthesized from the medullary portion of the adrenal gland of animals, (specifically cattle), to produce nerve transmission.

Chemical Composition

USED FOR THE TREATMENT OF RADIATION POISONING.

CLASSIFICATION: Autonomic nervous system stimulant.

- ACTION:**
- Acts on ALPHA and BETA receptors of the brain, (myoneural junctions and autonomic synapses).
 - Calorigenic effect, increases oxygen consumption.
 - Raises blood sugar and production of free fatty acids.

Thus, in response to stress, (fright, fight, or flight responses) there can be an abundant supply of fuel and energy in the body.

CLINICAL

- USE:**
- Constricts blood vessels, thereby stopping capillary bleeding.
 - Vasoconstrictor ability accounts for use of altered adrenalin to relieve congestion in allergic reactions caused by radiation poisoning.
 - Isoproterenol effect leads to alertness, and respiration stimulation.

USUAL

DOSAGE: 0.1 to 1cc (25ug to 1mg)

POSSIBLE SIDE AND TOXIC EFFECTS - Tachycardia; palpitations; dyspnea; pulmonary edema; severe headache; pupillary dilation; anxiety; decreased insulin production; death from overdose.

ALTERATED CORADRENALIN - Developed from Adrenaline to treat severe exposure and frostbite. Originally used in Cryogenic Laboratories.

Chemical Composition

USED IN CRYOGENIC LABORATORIES.

CLASSIFICATION: Autonomic nervous system and basal metabolic stimulant.

ACTION: Calorigenic effect, stimulates basal metabolism. This helps the body consume more oxygen and produce more heat for frozen cells.

CLINICAL

USE:

- Used to treat exposure and severe frostbite.
- Maintains regular blood pressure in hypotension.
- Cardiogenic shock, (restores cardiac output).
- Used in conjunction to O₂.

USUAL

DOSAGE: 4cc's

POSSIBLE SIDE AND TOXIC EFFECTS - Edema, subpericardial hemorrhage; tissue necrosis; hypoxia; hypoxemia.

CORDRAZINE - Originally used in cryogenic laboratories to stimulate production of epinephrine and norepinephrine in the brain, thereby allowing nerve transmission to be restored to the frozen body.

Chemical Composition

USED IN CRYOGENIC LABORATORIES.

CLASSIFICATION: Autonomic nervous system stimulant.

- ACTION:**
- A. Increase in myocardial contraction due to an influx of calcium into fibers, which results in a more complete emptying of ventricles and increase in cardiac work plus oxygen consumption.
 - B. Stimulates production of naturally occurring epinephrine and norepinephrine at the myoneural junctions and autonomic synapses of the brain.

CLINICAL

- USE:**
- Revives nerve impulse transmission in the brain.
 - Increases myocardial contractions, purkinje fiber effect, thereby speeding up the heart's pacemaker action in victims with heart failure or heart flutter.

USUAL

DOSAGE: 0, 25cc's

POSSIBLE SIDE AND TOXIC EFFECTS - Elevated blood pressure; insomniac; increased anxiety; paranoia; death from overdose.

CORTROPINEX

Chemical Composition

CLASSIFICATION: Stimulant.

ACTION: Stimulates the central nervous system, the cerebral cortex in particular. The effects depend on the mental state and personality of the individual. It may fortify a person for prolonged physical and mental exertion.

CLINICAL

USE: Used to treat hyperkinetic behavior in children, and narcolepsy, (overpowering desire to sleep). It decreases fatigue and increases willingness to work, alertness, power of concentration and talkativeness.

USUAL

DOSAGE: 5cc's

POSSIBLE SIDE AND TOXIC EFFECTS - Large doses are followed by mental depression; anxiousness; insomnia; irritability; death from overdose.

FORMAZINYE

Chemical Composition

CLASSIFICATION: Irritant-stimulant.

ACTION: Stimulates the central nervous system and the reticular activating system. It is a sympathetic agent.

CLINICAL

USE: Most of the irritant drugs exert a stimulating effect when applied in low concentrations, and are used for healing certain skin diseases such as eczema and psoriasis. In large doses, formazine can act as a stimulant, promoting alertness and lowering fatigue level.

USUAL

DOSAGE: 0.1cc

POSSIBLE SIDE AND TOXIC EFFECTS - Severe irritability; depression; drymouth; hallucinations and disturbance in perception; tachycardia; overdose can lead to death.

HYRONALINX - Replaced Adrenalin for treatment of radiation poisoning because of its quicker action and stronger effects, and its simplicity of production.

Chemical Composition

CLASSIFICATION: Autonomic nervous system stimulant.

ACTION: Same as Adrenalin.

CLINICAL USE: Treatment of radiation poisoning.

USUAL DOSAGE: 10cc's

POSSIBLE SIDE AND TOXIC EFFECTS - Refer to Adrenalin.

MASIFORM DX - Developed as a regular stimulant. It was later found to be an antitoxin for saplin.

Chemical Composition

CLASSIFICATION:

Stimulant and Antitoxin.

ACTION:

Envelops or mixes with the poison and prevents its absorption, soothes and protects tissues and sometimes, (depending on the dose) aids in removal of the poison.

CLINICAL

USE:

Used as an antidote for saplin, curare and similar drugs.

USUAL

DOSAGE:

10cc's

POSSIBLE

SIDE AND TOXIC EFFECTS - Stimulation.

MELANEXY

Chemical Composition

CLASSIFICATION: Anesthetic Agent.

ACTION: Melanexy works in approximately five (5) to ten (10) seconds, and is an ultra-short acting barbiturate. It is rapidly taken up by brain tissue because of its high oil-water solubility, shortness of action, results from the drugs being quickly redistributed into the fat depots of the body.

CLINICAL USE: Used as a pre-anesthetic and for mouth/nose surgery.

USUAL DOSAGE: 1Occ's

POSSIBLE SIDE AND TOXIC EFFECTS - Leaves patient unconscious for five (5) minutes.

PITUITARY HORMONE - It was realized that the element KIRONIDE, when broken down by pituitary hormone, promotes PSYCHOKINESIS.

Note: Kironide - Symbol = KJ, Atomic Weight = 348 (Mass number of the most stable isotope), Atomic Number = 139.

ALIEN PSYCHIC ABILITY

PSIONICS

Many cases of Psionic Power, (the ability to mentally control surroundings, rearrange or create matter and/or project illusions) have been reported about Alien skills.

The big difference between Aliens and Humans from Sol-III is the humans of Earth have the innate psionic ability and the big part of the Aliens, (Greys, Nordics, and Oranges) need a special psionic implant. Without the psionic implant, or in case of malfunction of the device, they have no psionic abilities.

Anyway we have to take care about our morals, while using psionics because the psionic power is a two-edged sword, the good is that the psionics can do, must be weighed against the possibility of unleashing a dangerous megalomaniac.

Aura - The Aura, first detected by the Terran scientist Semyon D. Kirlian, U.S.S.R. during the 40's, is a Bio-Electro Magnetic Gravitational Field that surrounds every living creature, and a simple Electro Magnetic Gravitational Field for inorganic matter. It is the energy of this field that, depending on its intensity, can perform psionic phenomena.

Cosmic Rays - Cosmic Rays are streams of charged particles, protons, alpha particles, and a few heavier nuclei, which originate in outer space and can be intense enough to penetrate thousands of feet of rock. Cosmic Rays present in a planet's atmosphere are secondary cosmic rays, the primary rays bombard the atmosphere from outer space and crash into the Nucleus of Atoms present in the upper atmosphere, producing mesons and a variety of secondary nuclear particles. These in turn produce still more secondary cosmic particles. The intensity of cosmic rays can therefore be disproportionately high to the number of particles striking a planet. An average human can tolerate a radiation dose of about 0.01 roentgen per day without damage to his or her body, at extremely high altitudes or outside a planet's atmosphere, the dosage can exceed the toleration point and protective armor is necessary. The extremely heavy nuclei of primary cosmic radiation, although very low intensity, may produce serious biological effects:

- 10% of mutations in secondary generation life forms are caused by radiation, of which cosmic radiation causes 25%.
- Cosmic rays interact with the bio-antenna, (Pineal Gland) of the humans and produce Psionic activity.

Tewric Energy - Also electromagnetic gravitational wavelengths from the nucleus of the Planet Earth absorbed by the human aura and increase the energy of the aura.

Psychokinesis - Energy and matter can be influenced by the gravitational field of an individual, just the gravity of a Star can interact with both energy and matter in its proximity; an altered state of consciousness, (usually involuntary) is necessary for this type of phenomenon. However, certain species and some human individuals can be trained to willfully alter their state of consciousness and thereby focus the power of their aura and utilize latent psionic abilities.

Plasma Reorganization - The process by which humans can command Psionic Power is conjectured to be similar to the matter, antimatter energy processes of an Aliens Starship engine. The energy is thought to be the direct result of an exchange between positive blackhole and negative whitehole, interacting to form intense energy patterns. It has been further speculated that the human/alien mind, in conjunction with the adrenal and pituitary glands, (some Aliens need to take this secretion from human fluids), can create the plasma reorganization necessary to produce a mental/matter interaction of subnuclear dimensions, some kind of "Mental Blackhole". Creation of such a blackhole is always paralleled by that of an oppositely charged whitehole, and the two immediately begin to decay through Tachyonic Emissions. Such, faster-than-light particle emissions are the medium through which psychokinetic and other psychoenergetic powers can be focused and applied. It has been commonly accepted that any human being has the power to a lesser or greater degree to mentally control his or her environment using the focused energy of the Aura. However, most humans believe more in the machine than in the human organism, and have forgotten how to truly use what they possess. This is apparent if we consider what would have happened if the Eastern Cultures had been

dominant on Earth in stead of the more technologically-based Western Society. If humans had spent less time on the printing press and more time on mind and body control, like the Buddhist Monks or Indian Fakirs for example, Earth today would be a very different place to live. There have also been cases where humans have been able to enlarge their Psionic abilities either through an increase in their Aura power, or because of training by others who recognize and exploit these latent abilities.

ALIEN CRAFT ENGINES

THE IMPULSE PROPULSION ENGINE

We don't have much data available, (at the moment April 4, 1990), about the "Warp Drive Operation" of the basic Rigelian Starships but we do know they work on the principle of *Plasma-Energized Contained Antimatter*. We get the secondary impulse engine system which serves for use at sublight speeds. This fusion reaction is located aft of the main saucer command section and can propel the craft at speeds up to that of 75% of the speed of light. The impulse drive system works by channeling hot plasma energy exhaust away from the vessel. This plasma exhaust is not the by-product of simple plasma matter generated in a laboratory environment, but high-energy plasma produced in a fusion-reactor containment system. Huge amounts of the plasma are first accelerated to high velocities along a ring of magnetic coils, and then injected into the space-time driver coils, the central component of the impulse engine system. These coils produce a limited distortion of the local space-time continuum, (not unlike that of a local stasis field) and further accelerate the energy and speed of the impulse engine plasmas to near relativistic speeds of their escape.

THE SPEED GEAR DRIVE PROPULSION ENGINE

The main propulsion system of the most common "Mother Ships" is the FIF-2M, Multi-Field Speed Gear Drive. Under normal operation, the FIF-2M Speed Gear Drive system can propel the cruiser at a speed of eight (8) Speed Gear, that is 8 X 8 X 8 X 8 X 8 X 8 X the Earthian Speed of Light, with emergency speeds of speed Gear nine (9) and beyond. At the heart of this massive drive system is the *MAGNIUM Crystal* assembly, with controls the matter/antimatter collisions.

They call "MAGNIUM" MMGNIUM or 

Magnium is the only material yet discovered that can withstand exposure to antimatter particles for limited periods of time. Because of its unique crystalline structure, Magnium can hold antimatter suspended in the empty spaces between its atoms with only negligible annihilation of either Magnium or antimatter atoms.

If a crystal is defective, its structure will permit too many antimatter atoms to touch the normal atoms, thus degrading the structure of the crystal itself at a measureable rate. This is known as Magnium decrystalization.

The Magnium crystal is housed in an armored cradle of MEGAPLASTIUM, (or in Alien Language, 'MMGPLTUM' or written Alien Language (insert Alien written language)), the hardest substance known to the civilized races. During normal operation, matter and antimatter are introduced into the Speed Gear engine core through separate plasma injectors. The Magnium crystal assembly is placed directly in the path of the two matter streams, which would otherwise collide with an explosive release of energy. Instead, particles of antimatter slip through the face of the Magnium crystal housed in the

assembly block, the antimatter atoms splitting apart in reaction to the Magnium atoms, then recombining in a high-energy combination.

These newly combined atoms receive additional energy charges as they pass from one crystal to the next in the assembly. Naturally, a few atoms of Magnium and antimatter will colide on the crystal's surface, but a surrounding magnetic coil contains the energy and radiation from these collisions.

The streams of Magnium, energized antimatter comming from the Magnium crystal assembly now split into separate plasma streams that are magnetically channeled along power transfer Nacelles, the modified antimatter streams, which results in mutual annihilation and the release of enormous energy. A by-product of the destruction of Magnium, energized atoms of antimatter is the release of unique electromagnetic properties that produce the Speed Gear Field surrounding the Mother Ship.

All Speed Gear Drive systems fall into one of three types:

- Standard Speed Gear Drive units create a single Speed Gear Field that surrounds the ship as it moves through space, allowing it to move at speeds in excess of the Earthian Speed of Light.
- Trans-Speed Gear Drive systems create a similar field, but improve on the original design by projecting portions of the Speed Gear Field ahead of the ship. This creates a natural multiplier phenomenon, increasing speeds with only minimal increases on energy costs.
- Multi-Speed Gear Drive system. The so-called Mother Ships combines both the above systems to create a Multi-Speed Gear Field engine design. Though the Mother Ship is not a true Trans-Speed Gear Drive vessel because of its size, its Speed Gear system does have advantages over alternate Speed Gear Drives.

The Mother Ship Speed Gear Drive functions through a pair of separate Speed Gear units along each outboard engine housing. Each of these four (4) units projects its own Speed Gear Field ahead of the vessel as it moves through space. These fields overlap, which results in high Speed Gear speeds for a vessel the size of the Mother Ship, as well as, for almost instantaneous shifts from sublight speeds to Speed Gear speed.

It also makes possible near-instantaneous jumps to higher Speed Gear levels without the need for magnetic containment build-up time. In older generation Speed Gear Systems, the matter-antimatter intermix temperatures within the Speed Gear Engine units had to be carefully recalibrated to accept higher pressures before the vessel could move from one Speed Gear level to the next. The time needed to increase the strength of the surrounding magnetic containment fields could require, from several Earth seconds, up to several Earth minutes.

MK-ULTRA PROJECT

Talking about the Alien Affairs we also have to talk about similar procedure affair made by the Government, "The Project Mkultra".

Just before starting to talk about this project let's talk a little about what we have to know about UFOs, Aliens and the Government.

Several Alien races have been monitoring the human genetic process for millennia. Their presence on Earth has turned more intense, because during this last century, (1900's), we started genetic change, at first very slowly, and then very quickly. Their repositis were finally happening, but the technological psychic new human being was growing up very fast and out to control the Aliens. During World War I, Germany discovered beings from outer space, with incredible high technology, were prowling around the planet.

Later in World War II, the combination of both Japanese and German scientists discovered a high and low frequency pulsed sound, and when set at a specific frequency, it affected an Alien craft. They knew this because in the late 30's Germany was testing a device for scanning the strange crafts in the sky and they would try to blast the Alien craft out of the sky, and they finally got one. They recovered the craft and since that time to Hitler's takeover they tried to understand and use the incredible Alien High Technology, to provide them with the ability to rule the planet. They tried to build a primitive transportation craft and even a powerful beam weapon, but the Aliens didn't agree with German philosophy to Rule the World. The Aliens interceded, before they lost their superior High-Tech, and a fight brokeout, which without the German's advantage of the High-Technology, was fought with conventional means.

In 1946, General Doolittle went to Scandinavia to investigate reports of "Ghost Rockets", which was the Scandinavian term for "Flying Saucers, (Alien Crafts)", there were reports of hundreds and hundreds of sightings. Then in June 1947, the United States had the sightings up in Washington by Mr. Ken Arnold. The Government was quite worried about it. Then the New Mexico incident happened and the direct action of the U.S. Government started to deal with the Extra-Terrestrial Biological Entities (EBEs). Creation of MJ-12 occurred, a government agency within the secret government, to work with, for, and against the Aliens. In Reality MJ-12 is only for MJ-12, with MJ-12, and by MJ-12. About the other Alien species, (plus or minus 170 different species: human, humanoid and not human) they are either hostile, neutral or friends, but now lets talk about the Mk-Ultra Project.

The Mkultra Project is an ongoing, and a notorious Central Intelligence Agency project with the imperative focus of "Mind Control". Many abduction cases reported perhaps aren't Alien interaction, it is indeed true that magnetic resolution scans of alleged UFO abductees show signs of intracerebral implants, and a host of UFO abduction researchers insist that the implants must result from Alien

dabbling in human affairs, but *some implants are an Earthly technology, invented in the 1950's by Dr. Jose Delgado, (whose "Physical Control of the Mind" should be the very next book to read by all abduction researchers). Using these small devices, an experimenter can elicit changes in a subject's behavior through remote stimulation of the brain. Much of this work was continued on the Mkultra Sub-Project 95. Delgado is now perfecting the techniques which will allow the same result without the use of invasive procedures.*

We also should note here that in the early 1970's, UCLA's Dr. Louis Jolyon West, a scientist closely associated with Mk-Ultra project, wanted to open an Institute for the Study of Violent Behavior on an abandoned Nike Missile Base in the Santa Monica Mountains near Los Angeles, California. This Institute would have provided an ideally remote location for the practice of various mind control techniques, including Psychosurgery, Implantation, and also Hypno-programmed operations.

Dealing with MJ-12's NRO security operations, project Mk-Ultra as well served for the creation of disinformation, like alleged UFO abductees telling the truth, at least what they believe to be the truth, or the ability to program Alien witnesses to complete some mission, when they are interacting with Aliens. (Note: sometimes the Aliens intercepted the mission, and sometimes not. This seemed to be some kind of Government Spying Techniques used on the Aliens). Also, the government uses family and/or friends for this type of programmed surveillance of possible witnesses, contactees and/or abductees to collect data.

This means of data collection, (thanks to the Mk-Ultra Project) confuses the issue, we have Alien contactees/abductees and then we have our governments contactees/abductees. The government's contactees/abductees are sometimes referred to as suicide spy squads, because the government see's them as expendable.

We have Alien Implants, (little devices that varies in size from 50 microns to 3 millimeters) and then Dr. Delgado Mkultra's implants. The motivation of all this perhaps is like Sir Winston Churchill said:

"The truth is so precious it must be constantly protected by a bodyguard of lies"

The Controllers Affair - Besides the Alien abduction cases we have also focused on the growing problem of the MK-Ultra activities.

We are talking about the infamous work of the "Implant-Spy's" from the U.S. Intelligence Community who have completed thousands, perhaps millions, of cases where erasure of memory, hypnotic resistance to torture, truth serums, post-hypnotic suggestions, rapid induction of hypnosis, electronic stimulation of the brain, non-ionizing radiation, microwave induction of intracerebral voices, and a host of even more disturbing technologies have been utilized.

We talked already about some abduction implants and how, and who, made them here on Earth.

Now we have to talk about another danger, "Remote Hypnosis".

Remote Hypnosis - Hypnosis is not necessarily a person-to-person affair. The abductee, or the mind control victim, need not even have physical contact with a hypnotist for hypnotic suggestion to take effect; trance could be induced, and suggestions made, via the intracerebral transmitters, "Implants".

Some clandestine researchers have mastered a technology called "RHIC-EDOM". RHIC means "Radio Hypnotic Intracerebral Control", and EDOM means "Electronic Dissolution of Memory". Together these techniques can remotely induce hypnotic trance, deliver suggestions to the subject, and erase all memory for both the instruction period and the act which the subject is ordered to perform.

RHIC uses the stimoceiver, or a Spherical Biological Monitoring and Control Device, (SBMCD) and both are microminiaturized offspring of the technology to induce a hypnotic state. Interestingly, this technique is also reputed to involve the use of intramuscular implants. These implants are stimulated to induce a post-hypnotic suggestion. EDOM is nothing more than "Missing Time" itself, the erasure of memory from consciousness through the blockage of synaptic transmission in certain areas of the brain. By jamming the brain's synapses through a surfeit of acetochole, neural transmission along selected pathways, can be affected by an electromagnetic means, and can be effectively stilled. Modern research in the psycho-physiological effects of microwaves confirm this proposition.

The following is a list of Projects that used RHIC-EDOM technology:

- Artichoke Project
- Bluebird Project
- Pandora Project
- Mk-Delta Project
- Mk-Naomi Project
- Mk-Action Project
- Mk-Search Project
- Mk-Ultra Project

Hypnosis was scarcely the only subject covered by Mk-Ultra. Maji, NASA, and CIA scientists also thoroughly examined the areas of Psychological conditioning, sensory deprivation, drugs, religious cults, microwaves, psycho-surgery, brain implants and ESP.

NORDIC PHYSIOLOGY

The Nordic species is of particular importance to this human-oriented reference work not only because of its obvious similarities to the Terran norm, but because of its many differences as well. Although Nordics are humanoid looking externally and almost identical to humans, (in itself a remarkable example of Hodgkin's Law of Parallel Evolutionary Development) we can view human physiology in its proper context by examining the subtly different and often high specialized Nordic analogy.

Like most humanoid bipeds, the Nordics went through a long period where their precursor was not the dominant species on their planet. However, the most pressing problems for these pre-hominoid Nordics were not the flora or fauna of their planets, but living conditions of that planets.

The Nordic planets are extremely hot and dry, with lower oxygen content and a somewhat higher gravity than Earth. Thus, the Nordics had to become adapted to these living conditions, not only to become dominant species, but for simple survival. This is not to suggest the Lamarckian explanation that form adapts to function, no Nordic planet's evolution followed Earth's standard Darwinian Theory. It is simply that conditions on Nordic planets were more uniform and harsh than those of Earth, so that Nordics are more specialized and homogenous than Terrans.

On Earth there are diverse physical types, such as the Eskimo's and Nilotics who fit Earth's more varied climatological conditions. The Eskimo's have cold weather adaptations such as small nose and ears, and subcutaneous fat deposits. The Nilotic people, in contrast, possess physical adaptations for hot weather. The Nordics never developed separate physical or racial types because Nordic Planets climate and living conditions are more homogenous than Earth's. The comment that "Nordics all look alike to me" has some basis in fact. Just as all Eskimo's share a great deal of physical similarities, so do all Nordics share a great deal of physical traits, such as:

THE NORDIC BODY

- **Eyes (vision)** - The Nordic eye is protected by a clear inner eyelid that filters out harmful radiation, heat, and dust, all elements present on their planets. The eye itself is very similar to the human eye except for its range of color differentiation for high frequency waves, involving the Ultra-Violet range is less acute, while night vision, involving low frequency waves in the infra-red range is more acute.
- **Ears (auditory)** - Like humans but with perceptions for Ultra and Sub Sound waves.
- **Nose** - The Nordic nose is very similar to the human nose, but not nearly as efficient as instrument of smell. It is, however, highly adapted to filtering air and passing it on to the lungs. Since 60% of taste is in sense of smell, Nordics have a notorious lack of taste sensation. This, however, does not hinder the Nordics enjoyment of food or lack of

enjoyment, as the Nordics are normally vegetarians.

Mouth Cavity - The mouth cavity of a Nordic is almost identical to that of a human. The one essential difference is that Nordics have only twenty eight (28) teeth, as they lack one pair of back molars.

Head and Skull - The Nordics are an extremely dolicephalic, (longhead) people, not like the macrocephalic Greys. Their brain case is approximately 0.2cm thicker than that of a Terran and the bone itself is harder than the Terran skull. The male Nordic, however, does not possess the protective supraorbital taurus, (bony ridges) above the eye like Terran males often have.

The Nordic brain is of the same overall structure and size, 1600cc, as that of the Terran. Only in the mid-brain area where telepathic and telekinetic powers originate is the Nordic brain significantly different. The Nordic mid-brain is some what larger and more convoluted than the Terran mid-brain, and this in part explains the Psionic Powers of the Nordics.

Overall Body, Size and Shape - Nordics, like Nilotics and Australian Aborigines, are a tall, slim people.

Males:	Height	2 Meters
	Weight	90 Kilos
Females:	Height	1.7 Meters
	Weight	70 Kilos

The arms and legs are long and slim with extremely lengthy and powerful muscles attached to a medium frame. The Nordics are high-waisted and short-bodied as a rule, and make excellent long distance runners. The size and shape of the Nordic postulates a convergent evolutionary trend with the Nilotic and the Aborigine of arid, hot and dry lands. Thus their body structure aids in the dispersion of heat through radiation. Concurrent with this is the lack of sweat glands in the Nordics, as he or she uses the blood, skin and body structure to keep him or herself cool, instead of the Terran way of heat loss through evaporation of perspiration.

Skin - The Nordic epidermis, unlike human outer skin, is a two-way moisture-proof shield. Not only does it act as a water-proof barrier allowing cells to live in a fluid environment even in relatively dry air, as does human skin, it also allows available environmental moisture to be extracted or use by the body. In addition, highly specialized cells in the dermis, known as hyalothermonic cells, permit more efficient body heat loss with retention of water than does human skin, because of an absence of sweat glands, are necessary for Nordic life, and

explain the survival of the species in view of the environmental conditions of every day life on the Nordic Planets.

NORDIC INTERNAL ORGANS

- **Heart and Lungs** - The Nordic heart beats at the astounding rate of 242 beats per minute. The average blood pressure is 80 Systolic, and 40 Diastolic. This phenomenon is explained in part by the extremely dilated blood vessels of Nordics. Large diameter blood vessels are an additional aid in cooling the body, allowing for greater surface.

The Nordic heart is located where one would expect to find the Terran liver, leaving room for the somewhat larger Nordic lung assembly. In consequence, the cartilage that normally protects the Terran heart extends an extra 3.5cm downward in a Nordic in order to protect this vital organ.

Nordic blood is a copper based compound and is Red-Greenish in color. Copper-based life aids in the utilization of oxygen under the low atmospheric pressure, low oxygen condition on Nordic Planets. Blood cells are Biconvex in contrast to the Concave cells of Terran's. This convex shape also aids in cooling individual blood cells, the entire bloodstream, and finally the entire Nordic body.

Another feature of the Nordic blood cell is its ability to take in and store large amounts of oxygen in a thin, oxygen-poor atmosphere. A Nordic can survive for hours under water or in a non-breathable atmosphere due to his or here unique blood cells.

The Nordic lung is somewhat larger in size than its human counterpart, the alveoli in the Nordic lung is 75% more elastic and more efficient oxygen procurers than those in a humans lungs.

The Nordic heart is also somewhat large by Terran standards, but well within the normal range for humans. Its increased size relates to the increased work load of the heart. The only unusual or abnormal facet to the Nordic heart is its extreme muscularity. The heart walls are thinner, but stronger and more flexible than those of the Terran heart, allowing for a greater pulse range and a greater volume of blood to be moved around their body.

- **Kidney and Excretory Functions** - The Kidney is a major part of the superior water retention system of the Nordics, again a necessary component of life on a hot, dry world. Whereas in humans intake equals output, the Nordic excretes only 50% of the liquid matter that the kidney processes, the other 50% is purified by the kidneys and recycled throughout the body. Nordic urine is thus extremely rich in excreted minerals with a high specific gravity, and will kill plant life. It is also extremely thick and viscous, resembling in color and texture to freshly pumped crude oil.

Nordic feces are dry pellets with all moisture removed. Those familiar with Owl feces will quickly understand this concept, the Nordic digestive system completely removes all moisture and nutrients from food, leaving the excrement as a dry, extremely dense, compact mass.

- **Hormonal System** - The ductless glands of the Nordic are unlike those of the Terran, under self-control and not autonomous systems. The individual adult Nordic can regulate the amount of Adrenalin, (yes the Nordics also have Adrenalin, not like the humans, but it is Adrenalin, which is produced without a Pineal Gland) and so stepped up or slow their internal systems in response to environmental conditions. The thyroid, (just like a humans) can also be controlled to change metabolism, by stopping the flow of Thyroxin and Adrenalin, the Nordic can go into a state of suspended animation, very much like the trance state of the Indian Fakir of Earth. During this state of suspended animation the Nordic can command bodily resources, i.e. blood, lymph, etc., to repair damage. Thus, the Nordic can control bodily functions that are considered autonomous by Terrans.
- **Reproduction** - The only gland system that the Nordics cannot completely control is that of reproduction. The female Nordic, like other human and humanoid females, are always capable of being impregnated by the male. The male, however, is only capable of sex approximately once in each year. This is a physiological condition. Nordic females have a pregnancy period of three (3) to five (5) months incubation.
- **Nordic Cell Structure** - It contains a centralized nucleus and nucleolus, endoplasmic reticulum, (channels), mitochondria and ribosomes, "pretty similar to that of humans".

will not be cold =	𐌸𐌹𐌺𐌾𐌹𐌹𐌹
will be cold =	𐌸𐌹𐌺𐌾𐌹𐌹𐌹

The letter ~~X~~ is added before the word to make it plural. It is pronounced like the letter Z as in Zebra.

Example: The word..... Book =	𐌸𐌹𐌺𐌾𐌹
Books =	𐌸𐌸𐌹𐌺𐌾𐌹

Accentuation

In words of more than one syllable, the stress is always on the last syllable. The only exception to this rule is the plural, where the stress is on the ~~X~~. A glottal stop is always used between two identical letters, and example in English is the word Ski'ing.

Punctuation

- is a word separation. There are no spaces between the words, just the word separator.
- = indicates the end of a sentence or of a paragraph, like a period.
- + indicates an interrogative, like a question mark does in the English language.
- z are quotation marks, like in the English language. They enclose the words being quoted.

Sentence Structure

Basic Vegan sentence structure is as follows:

Subject—Object—Adjective—Verb

Instead of saying "I read an old book", the Vegan would structure the sentence as "I a book old read".

Capitalization

In the Vegan language, capitalization is used for proper names only, never at the start of a sentence, or for a title.

To capitalize a letter you add a line above the letter. In the Vegan language the sound of the capitalization letter is slightly changed. This is very difficult to hear and will take Earth years of practice to properly articulate.

Understanding Their Numbers

The Vegan number system is based on twelve (12) not ten (10) as is used in the English language.

<u>English</u>	<u>Vegan</u>	<u>Pronunciation</u>
0	X	Vet
1	/	tie
2	∕	til
3	≠	too
4	#	ta
5	S	Ko
6	\$	Kil
7	C	yo
8	¢	yil
9	I	pie
10	II	pil

11 0 way

12 \emptyset wen

Ones place holding is called tie and = 1
Tens place holding is called wen and = 12
Hundreds place holding is called toem and = 144
Thousands place holding is called beshu and = 1008

Care must be taken when translating numbers from the Vegan number system.

15 is not written literally as 15, (15) but is written as 13 (12 + 3).

0 is not used as a place order, base 10 expansion of the number 400 is written as follows:

$$4 \ 100 + 0 \times 10 + 0 \times 1$$

Base 12 expansion of the number 400 is as follows:

$$2 \ 144 + 9 \times 12 + 4 \times 1$$

If translated directly into English, it would read 294, not 400.

Understanding Their Time Measurement

The following time measurements are just general approximations and will give only a basic understanding of the nature of the Vegans time measurement practices.

The Vegan clock is based on divisions of 12 and is therefore similar to the time measurement used on Earth. There are some major differences however, in the length of each time segment.

The Vegan day is called *STEL* and it is equal to twenty two (22) Earth hours. It is divided into twelve (12) segments called *TARIM*.

Tarim roughly translated as an 'Hour', and is equal to one hundred ten (110) minutes.

Each *Tarim* is divided in twelve (12) segments called *KEVN*, which we translate as 'Period'. It is equal to 9.17 of Earth's minutes.

Each *KEVN*, is further sub-divided into twelve (12) segments called *SURIEN*. We translate it into 'Minutes' and is equal to 45.85 Earth seconds. Finally each *Surien* is sub-divided into 12 segments called *EWA*.

Each *EWA* is equal to 3.82 Earth seconds.

Vegan Written Language	Vegan Pronunciation	Earth Pronunciation	Earth Written Equivilant
▽▲□	STEL	DAY	22 Earth Hours
▲#□	TARIM	HOUR	110 Earth Minutes
□#□	KEVN	PERIOD	9.17 Earth Minutes
▽□#□	SURIEN	MINUTES	45.85 Earth Seconds
□#	EWA	SECONDS	3.82 Earth Seconds

To name a given hour of the day, the word *TAR* is used.

Example: 6 O'clock is spoken *KILTAR* (*KIL* + *TAR*), or literally 6th hour.

THE GOVERNMENTS PHILOSOPHY ON ALIENS

ARE THE ALIENS HOSTILE OR NOT !

Non-Hostility Situation ! - Some Aliens show us some degree of positivity. Let's see how we can turn the unusual subjective reaction to abductions inside-out, from fear and paranoia to an attitude of cautious acceptance.

Misperceived Intentions - Our perception of an action must not be confused with the action motives of the beings performing the actions, since it is quite possible that frightening or negatively perceived actions are derived from genuinely good motives. Unfortunately, the UFO/ETI literature is filled with Conventional Wisdom that many aspects of the phenomenon represent sinister actions driven by equally sinister motives.

There is a facile tendency to conclude, either directly or by inference, that many reported actions are indicative of Malintent. A careful reading of many, if not most of the 1980's books about UFOs and Abductions reveal an alarming tendency to jump to sinister conclusions. Even the language used to describe these events are emotionally charged and shows a propensity towards assumed ETI hostility and malevolence.

An Analysis is Needed - Reports of actions are taken as evidence of hostility or evil motives without a careful analysis of the possible neutral or positive motives which may account for the events.

As will be shown, such conclusions are both unwarranted and fraught with danger, since they color our thinking and emotions with unjustified fear, paranoia and negativity, and future popular ETI/Human relationships. We must be careful that our assumption of false hostility does not reate a future of actual hostility.

The reasons for reaching these negative conclusions are probably mutiple. Some events, on the face of them, appear disturbing to human sensibilities, lend themselves to quick assumptions of hostility. The entire topic of technologically advanced Extra-Terrestrials visiting Earth may play to innate human insecurities and fears of domination or loss of control. Also, the human tendency to think in linear and dualistic terms of Black or White, Good or Bad, etc. certainly contributes a psychological tendency to dwell on or be attracted to spectacularly negative thins or events, such as monsters, wars, murder stories, ghost stories and the like, may provide an impetus to reaching conclusions of ETI hostility, more people go to see a movie like "Friday the 13th", than, say, "Gandhi".

Unfortunately, sensationalized concepts of vile Aliens invading hopless humans, sells books, movies and television programs. Let us take the most disturbing and sensational reports of ETI involvement with human reproductive events.

The Story of a female being taken aboard a craft and subjected to abdominal or vaginal needle probes to remove ova has been extensively studied in the past decade, i.e. the 80's, and while we do not definitely know everything, (Note: About 96% are known at this time, the other 4% is not yet known) let us assume that eh ETIs are taking Ova and Sperm and are preserving them, or are using them to develop test-tube babies, or even ETI human hybrids.

As disturbing as such events may sound, could there be Ultimate Intentions which are non-hostile ?

Protective Measures ? - What if the ETIs, alarmed by wild nuclear proliferation and/or massive ecosystem damage, perceive a high probability of a human or geological cataclysm in the near future? Could they be motivated by a desire to safeguard and preserve human and other Earth life in the event of a worse-case scenario ? If the hundreds of reports of ETI paranormal mental abilities are to be accepted, perhaps they have seen a probable future of massive Earth changes, and they view their own actions as a well-intentioned rescue attempt.

While ethical humans might be offended by this, perhaps the assertion that ETIs genetically intervened several hundred thousand years ago to establish modern homosapiens is true, and they are now attempting to further advance the human race.

While such concepts may shock and offend many humans, they are not motives of hostility or malevolence per se, especially from the ETIs perspective. Indeed, if ETIs view us as a race of beings whose chief activities are warfare, violence and environmental destruction, and who are on the verge of self-annihilation, such motives may be understood as benevolent and altruistic.

Possible Benevolence - The point here is that there are actually a number of explanations for even the most disturbing reports of ETI actions which involve non-hostile intentions. It is entirely possible, if not probable, that the ETIs actions which many humans view as hostile are actually neutral or benevolent, and would be seen as such even by humans if the "Big Picture" were appreciated.

What follows below is a brief listing of possible ETI motivations which are either neutral or positive:

Non-Hostile ETI Motivations, "Human-Perceived Positive and ETI perceived Positive"

- Protective Surveillance
- Emergency Intervention and Rescue from some future event, either a man made or natural type cataclysm.
- Human war limitation and control, i.e. Nuclear war.
- Documentation and preservation of ecosystems.
- Eventual ETI-Human knowledge and technology transfer, (pending world peace, and human non-aggression).
- Eventual Earth incorporation into Inter-Planetary Union.
- Intercultural exchange and communication, long term plan.

Non-Hostile ETI Motivations, "Human-Perceived Neutral and ETI perceived Positive"

- Observation activities.
- Basic research activities.
- Sample and data collection activities.

Non-Hostile ETI Motivations, "Human-Perceived Variable, (may be positive, Neutral and/or Negative) and ETI perceived Positive"

- Limitation of Nuclear contamination of space.
- Limitation or containment of space exploration, pending human evolution to world peace, unity and non-aggression.
- Protection of non-Earth civilizations from human aggression.
- Human genetic research, preservation and experimentation:
 - A. To ensure continuance of the human species.
 - B. To develop advanced ETI Human hybrids.
 - C. Basic research activities.
- ETI security considerations, (i.e., safeguarding of ETI technology, protection of intelligence data base, etc., pending human evolution to non-violence).

On balance, UFO/ETI reports provide no overall evidence of total ETI hostility, (on Human terms). Some disturbing reports exist of course, but so do reports of peaceful intentions, kindness, healing, benevolence and so forth.

No conclusions regarding ETI intentions can be reached by simply viewing isolated case reports.

Polarizations Tendency - The polarizing tendency to declare ETIs as either sinister intruders or perfect god-like saviors is unwise at best, and probably dangerous to the long-term health of the ETI-Human relationship. This does not mean, however, that we must view this phenomenon in a motive vacuum, and I do feel that a strong case for assumed non-hostility can indeed be made. This assumption of non-hostility means that in our research, analysis and ETI interactions, we assume non-hostility until clearly proven otherwise. It does not mean that we regard ETs as necessarily god-like saviors, but this approach clearly avoids the premature characterization of ETI actions and motives as hostile or sinister. Such a moderate positivity and optimism is essential for the emerging ET-Human relationship to develop, (at popular basis, of course) with the least chance of conflict.

What they haven't done - Perhaps as much or more revealing about ETI intentions by what has not occurred as by what has. UFOs have not attacked humans or fired weaponry unless first threatened or attacked. ETIs have not invaded or destroyed any population areas, nor have they shown any intention to do so in the future. Not withstanding superior technology and maneuverability, they have

not attempted any domination or direct aggressive actions over the past decades, (before the 90's, leading back centuries ago), of sightings. Such long term restraint belies any ultimately hostile intentions.

The assumption of hostility is illogical, when the entire phenomenon is viewed over time. If ETIs have been observing, and to some extent interacting with Earth for centuries, why delay a hostile occupation? The rather marked increase in UFO and ETI activities coinciding with the dawn of the human nuclear age in the mid 1940's would indicate a genuine concern about human hostile capabilities.

Long-term Survival - This would indicate that ETIs are:

- A. Concerned for the Long-term welfare and survival of humans, or;
- B. Concerned about the potential for human aggression being exported off the Earth to their Extra-Terrestrial civilizations, or both

Neither of these concerns are indicative of hostility towards humans, but rather a concern about human hostility. Certain militarists may find such interest in our nuclear capabilities disconcerting, but on balance this does not warrant a conclusion of ETI hostility. On the contrary, it supports the view that ETI motives are non-hostile in nature. ETI involvement and observation with humans is an ancient not recent, phenomenon.

If aggression, domination and such were actually motivating ETIs, why wait until the following:

- A. Humans possess weapons of mass destruction, capable of inflicting damage on even ETI crafts and personnel, or;
- B. Until the Earth has been significantly damaged and overrun by billions of humans ?

Certainly, the Earth would have been an easier and more pleasant catch just 200 years ago. On balance, the hostile Aliens theory, while sensational and making great science fiction reading, is illogical and is not supported by the facts of this phenomenon when analysed comprehensively.

A ROSWELL CRASH UPDATE

Long-Range Radar of this type is used by various NASA programs to track missiles and satellites. By use of feedback loops, this radar is able to follow a target automatically when "Locked ON"

This is the kind of experimental radar was in use by the military in some key Air Force Bases in New Mexico during 1947 especially during June, July, September and October of that year, leading up to and through the Roswell crash.

Fig. 1—PULSE RADAR SYSTEM.

The above diagram, shows the types of radar displays that were available to the operators of the radar stations of this type of radar.

This type of radar is capable of producing specific results with catastrophic results to Alien Identified Craft, (AICs), because this caused a total malfunction in the propulsion system of some of the IACs. This specific craft works with geomagnetic propulsion.

Geomagnetic Propulsion - By having two electromagnetic current loops, the primary being around the diameter of the IAC and the secondary being perpendicular to the primary loop.

So both loops together provide hovering and stability to control the craft.

This was the main cause of the crash at Roswell. A collision with two (2) crafts caused by malfunction of the Geomagnetic Propulsion.

The following sequence is the Roswell crash representation. Two (2) AICs collided due to Geomagnetic malfunction, because of the military radar stations emissions:

The two crafts collided in mid air due to the radars causing AIC malfunctions in the Geomagnetic Propulsion system, Scanners and Sensors. This caused the AICs to be flying blind and out of control.

Due to the malfunctions and flying blind, the two AICs collide in mid air with each other.

The one craft was disintegrated on impact with the other AIC. The other AIC was severely damaged and crashed a short time later.

NATIONAL SECURITY AGENCY (NSA) - SECURITY CODES

NSA maintains a variety of security codes for use during both peacetime and wartime. These codes are arranged by priority from 1 to 50. The function of these individual codes are summarized in the following pages.

NSA Security Codes NSC 1-29

NSC 1-10 codes are for normal peacetime transmissions of varying priorities, with routine transmissions between civilian and commercial centers and/or organizations, receiving priority dispatch of 1 through 5, and levels 6 through 10, used for priority NSA communications.

NSC 11-20 are used in conditions of hostilities between the Government, the Alliance and a foreign power. These priorities are used to transmit orders regarding the disposition of vessels and ground troops, the relocation of civilian personnel, the assigning of NSA resources to different commands, operation orders for these commands, and specific operation orders.

NSC 21-29 are for use by Government Diplomatic Corps.

NSA Security Codes NSC 30-50

These codes specify conditions of Emergency, with variable priority levels given to specific problems or crisis conditions during peacetime operations.

NSC 30 - Transmission of a communication of NSC 30 code, indicates an emergency condition involving a planetary disaster or other unspecified emergency. Use of this code level means that the sending station is not able to adequately respond to the emergency and requires immediate help at the scene.

NSC 31 - The NSC 31 code level is used for a medical emergency.

NSC 32 - The NSC 32 code indicates a planetary crisis of natural origin.

NSC 33 - The NSC 33 code level is used for a Bio-medical crisis requiring immediate evacuation of personnel.

NSC 34 - The NSC 34 code communication indicates a Bio-medical crisis requiring immediate quarantine.

NSC 35 - The NSC 35 code level signals an ecological disaster or similar planetary crisis.

NSC 36-38 - The NSC 36-38 code levels are used for crisis of unknown origin that require the immediate evacuation of a large segment of a region's populace.

NSC 39 - The NSC 39 code level indicates an attack by unknown agents on Government personnel or civilian installation with level A to D of security and/or intelligence.

NSC 40 - Transmissions coded NSC 40 level are directed to a specific Base or NSC Chief Science Officer, for disclosure to mission control or Base Command Staff only.

NSC 41 - NSC 41 code is similar to a NSC 40 transmission except that it is only for disclosure to the most Senior Officer present, or an authorized Special Agent.

NSC 42 - NSC 42 code transmissions are direct to a specific special mission ongoing or level A Base Chief Medical Officer, for disclosure to mission control's authorized personnel or Base Command Staff only.

NSC 43 - The NSC 43 code is similar to an NSC 42 transmission, except that it is disclosure to the most Senior Officer present.

NSC 44 - NSC 44 code transmissions are directed to a specific special mission ongoing or level A Base Security Chiefs, for disclosure to laboratory or Base Command Staff only.

NSC 45 - NSC 45 code, are messages similar to those using NSC 44, except that they may be disclosed only to the most Senior Officer present.

NSC 46 - The NSC 46 code level is for direct messages to Government Flag Officers of the Rank of Captain and higher.

NSC 47 - The NSC 47 code level is used under circumstances similar to NSC 46, except that no acknowledgement or log entry of the transmission is recorded.

NSC 48 - Transmissions at the NSC 48 code level are solely for the Director of NSA, Commander of U.S. Defence, the President of the United States and the Commander of the Visitors Defence Force.

NSC 49 - The NSC 49 code transmissions are for members of the Majority Agency for Joint Intelligence, Level A-C or Alliance High Council, or their representatives.

NSC 50 - Transmissions coded at NSC 50 level are for the President of the United States or for the Alliance Supreme Commander or his designated representatives. No direct acknowledgement or record of these transmissions can be made without the President's prior authorization.

CONCLUSION

This concludes the collection of papers and documents addressed to A. J. Gevaerd of Brasil, and EXPRESS mailed to Gevaerd at the Oasis Hotel and Resort in Mesquite, Nevada where he was going to speak to an International UFO Congress on UFO cases in Brasil.

Ten years ago most of this information seemed like unbelievably exotic words and ideas, but in the time that has elapsed since this came into our hands we have watched one thing after another confirmed by new and better evidence from other sources, such as the Star Wars city complex in Colorado, and the interrelationship of the various security agencies, etc.

With hindsight it appears that our informant, on the run and hiding in another country, may have been just what he said, an insider who was not supposed to go bad and betray the inner secrets of the Majic group, and is suffering for it now.

We offer this simply as one more limited confirmation of things many of us have suspected for a long time. We take comfort in the knowing that the truth will eventually emerge no matter what we may say or do now.

We leave this information in your hands now, to judge for yourself as you see fit. Personally I feel that all this is substantially true as it is no.

NEW ELECTRONIC BOOKS

The Library Format of the Future

We are being driven to the new E-Book format by circumstances more or less beyond our control. The rising costs of publishing and good paper have raised the direct outlay of costs necessary to produce a paper style book dramatically.

On the other hand the reduced cost of producing this new E-Book has come down considerably and the growing prevalency of personal home computers to read them has gone up measurably. We can foresee a time in the near future when every home will have a personal computer of some kind.

The E-Books are small and compact, and can even be carried in a shirt pocket. A whole library can be stored in a cigar box.

And an unmistakable advantage is the digital nature of the medium. The text and content can be manipulated, plus there are no restrictions on color. Every photograph, painting, sketch and diagram can be reproduced in full color and clarity. The digital nature of this medium allows large magnification of detail and full control of color, tone, texture, and the content of the illustrative material.

Everything can be printed out in hard copy as desired in full color and in any size.

Thus we see a brilliant future for this format and we offer the following books never published before as starters. These may also be read and downloaded from our Web Page listed as www.ufophotoarchives.org.

A mini-disc version is available for \$15.00 to \$25.00 each plus \$3.85 postage for one to four E-Books via Priority Mail. You may order with personal check or Money Order made out to UFO PHOTO ARCHIVES and mailed to same at P. O. Box 17206, Tucson, AZ 85731, U. S. A.

A temporary list of new E-Books now available is attached. These are all new books and are not available any place else at this time.

UFO CONTACT FROM PLANET VENUS We Are Not Alone

By

Edward James – Wendelle Stevens

ISBN 0-934269-55-6

HUMANITARIAN INTEREST

After a series of visual sightings of silvery flying discs in the sky, young High School Student Edward James (a pseudonym) was deliberately met by an alien ET being who encountered him early in the foggy morning of 7 February 1962, on the shores of Biscayne Bay at Miami, Florida.

He Addressed him by the boy's first name and said, "We have been watching you for some time." He told the boy that his interest in the flying saucers was what attracted their interest and they decided to contact him directly for personal interaction. The alien visitor said that he came here from the planet we call Venus.

He said that people of Earth could not perceive or "see" what their reality of Venus was like, because it was actually in a slightly different dimension from ours. They would not, in their natural dimension, be visible to Earth eyes, but that with their extended range of perception, they could easily enter and leave our Earth reality, which he was doing now. He said the people of Earth were not yet ready to understand this process. He said that they are not the only others who are monitoring our slow progress in evolution here on Earth. He offered to answer questions from the young Earth boy as best they could be explained in Earth language, which was highly deficient for some explanations.

The direct face-to-face contacts went on for nearly a year during which more than 40 long meetings took place and much was discussed and explained. The coming and going of the great Earth civilizations of the past such as those of Mukulia, Lemuria, Atlantis, and other great civilizations that have come and gone were discussed in detail. The high levels of technology achieved in some of those civilizations, such as air and underwater travel, electrical marvels etc., and their self-destructions from within by their own power hungry elite is about to be repeated and they hoped we had learned our lessons from the past and could escape this great loss again.

The great mystery of Coral Castle, just south of Miami, is explained to the boy in detail, and I found that great mystery and its solution so simple as to be amazing.

UFO CONTACT FROM PLANET KORENDOR ANOTHER ADVANCED SOCIETY

By

**ROBERT P. RENAUD -- GABRIEL GREEN
WENDELLE C. STEVENS**

HUMANITARIAN INTEREST

An eighteen year old Ham Radio Operator and Electronics Inventor in Massachusetts, tuning in to an annoying beep in the 25 meter band on his short wave radio, was surprised to discover that somebody was trying to get his attention and talk to him. Having succeeded, they also gave him instructions on how to modify his radio set to facilitate this in radio, and later on in TV.

That opened an extensive ongoing dialogue with them that eventually resulted in face-to-face meetings, and his even going on trips into space with them. They said they came from a planet they called Korendor, some 400 light years from our own Sun. They were studying our level of evolution in intelligence some 3,000 years after their turn at our level of progress.

They belonged to a Confederation of planets that they said one day we would also join if we did not eliminate ourselves first.

**UFO CONTACT FROM PLANET NORCA
THE SHOCKING TRUTH**

By

H. Albert Coe – Wendelle Stevens

ISBN 0-934269-59-9

HUMANITARIAN INTEREST

Young H. Albert Coe on a fishing trip to Canada, rescued a man, who turned out to be an alien ET visitor. A friendship subsequently grew up between them. The visitor said he was from a planet he called NORCA in another solar system. Those humans left their own planet when their resources began to run out and came to our solar system, landing on Venus and Mars first where they eventually set up new colonies and began developing the resources of their new homes. They possessed marvelous technologies which they brought with them including vast interplanetary travel capabilities, some of which they shared with their new neighbors, who eventually developed spacecraft and learned interplanetary travel as well.

After Albert met and married his girl friend they would meet the visitor together. The visitor always had a lower vibrational rate to become tangible to us in our society, something which he could easily do. This is one reason why we do not see the life wave evolving on Venus now, because of our own limited range of perception.

Albert was repeatedly picked up and taken on trips with those ETs, and once they took him to see their own depleted planet, a fate in our near future if we do not learn to properly husband and protect our resources. They sought to hopefully guide us in saving our planet if we would just listen to the result of our activities today if unchanged.

HUMAN INTEREST

This is the mysterious document received by Prof. A. J. Gevaerd from Brazil, by EXPRESS MAIL at the Oasis Resort Hotel in the small town of Mesquite, Nevada, where he was a guest speaker at the famous INTERNATIONAL UFO CONGRESS in 1995. When he opened the 11" x 14" one inch thick package, there was a 180 page report on the UFO activities of the U. S. Government over the previous ten years, including the then little known facilities at area %1 in Nevada, those activities at Los Alamos and also at Dulce, New Mexico.

We watched those described events revealed one by one over the next ten years, slowly confirming the contents of this document, including some of the discoveries of Dr. Richard Boylan such as the Star Wars City, The secret Space Academy in Colorado, Companies participating in our own disc development program, the comprehensive activities at Dulce Base in New Mexico.

The originator of this document was a U. S. Government insider who became disenchanted at the pervasiveness of the activities and the brutality of its directors and left his highly paid and important inside job, and immediately became the "hunted", on the run for his life. He has left this country and is in hiding with a new identity in a foreign country, unknown to us at this time.

The gradual confirmation of many things he said ten years ago is what has now prompted me to release this document for all to read. I have no way to verify the truth of any of it. You may now judge for yourself.

UFO Contact Fm Beyond **RIGEL** **A CHEROKEE GIRL'S ODDESY**

EXTENSIVE DISCUSSION ABOARD

Lucius Farish – Wendelle Stevens- Phyl Pierceall

HUMANITARIAN INTEREST

An ethnic Cherokee American Indian girl is abducted from her home in full view of her mother, was taken aboard a hovering flying disc, examined, and was then shown around the craft and allowed to ask questions, of which she asked many good ones and was told and shown answers to many of the questions and other things.

She observed amazing technology and in answer to her many questions was shown remarkable machinery and devices that were also demonstrated for her.

She was told the visitors came from another Galaxy, and because of the vast distances involved, that society maintained an operating base on a friendly planet here in our own Galaxy.

The visitors actually had Green skin and a quite different morphology from our conventional concept of humanity, but they seemed to be quite human in most other respects. There were males and females aboard the visiting craft.

UFO the DULCE story **An Incredible Deception**

By

Thomas F. Castello – Wendelle C. Stevens

HUMANITARIAN INTEREST

Stories of the United States Government contact and involvement with alien extraterrestrial beings have been circulating since the 1960s. There were even rumors of live UFO occupants in the hands of the American Government since the later 1940s when the four occupants of the Socorro recovery in 1 June 1947 were taken alive. You saw one on the autopsy table in the Santilli film, that injured one that was killed at the scene by a sentry.

Paul Bennewits, an Albuquerque businessman, flying his own airplane, claimed he filmed and photographed flying discs over the Archuleta Plateau above Dulce. He reported them to his district's Senator Schiff who launched an investigation and died before he finished it.

Thomas Castello, a government employee at the Dulce underground facility at the Archuleta site claimed he left during an underground firefight between U. S. Government forces and the Alien ETs operating there and remained on the run for years. He died on the run. His story, recently released by the CONSPIRACY JOURNAL completes the circle of evidence supporting the incredible Dulce Story. Now we have to wonder how much more there is to this that we simply do not know. Stay Tun

UFO CONTACT FROM ALCYON FALLING BODIES THEORY

Long Ongoing Instruction Aboard

Lloyd Zirbes – Wendelle Stevens

HUMANITARIAN INTEREST

These ET visitors from Alcyon in the Pleiades Star Cluster repeatedly took Lloyd Zirbes of St. Cloud, Minnesota aboard their craft and taught him the failings of our present sciences and technology in understanding the great damage done and still being done to our planet by our misuse of the atom. They imparted to him aboard their ship, the knowledge of what we are doing to our planet in the hopes that we will come to our senses and try to save what is left.

They also taught him a new concept of physics that may help us to better understand our suicide.

**UFO CONTACT FROM
PLANET BAAVI IN
PROXIMA CENTAURI SUN SYSTEM**

ASSEMBLED BY

WENDELLE C. STEVENS

HUMANITARIAN INTEREST

The BAAVIAN extraterrestrials have made contact with terrestrial humans a number of times in the past. In 1964 they took Monsieur Y. from the Algerian Desert to their home planet BAAVI for two months stay, living among them and working with them, where they taught him their language, mathematics, sciences, philosophy, etc., which he brought back to Earth when he returned.

Mn. Y.s Contact Notes filled twelve volumes of thick notebooks covering the extended time of his ongoing contacts.

The extraterrestrial's home planet, which they call BAAVI, orbits in a family of cold planets around the Proxima Centauri star in the constellation Centaurus, 4.3 light years from our own sun.

Language scholars studying the BAAVIAN language brought back by Mn. Y. say it has all the characteristics of a useful language system and was probably not a new contrived language created by anyone here.
