## Overview — Brown Dwarf Winged Disc Images

This category provides an assortment of ‘stylized’ brown dwarf replicas based on ancient observations. These files visually show how our binary companion manifests itself into an “all winged” disc or globe just prior to the flyby.

The following passage describes the image files collected for this category:

"Typhon [**the Destroyer**] overtopped the mountains and his head often brushed the stars. One of his hands reached out to the west and the other to the east... From the thighs downward he had huge coils of vipers which...emitted a long hissing...**His body was ALL WINGED...and fire flashed from his eyes...**Such and so great was Typhon [**the Destroyer**] when, hurling kindled rocks, he...**spouted a great jet of fire from his mouth...**"—*Classical Author: Appollodorus*
