Briefings

One of Tom's first public lectures: World Futures Society 1982

Other panelists included James Beale, Carol Rosin, Barbara Marx Hubbard and Glenn Doman

[The "Porthole" Concept](#)

Extension of the Priore Method of Healing as applicable to the treatment of biological warfare effects and cellular afflictions such as cancers, AIDS etc.

NEW

[Hubbert's Peak: The Impending Oil Crisis, by Professor Kenneth S. Deffeyes](#)

Book Review and Slides

[A National Report on America's Energy Crisis](#)

by Energy Secretary Spencer Abraham - March 19, 2001

Commentary and Slide Show (66) by Tom Bearden

**[A Visual Tour of what they don't want you to know
about electrical circuits](#)**

10 Trillion Percent of the Current Produced is Wasted!

[Weapons Slides](#)

[The Missing Infolded Electrodynamics](#)

85 slides

**[A Brief Technical Background to the Extended Priore
Healing Methodology](#)**

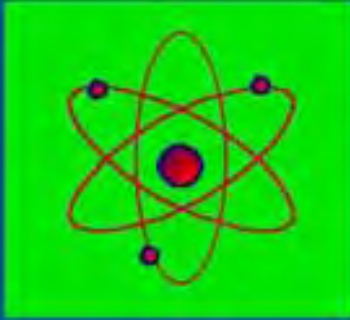

11 slides

**[Briefing sent by Tom Bearden to Defense Department,
National Institute of Health, USAF, National Science
Foundation etc. re extended and improved Priore
Treatment to counter mass casualties from Biological
Warfare](#)**

- [Letter to DHHS re adoption of Priore technology](#)
24 June, 1998
 - [Letter to NIH re adoption of Priore technology](#)

A Living Biological System

The body's cells and their parts are linked by a mutual quantum potential. Mind and thought (from a mindworld) occupy the internal SW biwave structure of the QP to that body, being continually disconnected and reconnected by the photon interaction generatrix for the flow of time.

ALL POTENTIALS IN THE BODY ARE ASSOCIATED WITH AND CONNECTED TO THE QUANTUM POTENTIAL.

THE BRAIN AND NERVOUS SYSTEM ARE SPECIAL TUNERS/SWITCHERS BETWEEN INNER AND OUTER EM "SIGNALS".

DEEP CONTROL IS VIA VACUUM ENGINES: NESTED STRUCTURING OF THE SWZ BINAVES INSIDE, AND COMPRISING, THE SCALAR POTENTIALS.

To paraphrase Churchill:

- In technology, we have not reached the end, or even the beginning of the end.
- Perhaps, however, with the emerging technology, we have reached the end of the beginning.

Winston Churchill

Mind and Matter Interaction

- Living systems: matter, mind, life, death, time
- Function of the extended quantum potential
- Nature of conscious and unconscious mind
- Gaia and collective species unconscious mind
- EM topology vs. mind and matter interactions
- Paranormal phenomena: Mechanisms
- Unsuspected EM effects on biological systems
- Recovery system: Use of scalar "internal" EM
- Vacuum engines, death rays, and healing rays
- Priore's scalar EM therapeutic method
- Resolution of the fundamental technological species problem: The Lady or the Tiger?

U.S. Intelligence Statement on Soviet Psi Research*

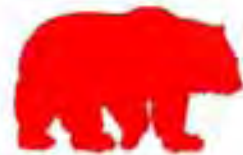

■ Sooner or later, Soviets may be able to

– Know:

- Contents of documents
- Troop and ship movements
- Installation locations and nature

- Mold thoughts at a distance
- Disable equipment at a distance
- Kill persons at a distance

- *Comment: Soviet psychoenergetics is a physics, not Western parapsychology. Much of this capability now exists and has been weaponized in action-at-a-distance weapons.*

***Controlled Offensive Behavior - USSR (U)**

Conscious and Unconscious Minds: Serial vs. Massively Parallel Processors

Serial processor.
One and only one
thing or
operation
at a time.

CONSCIOUS MIND

Parallel processor. Millions of
simultaneous things and operations.

© T.E. BEARDEN 1999

Note:

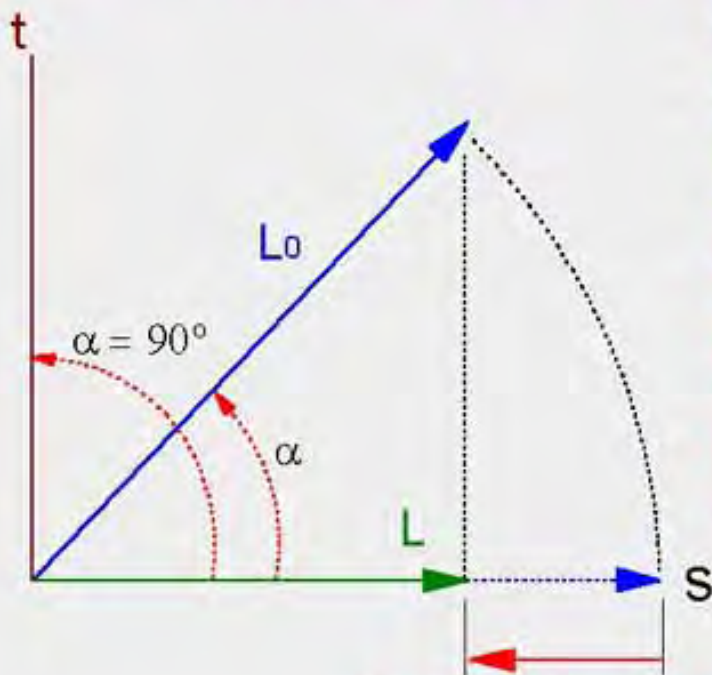

- Conscious mind is a functional projection from the unconscious.
- When asleep or unconscious, have withdrawn the "serially conscious" function back into the unconscious.
- For sleep, not total withdrawal, must awaken easily for survival.

Velocity Is Rotation

Lorentz-Fitzgerald Contraction

An object moving with velocity $v < c$ has rotated slightly out of 3-space toward the time dimension. Its "projection" back into 3-space is shorter, providing the Lorentz-Fitzgerald contraction.

When velocity $v = c$, a full right-angle turn has been made, and the object has "lost" its projection along its direction of motion. Hence it appears as a 2-dimensional plane moving at the speed of light; in short, a photon or a light wave.

Technology's End

Goal

Small

Powerful

Cheap

Simple

Conclusion

Handheld

It can destroy the earth

One man can afford it

Thousands can build it

With the progress in energetics weapons, and particularly the quantum potential, mankind has now arrived at this point. It poses the end of humanity, on the present course.

© 1998 T. E. Bearden

TECHNOLOGICAL SPECIES' PROBLEM

- 
- **Intelligence as adaptability**
 - Hardware implications
 - Software implications
 - **Two major kinds of intelligence**
 - Technological (tool-using)
 - Nontechnological (not tool-using)
 - **The technological species is a self-killer**
 - Tools become ever more powerful, cheaper
 - Dominates its biosphere
 - Achieves power to easily destroy self, biosphere
 - Adapts its tools into its own intraspecies conflict
 - Eventually will destroy own species, much or all of biosphere
 - **The human collective unconscious mind is insane**
 - Severe dissociation technically defines psychosis
 - Collective conscious mind is fragmented into 6 billion pieces
 - **The solitary human problem: How can "free will" be kept but absolute control reinstated over intraspecies conflict?**
 - **Must engineer next step in human evolution, for the entire species**
 - Mind linkage, entire species
 - Jung's collective unconscious acquires a collective conscious
- © T.E. BEARDEN 1996
