

Benefits of Partnership With CFW

Excellent Cuisine

The success and failure of events hinges primarily on the food. A great meal can go a long way towards making a great event, while a bad food experience puts a damper on the event, no matter how luxurious. At California Food Works, we understand the necessity of great food for events, and make it the bedrock of our relationship with clients.

Personal Care

Your clients want more than just a nice event, they want one that gives them a feeling of distinction. Our chefs can provide the custom styling and care your clients deserve.

Sophisticated Elegance

Because of our wide culinary scope and close attention to detail, we are able to add sophistication to all of our clients' events, and help yours achieve a higher distinction: elegance.

Consolidated Services

Our ability to manage the coordination of an event from menu design to execution allows you to direct your attentions on the other aspects of the event (décor, entertainment, etc.) to produce more professional and harmonized events.
