IBM®   Technical Update

IBM Director support for the IBM ServeRAID-5i Ultra320 SCSI controller

If you want to use IBM Director to monitor and manage the IBM ServeRAID™-5i Ultra320 SCSI controller, you must use IBM Director Version 3.1 with Service Pack 1, or later.

Notes:

1. IBM plans to release IBM Director 3.1 with Service Pack 1 by the beginning of August, 2002.

2. If you do not use IBM Director, you can use the ServeRAID Manager program to configure, manage, and monitor your ServeRAID-5i controller. This program is on the *IBM ServeRAID Support* CD that came with your ServeRAID-5i controller.

Complete the following steps to download IBM Director 3.1 with Service Pack 1:

1. Go to the IBM Systems Management - Director Version 3.1 Package page at www.pc.ibm.com/qtechinfo/MIGR-40738.html

2. Scroll down the page to the File Details section.

3. For each file that you want to download, right-mouse click the file and click your browser action to save the file to your hard disk drive (for example, click **Save Target As**).

4. Install the IBM Director Service Pack according to the instructions in the IBM Director Version 3.1 with Service Pack 1 README file.
