

Flamenco Networks

xSeries, FAStT 200 Storage Server, Red Hat Linux Advanced Server, Version 2.1,
Red Hat Linux, Version 7.3

Challenge

- Web services management firm needed resilient, high-availability server and operating system for on demand Web services management platform.

Solution

- Resilient infrastructure powered by Red Hat Linux Advanced Server, Version 2.1 on xSeries 345 application servers, and Red Hat Linux, Version 7.3 on 2 xSeries database servers; FAStT200 Storage Server and database failover enable customers to share infrastructure.

Benefits

- 99.9% availability; cost-efficient, high-performance and reliable infrastructure; ability to run Oracle database in high-availability Linux environment with failover; shared infrastructure supports worry-free Web services management solution on flexible, pay-as-you-go basis.

"IBM offered all of the storage and server components we wanted. It has the commitment to Linux we needed in order to move forward with confidence on an enterprise Linux implementation."

--Corey Corrick, Operations Manager, Flamenco Networks

The screenshot shows the Flamenco Networks website. At the top left is the Flamenco Networks logo. To its right is a navigation menu with links: home | company | solutions | contact us. Below the logo is a vertical list of links: Resource Center, Partner Zone, News and Events, Online Press Kit, and Customer Log-in. The main content area features a large photo of a man with glasses and a dark jacket, with his arms crossed. Above the photo is the text: "How do I transform the promise of Web Services into real business benefits?". To the right of the photo is a sidebar with the heading "provision web services" and sub-headings: "Network infrastructure that helps enterprises turn WS-Promises into WS-Benefits". Below the photo and sidebar is a green banner with a sign-up form: "Sign Up For Flamenco e-news" with a text input field labeled "enter your email address" and a "Submit" button. To the right of the form is a link: "Insecure about Web Services Security? Learn how users are overcoming security barriers in this article from Business Communications Review. read more". To the right of the banner is an IBM Business Partner logo. Below the banner is a link: "Privacy Policy and Terms of Use". At the bottom of the page is a second navigation menu: home | company | solutions | contact us | resource center | partner zone | news & events | online press kit | customer log-in | site map.
