**TO
ACCESSORIES**

VOX ACCESSORIES

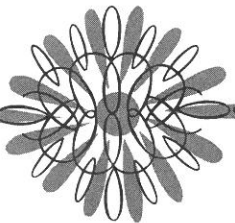

VOX is proud to present a select group of accessories carefully chosen for fulfilling a specific need. Each VOX Accessory is quality engineered to provide dependable, trouble-free operation! Join the top musical groups and use quality VOX Accessories for tops in sound!

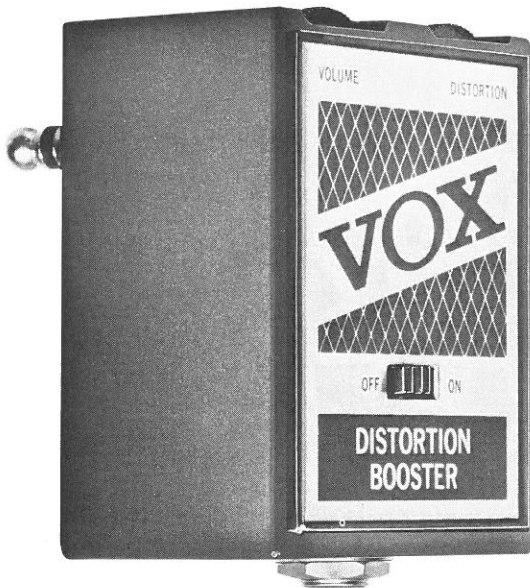

VOX BOOSTERS

Quality Features in All Vox Boosters

Each booster unit is completely transistorized for long-life and trouble-free operation. Exclusive battery life-saver: The standard 9-volt battery is automatically disconnected when the cable is unplugged from the unit. Each unit is easily plugged into the receptacle on the guitar and the cable from the amplifier is plugged into the jack on the unit. Even with switch in OFF position, guitar is connected directly to the amplifier. Unit operates immediately when switch is pushed to ON position. No warm-up needed for instant playing effects.

VOX BOOSTERS

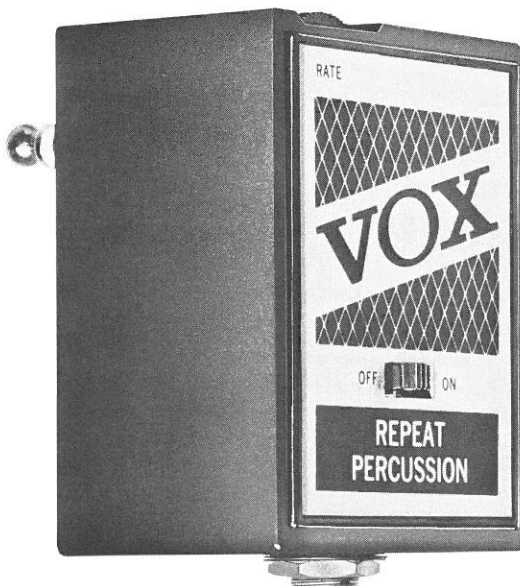

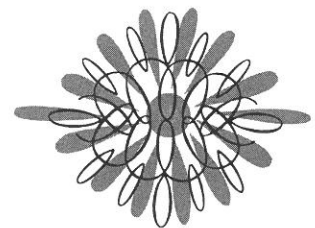

DELUXE DISTORTION BOOSTER: V8162

Creates harmonics which are non-existent in the fundamental signal for really fabulous sounds! Variable volume control allows adjustment of balance between direct guitar and distortion sound. Distortion control permits different degrees of distortion effect. Both are easy-to-use fingertip controls.

DELUXE TREBLE BASS BOOSTER: V840

A miniature combination booster in a compact dynamic unit which boosts bass fundamentals or adds extra glass-shattering treble. Has a continuously variable easy-to-use fingertip control for bass or treble. Convenient off/on switch.

REPEATER BOOSTER: V809

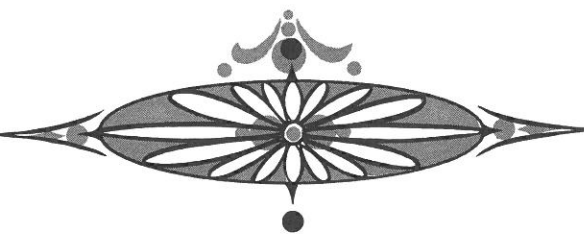

An exciting and spectacular exclusive VOX effect. Provides variable repeating effects which range all the way from the slow beat of a rhythm accent to the shimmering strum of a banjo. Rotation of the finger-tip control increases or decreases the rate of repeat beats.

HEADPHONES

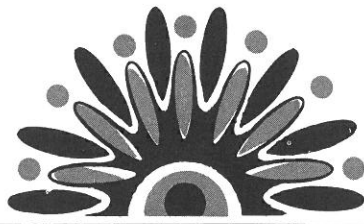

**MICRO ELECTRONIC
HEADPHONE
AMPLIFIER:
V813**

Enables the electric guitarist or electric keyboard instrument performer to practice in private. Features a self-contained battery-powered amplifier, completely portable, plays anywhere. Has monitoring jack for dual listening.

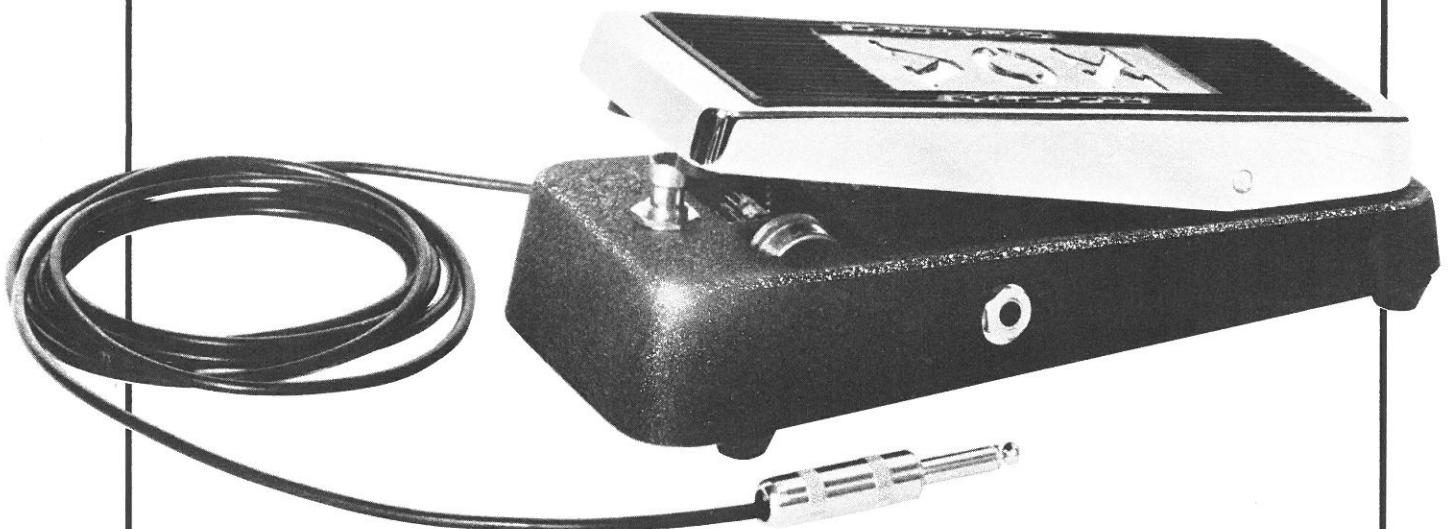

**MONITORING
HEADPHONE:
V814**

Permits the instructor or pupil to listen in. Plugs into Model V813 Micro Electronic Headphone Amplifier.

WAH-WAH PEDAL

WAH-WAH PEDAL: V846

Play with incredible effects . . . the haunting eastern sound of the sitar . . . really funky bass guitar . . . make your guitar growl . . . use as a treble booster . . . initiate the sound of an on-and-off muted trumpet. A versatile new electronic accessory from VOX . . . where it's happening!

VOX BANDMASTER

VOX BAND MASTER: V815

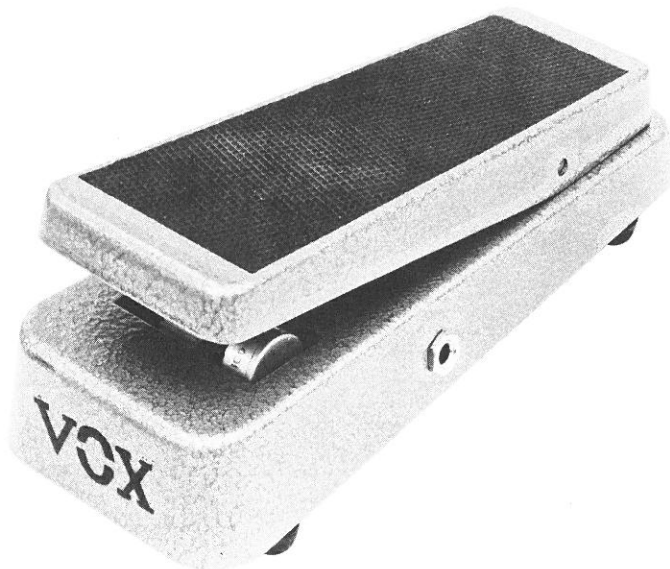

A marvel of electronic engineering from VOX. The Band Master combines 10 exciting percussions with 15 different rhythms. Percussion effects include 2 Bongos (I & II), Drum Roll, Clave, Block, Bass Drum, Brush Cymbal, Snare Drum, Castanet, Crash Cymbal. Rhythm effects include Waltz, Viennese Waltz, Jazz Waltz, Fox Trot, Boogie, Swing, Rock, Watusi, Samba, Beguine, Cha Cha, Rhumba, Tango, Bolero, Bossa Nova. With the Band Master you can achieve almost limitless combinations of rhythms and percussion effects. The Band Master is controlled by preset tabs for percussion voices and push-buttons for rhythms. An on/off foot pedal is provided for remote use.

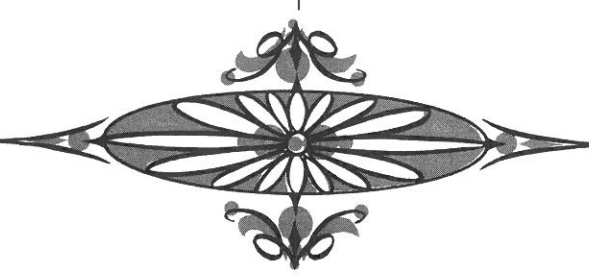

TONE BENDER: V828

A foot operated distortion accessory. Electronically controlled fuzzy distortion effects are produced with a foot tap. The VOX Tone Bender creates harmonics that are nonexistent in the fundamental signal. Gives the exciting sounds of many of the world's foremost rock 'n roll groups.

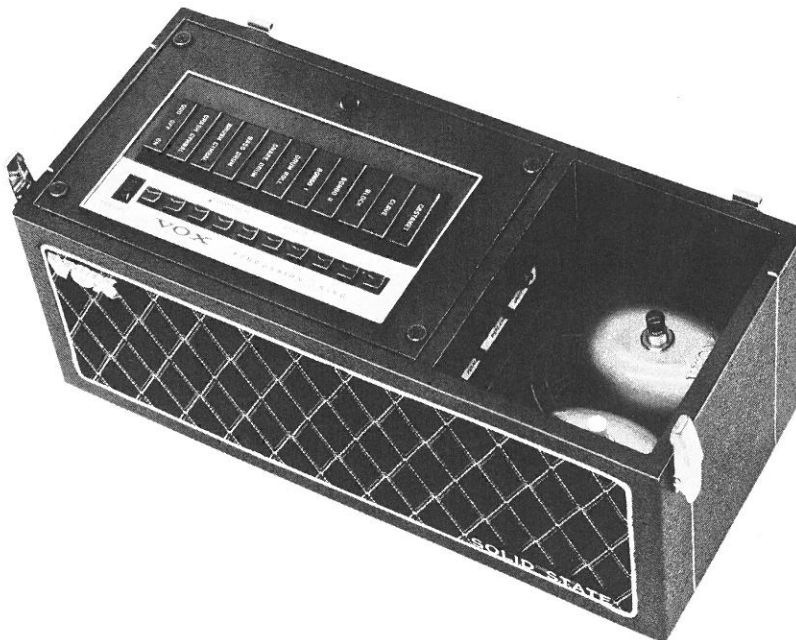

VOLUME FOOT CONTROL: V838

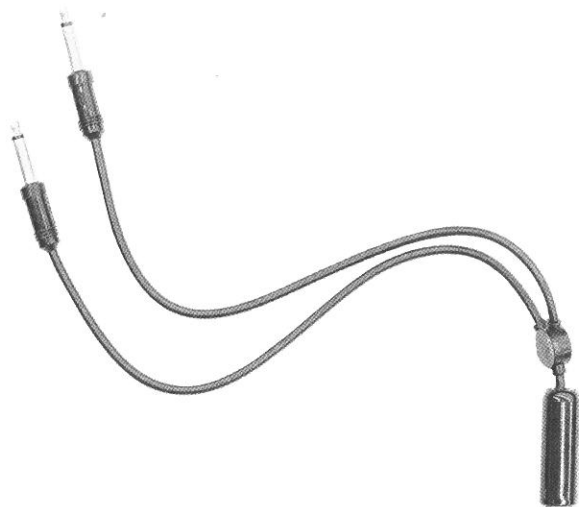

Provides a foot-operated control for Continental Organs, guitars, or any other instrument requiring a volume adjustment. Nonslip diamond-tread rubber insert on pedal. Heavy-duty metal construction for durability and long wear.

PERCUSSION KING: V829

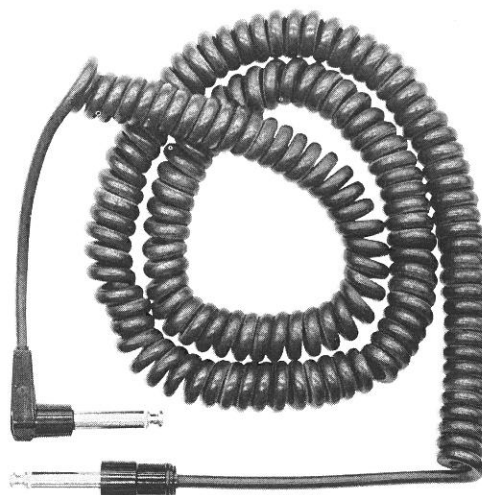

10 different out-of-sight percussion effects! Crash Cymbal, Brush Cymbal, Bass Drum, Snare Drum, Drum Roll, Bongo I, Bongo II, Block, Clave, Castanets. Has volume control, off-on switch, may be operated from 2-button foot control, with rhythm effects achieved by tapping right and left pedals alternately or . . . may be played with finger buttons on control panel. Handsomely encased in formal VOX black with gold trim. Adds the really important percussion effects that make a group big!

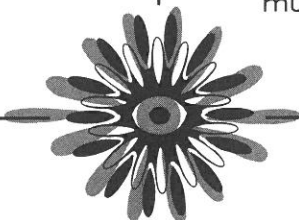

Y-ADAPTER CORD: V824

Lets you play with stereo effects. The single jack accepts the guitar, while the two plugs are plugged into the amplifier. Run the sound through separate channels. Helps create exciting new tonal effects.

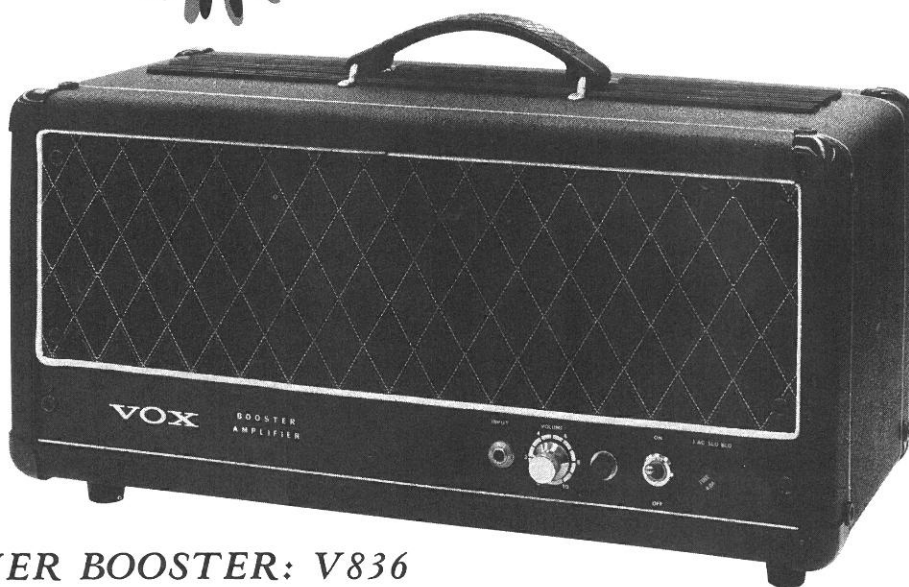

COIL CORD: V841 RED, V842 GREEN, V843 YELLOW, V844 WHITE, V845 BLACK

Eliminates messy tangles, untimely trip-ups. The coil cord stretches out to wherever you move — up to 20 feet. Then takes up its own slacks as you work nearer the amp. A professional must, in your choice of colors!

*Amplifier
Power Booster*

AMPLIFIER POWER BOOSTER: V836

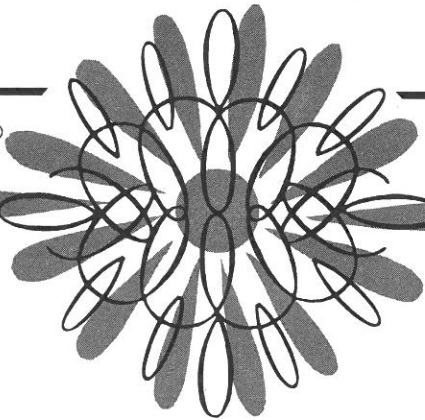

Designed to increase the total radiated power and sound distribution from a public address amplifier such as the Churchill or any similar unit. In addition, when suitable connections are made it can be used to supplement the output of any guitar or musical instrument amplifier such as the VOX Beatle Deluxe. 240 watts of peak power output. Matching transformer for wide selection of speaker impedances. All transistor amplifier. Beautifully designed control panel.

VOX STROBO LIGHTS

Turn on your sound and your audience with new VOX strobolights! Add flashing psychedelic effects on stage, in the audience and on the dance floor! The strobos create "light fantasies" you can't imagine! Turn them on when there is a special novelty section in the musical arrangement! Set the flash rate with the music or double the beat! Use the fast flasher for an old-time flicking movie effect! They're new! They're versatile! They're made by VOX . . . tops in music and musical accessories!

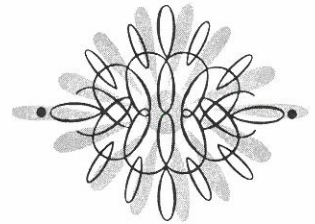

STROBO LIGHTS

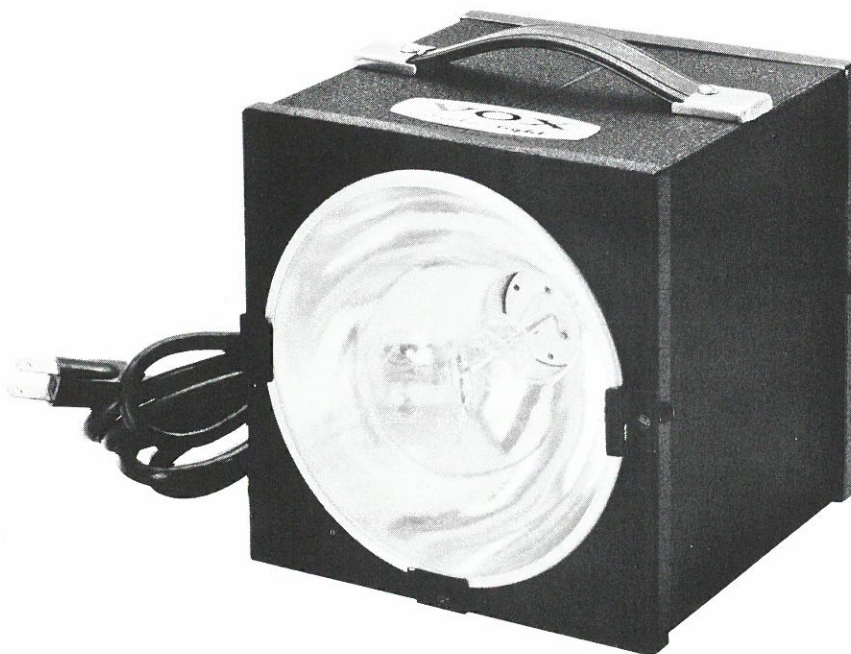

MODEL V833

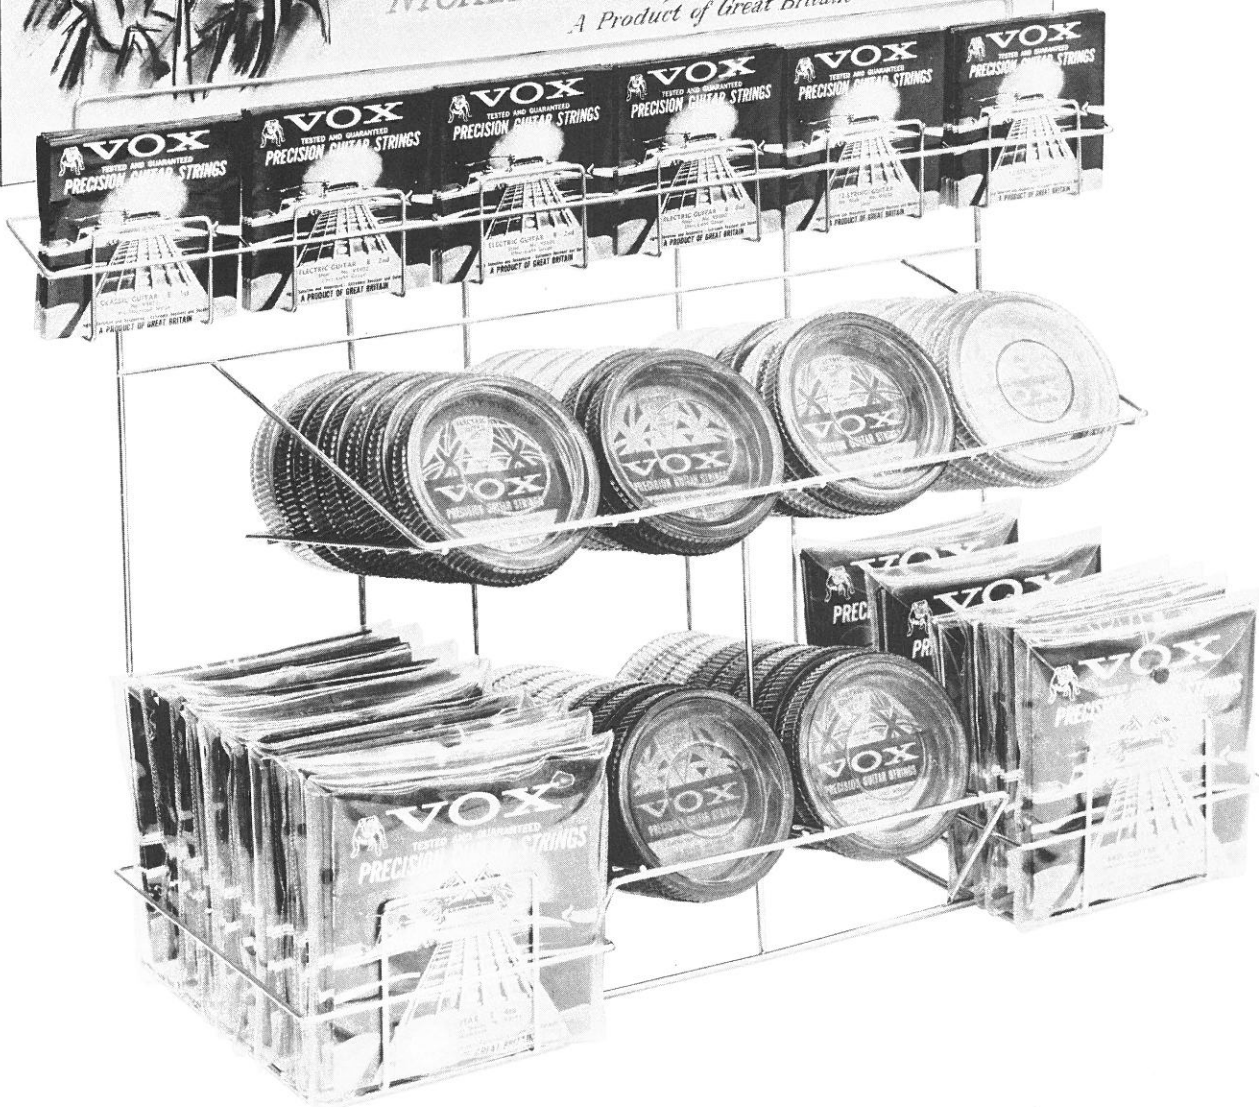

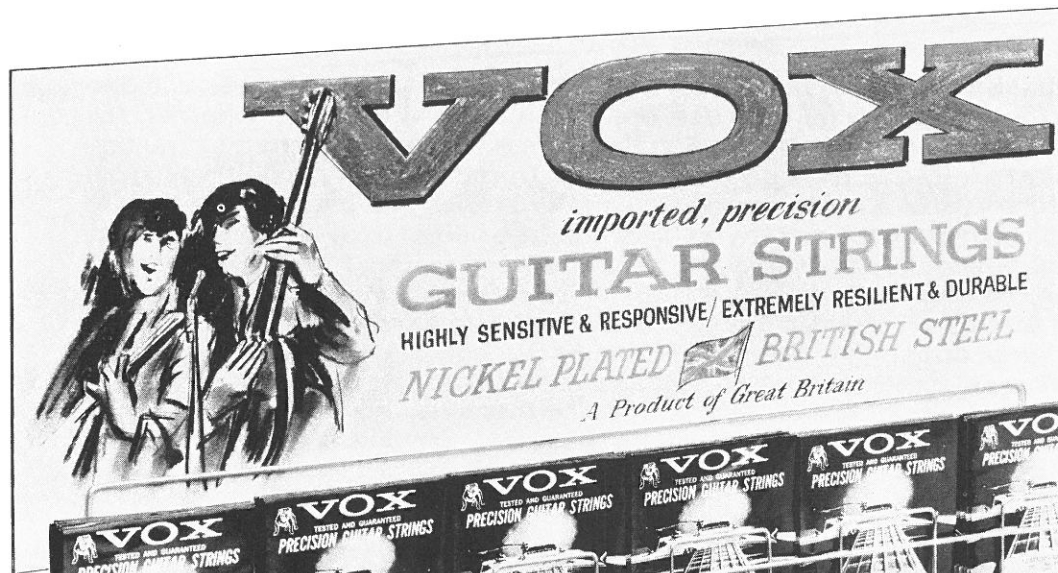

Two strobo lights with remote control! 37-watt-seconds per lamp. Lights may be set up to operate 30 feet apart. Remote control unit can be operated 15 feet from lamps. Each light can be turned on, off, in sync or out of sync from remote control. Remote box measures 6" x 3½" x 2¼".

STROBO LIGHTS MODEL V832

Compact, lightweight and rugged strobo lights built for a long light life! All solid state printed circuit board, 37-watt-seconds, 5¼" 60-degree high luster reflector. Continuously variable control with 1 to 20 flashes per second. Stop action strobe effective 65 feet in a dark room; covers 2500 sq. ft. area! Sturdy 6-inch square aluminum container with black wrinkle finish, and collapsible leather-like carrying handle. High impact flame resistant clear lens. Red, Yellow, Orange, Green and Magenta colored lens accessories available.

Pictured above is the VOX Guitar String Display Kit, V-8000. A sturdy, colorful display heavily chrome plated. It takes full advantage of the beautiful labeling of the VOX Guitar String packages.

"The Finest Guitar In the World Is No Better Than Its Strings"

Real gut questions are always raised about the use of guitar strings, but one thing is certain, the strings you use are of critical importance, whether for classical, folk or Electronic amplified guitars. Professional and amateur guitarists can always improve the quality of their instruments by replacing mediocre strings with strings of a better grade. The set of strings you choose is definitely determined by the kind of guitar you have and the sound you, personally want. VOX makes quality guitar strings for every type of guitar. Nickel wire wound strings, chrome tape flat wound strings and laminated nylon wound strings. The wrong strings on a guitar can pull up and distort the sounding board, tear off the bridge or cause the neck to warp and bow, causing costly or permanent damage. The salesmen who sell VOX guitar strings can help you determine which strings you should have, how to replace them and how often. The finest guitar in the world is no better than its strings . . . and there are no better guitar strings than VOX.

Strings

*** Note —VOX dealers receive full 50% discount on all retail string prices published herein.**

HIGHLY VIBRANT NICKEL WIRE WOUND STRINGS

VOX nickel wire wound electric strings are available in a wide range of types. They possess fine magnetic properties which give the string amazing durability, lasting beauty, and greater responses. VOX proven craftsmanship and the finest available materials are combined to give you strings of truly fine performance.
