

Transmission Scan

Item	Semrock Part #	Lot #
P-Pol	FF720-SDi01	210023-A10016
Mid-Pol	FF720-SDi01	210023-A10016
S-Pol	FF720-SDi01	210023-A10016

Note: Dichroic was measured at 45° incidence.

The graph above is representative of the coating lot from which your filter was manufactured. The spectrum of your actual filter(s) might differ slightly within manufacturing tolerances and is certified to meet all optical specifications as detailed in the Semrock online catalog or in the associated custom specification drawing.
