

December 2000

Dear Valued SGI Customer,

Included in this shipment is the SGI Internet Server™ Environment (ISE). Designed for service providers [such as ISPs and ASPs] and businesses of any size, the Linux™ OS-based ISE is a cost-effective serving solution. It provides the following features:

- Quick installation and deployment
- Advanced management, monitoring, and security tools
- Integrated installation scripts for Web serving and messaging
- A foundation to support the entire suite of applications found in high-volume environments:
 - High-volume messaging services
 - Large Web-hosting applications
 - E-commerce applications

Tel 650.960.1980

ISE is qualified to run on SGI 1100 servers. To install the ISE software, please read the hardcopy *SGI Internet Server Start Here* provided with your software. The *SGI Internet Server Start Here* and the *SGI Internet Server Administrator's Guide* are available on the ISE CD-ROM and from the SGI Technical Publications Library at techpubs.sgi.com.

For information about the portfolio of SGI Support Services, please contact your local SGI sales office, call SGI support at 1-800-800-4744, or visit www.sgi.com/support.

Regards,

Your SGI Internet Server Support Team
