

May 2002

Dear Valued Customer,

Thank you for purchasing this additional option license for Kasenna™ MediaBase XMP for IRIX®. Expansion licenses are cumulative and may be scaled, along with your SGI® server hardware, to increase the capabilities of your media server.

If you have received this document in fulfillment of an order for SGI marketing code SR4-MXEN10-0205 [Kasenna MediaBase XMP Additional Encoding Session], then this is your proof of purchase of one copy of that option. This copy entitles you to encode one (1) additional stream of video on a single system. This code is valid only if you have also purchased SGI marketing code SC4-MXBXMP5-0205 for that system.

For all other SGI marketing codes beginning with SR4-MX that are available for the Kasenna MediaBase XMP for IRIX product, you need to obtain a FLEXIm® license from SGI licensing. To do so, locate your SGI sales order number for this upgrade, your SGI hardware serial number, and your Kasenna base-software serial number. Then contact SGI licensing at the following URL:

<http://www.sgi.com/support/licensing/>

You will then receive a permanent FLEXIm license to enable this product version. For information about the portfolio of SGI support services, please contact your SGI sales office or visit the SGI support website at the following URL:

<http://www.sgi.com/support/>

We appreciate your business.

Sincerely,

The SGI Media Commerce™ Team
