Innovative solutions from HP for your business

HP recommends Microsoft® Windows® XP Professional.

HP offers leading edge technology solutions to drive your business to the next level. From the newest mobile and desktop solutions for your business productivity to the most recognized service and support organization, HP has what your company needs to optimize its competitive advantage.

Buy your mobile solution from the #1 company in notebook sales worldwide[1]!

A new familiy of mobile solutions

Work wherever you want with enhanced security, ease of use and reliability with the newest notebooks from the market leader.

The new HP Compaq Business Notebooks, such as the new HP Compaq Notebook 6200 series with Intel® Centrino™ Mobile Technology, are smart, convenient, business-essential tools that let you stay productive wherever you go. They offer:

- ■ **Wireless productivity:** Intel® Centrino™ Mobile Technology and extended battery life so you can stay connected and productive wherever you go.
- ■ **Mobile security:** Advanced features to protect your PC against non-authorized access.
- ■ **Ease of use:** Features that allow you to share and backup your data with ease, one-touch buttons for easy access to your applications and the Internet, as well as help and support tools.
- ■ **Reliability:** Robust features and design for maximum system availability and durability.
- ■ **Accessories:** Optional equipment that allows you to build a customized mobile business solution for your needs.

HP Compaq Tablet PCs

HP Compaq Tablet PCs, like the new HP Compaq Tablet PC 4200 series with Intel® Centrino™ Mobile Technology, give you the flexibility to use it as a notebook or as a Tablet PC. You enjoy high performance, compatibility, enhanced versatility and the added convenience of handwriting with a digital pen.

## Looking to increase your productivity while minimizing costs?

From affordable business essential tools to top application performance, HP Compaq Business Desktops, like the new HP Compaq Business Desktop dc5100 series with Intel® Pentium® 4 Processors supporting Hyper-Threading Technology, offer affordable, stable solutions for networking and office productivity. Here are the top reasons why your business needs an HP Desktop:

- For office productivity and Internet browsing at a great balance of performance and price
- When you need a trouble-free networked computing environment and the tools to help you manage it
- To expand your choice in form factors for the best environment fit
- **For support:** HP ranked #1 in customer satisfaction by IDG's Computerworld magazine[2]
- **For quality:** HP desktops endure 75,000 hours of testing
- **Accessories:** Optional equipment that allows you to build a customized business solution for your productivity needs

Advanced power and performance for extreme applications.

The HP family of workstations, including the HP xw6200 workstation with Intel® Xeon™ 64-bit Processors, offers your business maximum power for top application performance, especially in graphic-intensive and technical environments. Here are the benefits for your business:

- To work with high-end applications (CAD/CAM), digital content creation, or video editing
- To obtain the highest level of data accuracy with error-checking and correcting (ECC) memory
- To support higher performance through extra expansion bays and slots and have a power supply to support it

- **For performance:** HP exclusively offers the Performance Tuning Framework for optimal performance in your specific environment
- **For innovation:** HP spends $4 billion a year on technology research and development

Think big. Go thin. Easy access on demand. More control of enterprise IT.

The HP Compaq Thin Client series is a leading server-based computing solution designed to make business leaner and more efficient. Centralized management means new applications and upgrades need only be installed once. Deployment is cheap, quick and easy. Speed, flexibility and security of your network is guaranteed. Here are the benefits for your business:

- Centralized control of software, applications and files
- Savings up to 80% on maintenance costs
- Deploys out-the-box in under 10 minutes
- Supports your legacy mainframe

- Effortlessly manages enterprise IT
- Requires fewer support personnel
- Manages remotely with simple problem diagnosis
- Reduces hardware theft

All monitors sold separately.

[1] According to a report from International Data Corporation (IDC), 4th quarter 2004. [2] HP ranked #1 in customer satisfaction in an April 2004 study of 10 leading enterprise IT vendors by IDG's Computerworld, the "Voice of IT Management," and the InterUnity Group, "Quality Measurement and Vendor Rankings." Server solutions

HP servers, like the HP ProLiant ML150 featuring Intel® Xeon™ Processors, deliver power and performance to your business. All HP servers can be customized with the server software of your choice and offer maximum system expansion for growing businesses, remote, and branch office functions. HP servers are available in tower and rack-mountable form factors to adapt to your business environment. HP servers offer:

- Entry-level server solutions for networking, shared Internet access, and file and print sharing
- Solutions for mail and messaging, databases, and applications
- Redundant features for outstanding uptime protection
- Stand-alone servers for maximum expansion
- Flexible, stable, best-in-class data protection and management
- Density optimization for more power in less space
- Power for complex processing requirements

Buy your server solution from the #1 company in server sales worldwide[1]!

Increase capacity and protection for your digital information.

HP understands the risks and limits associated with storing digital information. Consider HP's storage products as your balanced solution to expand available resources and meet storage challenges within budget.

Printing solutions

HP printing solutions bring quality, reliability and efficiency to your business.

HP printing solutions are the best complements for your mobile, desktop and server-based business environments. HP offers an entire family of multifunction and printer solutions that provide quality, value, and reliability to help your business gain a competitive edge.

Three printer families to choose from:

HP LaserJet printers

HP Color LaserJet printers

HP inkjet printers

- Better value with outstanding quality and lower overall cost of ownership
- Color and black and white laser printers
- Inkjet color printers for photographic quality results
- Mobile printers to get results wherever you go
- Decrease waste and storage by updating and printing only what you need
- Personalized materials for sophisticated marketing campaigns
- New HP printers may save you enough in power, supplies and support to pay for your upgrade — including operating costs
- Multifunction machines to maximize your investment with printing, copying, scanning, faxing and even telephone functions all-in-one

Use the free print-cost calculator to see how much money you could save by using in-house printing, or get help creating your own marketing materials. Visit: www.hp.com/go/doityourself/mar
