

February 1, 2001

Dear Valued SGI™ Customer,

Included in this shipment is the SGI Internet Server™ for e-commerce. Designed for service providers (such as ISPs and ASPs) and businesses of any size, the Linux® OS-based SGI Internet Server for e-commerce is a cost-effective, completely integrated, thin serving e-commerce solution. It provides the following features:

SGI  
1600 Amphitheatre Pkwy.  
Mountain View  
CA 94043-1351  
Tel 650.960.1980

- A full-featured, affordable e-commerce solution for single or multiple hosted store services
- Preinstalled Mercantec® SoftCart® commercial software, Apache Web Server plus SGI performance enhancements
- Full integration capabilities with secure payment systems
- Calculation of sales tax and shipping in real time
- Merchandising, sales reporting, affiliate tracking, and discounting capabilities
- A preconfigured and easily deployed e-commerce solution built upon SGI Internet Server Linux OS-based thin [IU] footprint
- Integrated management, monitoring, security, and networking tools
- Single-point-of-call hardware and OS support with world-class SGI global services and support

The SGI Internet Server for e-commerce is based on the SGI IA-32 line of servers and comes preinstalled with Red Hat® Linux, SGI ProPack, and SGI Internet Server Environment.
